LADY OF VANDYKE SO WEAK FROM STOMACH TROUBLE SHE COULD HARDLY WALK, SHE SAID

Terrible Attacks of Cramps Made Her Fear She Would Die. Took Simple Home Treatment—Hasn't Had Cramp Since.

TELLS HOW SHE DID IT

"I suffered from stomach trouble for a year. I tried many things that were recommended but nothing did me any good. Everything that I ate hurt me and I would take spells of cramps that seemed so bad I didn't think I could live through them and I got so bad off I could not walk anywhere, not even across the room. These terrible cramping spells were so bad I thought I would die and everyone thought I could not live.

"I had tried doctors and got no relief and was at my wits end when Acid Iron Mineral was recommended to me as the very thing for stomach trouble and I commenced to take it and since then I have never had a spell of cramp. I now eat anything I want to eat and it doesn't hurt me. I have gained so much strength I can walk two or three miles without getting very tired and I can sleep a whole lot better, while before I took Acid Iron Mineral my sleep didn't do me any good. It has done what nothing else that I had tried could do and I consider A-I-M a wonderful medicine and believe it will do everything it is recommended to do if taken according to directions," declared Mrs. Elizabeth Grimsley, of Van Dyke, Buchanan county, Va.

When your strength gives out and you feel like dragging around all day long instead of skipping around spry and lively like of old, try taking a few drops of this natural iron in a glass of water after meals. It is simply wonderful. People all over this state recommend Acid Iron Mineral. The beauty about it is that it is just the highly concentrated natural iron, cheaper, stronger, and much better for people in need of iron. A twelve ounce bottle usually sells for a dollar, and as a tonic aid to digestion, kidneys and bladder, it can't be equalled. It is sold only in original bottles and the trade mark "A-I-M" on bottle and carton is the Ferroline Chemical Corp. guarantee of strength and quality. Most druggists have it.
