W. N. C. PRESS ASSOCIATION TO MEET IN BREVARD

The Western North Carolina Press Association which was to have met in Asheville last week was transferred to Hendersonville on account of the Asheville influenza quarantine.

Representatives of a number of Western North Carolina papers were present who profited greatly by their attendance.

The Association unanimously accepted the invitation extended by the Brevard Club to meet here at their next social meeting, the time to be announced later.

RED CROSS MEETING

The February meeting of the Transylvania Chapter U. D. C. will be held at the Library next Saturday afternoon at 3 o'clock. Dues for the year are to be paid this month—or will be increased five cents for each month's delay. There will be a Lee-Jackson program and tea will be served.

Contributions are again asked for the Red Cross hospital beds endowed by the U. D. C. at Nevilly, France.

ORR FAMILY VICTIMS OF FLU

Mrs. Perry Orr, wife of a well-

known citizen of Turkey Creek, died last week of influenza. Her death was followed by the deaths of a daughter and daughter-in-law.

All the other members of the family are also suffering from the disease.

OYSTER SUPPER A SUCCESS

The oyster supper held in the Carrier building on Saturday afternoon and evening attracted a large number of patrons. Besides oysters, sandwiches and salad were served. The affair was given under the auspices of St. Philips Guild and a substantial sum was realized to be used in carrying on the work of this organization.

Nearly every newspaper carries the general news but the Brevard News is the only one carrying the most important Transylvania news.

CHATTANOOGA PLOWS

The beam is high and the front of the plow is so low that it does not gather trash, is a self-cleaner. It plows where others fail. We carry this plow in several sizes; one horse, light two horse, regular two horse and heavy two horse.

We also have this plow in the hillside sizes. We have sold several makes of hillside plows, but we find that this one gives the best satisfaction.

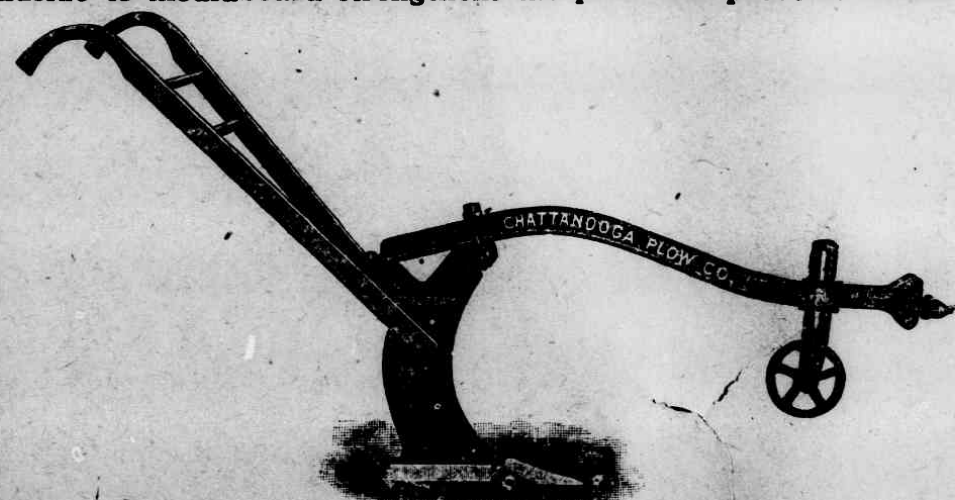

A sub-soil plow will pay for itself in one season. Get one. We carry the cutters for all sizes of these plows. It is very important that you get a plow you can get new cutters for without waiting.

Ask your neighbor who has a Chattanooga Plow what he thinks of it. We have sold right at one hundred and twenty five Chattanooga Plows. Chattanooga Plows have center draft and sloping landsides which make them run light. Points are fastened on with two bolts. A new cutter with each point. These cutters are different. Their shape on the under side prevents working loose. They have V shaped ribs that fit the standards in such a way that the more strain the better they are braced. They have chilled cutting edges; good clearance, keep sharper and wear longer. The rear brace from landside to mouldboard strengthens the plow and prevents mouldboard from breaking.

These plows are ground to uniform shape, making them all about the same. The steel beams do not bend, break or wear, nor get loose.

Remember, we carry all the tools needed on the farm. Disc Harrows, Drag Harrows, Corn Planters, one or two horse. Gas or Kerosene Engines, Corn Mills, Corn Grinders, Columbus Wagons, Etc. COME AND SEE US.
