J. M. ALLISON, Manager

YOUR HEALTH

TO PARENTS AND TEACHERS IN TRANSYLVANIA COUNTY

Remembering the ordeal we experienced in many ways with the world-wide epidemic of influenza last fall and winter I would ask you to exercise constant vigilance in order to avert as far as in us lies a return to similar conditions. I do not think it necessary to go into details as to the symptoms of influenza; it was so wide-spread and its manifestations so pronounced. I would suggest that all persons take special care of themselves in every particular and if any suspicions of influenza exist, call a physician. I would call attention also to the fact that I have quarantined three homes in somewhat widely separated part of the county because of scarlet fever. So far as I could ascertain there had been in none of them any known exposure to the disease. In view of the fact that an infection from a light case results quite frequently in a malignant case, and also that the quarantine period is so long, 49 days; I would ask parents and teachers to be on the alert and to report any suspected cases. For should it become general it would almost certainly result in closing a school in the neighborhood where it was prevalent for a large part of, or it might be, the whole of its term. In view of the fact that we in common with every section of the United States stopped all concourses of people in churches, schools and places of amusement it behooves us to exercise vigilance to avoid similar experiences this fall and winter. For some reason, I cannot see why, the public is not awake to the great danger of whooping cough. A study of mortality statistics will show that its death toll is very large. For this season and always I would enjoin a rigid lookout for this matter.

Very sincerely yours,
W. J. WALLIS,
County Health Officer.

SEE THE NEW COATS AND COAT SUITS AT PLUMMER & TRANTHAM'S. NOTHING LIKE THEM EVER SEEN IN BREVARD.

CO-OPERATION

Co-operation seems to be the favorable expression on the lips of everybody these days. A man will run out in the middle of the street and shout "Let us co-operate" and then go home and tell his wife that he knows where there is some sugar that can be bought in five pound packages and send all the servants and children out after a package apiece.

Another man will argue with a non-believer in co-operation and then charge his own customers five cents for one measly doughnut.

A big husky darkey will hold his seat in a crowded car and let an old white woman hang by the strap, and then he will go out and deplore the Jim Crow law, which is being done in more ways than one these days, right in our own little town of Brevard.

Co-operation is a fine thing, but what is the use in a man's shouting it in the face of the world if he goes

home and picks out the coolest spot to read his paper and lets his wife stick in a hot kitchen making preserves for the next winter, that is not even co-operation at home, and the home is the place to start all these good moves.

Some people think that co-operation is a division of spoils, but in these days the spoils all go one way—at least they go two ways, to the rich and to the poor, and we common people in the middle have to bear all the burden, that is being done right in our own country. Let's co-operate.

Think these things over and let there be more co-operation.

Much success to Brevard and Transylvania county in the line of co-operation.

GEO. F. WOODFIN.

PLUMMER & TRANTHAM ARE RIGHT THERE WITH QUALITY AND PRICE.

ROSMAN NEWS

We came near having a very serious automobile accident Saturday night about one mile from town on the Old Toxaway road. M. P. Nix, Wilk Reed and Jess Chapman were returning from a candy party at a late hour in the night and in making a short turn in the road the car turned over and all the boys were very much hurt. Wilk Reed was badly bruised and being unconscious for some time it was feared that he was very seriously hurt, but last report he was able to be up and had gone to his home at Quebec. The other two were bruised about the head but are able to be on the streets.

On Saturday Chief of Police J. Z. Stroupe, Deputy Sheriff J. A. Gallopay and E. Sims, accompanied by Homer Loftis, made a raid in the Rock Creek section eight miles south of Rosman, captured a copper still of 70 gallon capacity, destroyed the outfit and 800 gallons of beer.

Leo L. Hileson spent a short time in Asheville during the week.

A. C. Current left Monday for Atlanta, Ga. where he expects to enter college.

Inez Glazener is visiting friends and relatives at Pickens, S. C.

Misses Norma Chapman, Maxie and Dora Reece of Quebec were guests of Mrs. Walter Reece Sunday.

Edwin Burge of Asheville has accepted a position with the Gloucester Lumber Co.

Mesdames W. A. Thomas and J. E. White were in Asheville Tuesday shopping.

Delitha Morrison is visiting her parents, Mr. and Mrs. Eugene Morrison.

Pick Whitmire left Sunday for Greenville, S. C., where he will spend a few days.

Dallas Whitmire spent Saturday in Brevard.

The following statement was auth-

orized by the Regional Director's Of-

fice, Southern Region, United States Railroad Administration:

"Another shortage of freight cars

is in prospect for the coming fall and winter. Instead of the surplus of

equipment to be found on nearly all

railroads during the dull days before

after-the-war business revival set in,

every piece of equipment now is in

use on many lines and only the most careful handling by the railroads with consistent and whole-hearted co-operation from the shipping public can prevent serious interference with business.

Federal Managers have been called upon by the Railroad Administration to utilize equipment to the fullest possible extent, and particularly to see that cars are set in motion promptly upon being loaded or unloaded.

Shippers are asked to lend a hand both by reducing detention of cars to a minimum and by careful and heavy loading so that the greatest possible service may be had from each car. From a purely selfish business standpoint, of course, it is to the interest of the individual shipper and receiver of freight to do his part toward minimizing the effects of a car shortage from which he will suffer along with the public generally."

A LEOPARD CANNOT CHANGE ITS SPOTS

Mr. Dodson, the "Liver Tone" Man, Tells the Treachery of Calomel.

Calomel loses you a day! You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into sour bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

When you feel bilious, sluggish, constipated and all knocked out and believe you need a dose of dangerous calomel just remember that your druggist sells for a few cents a large bottle of Dodson's Liver Tone, which is entirely vegetable and pleasant to take and is a perfect substitute for calomel. It is guaranteed to start your liver without stirring you up inside, and cannot salivate.

Don't take calomel! It can not be trusted any more than a leopard or a wild cat. Take Dodson's Liver Tone which straightens you right up and makes you feel fine. Give it to the children because it is perfectly harmless and doesn't gripe.

Nashville Tenn. (Special Correspondence)—On August 29th a commission composed of Bishop James Atkins, of North Carolina, John R. Pepper, of Tennessee, Dr. Belle H. Bennett, of Kentucky, and Mrs. Luke G. Johnson, of Georgia, sails for Europe to arrange for the opening of extensive religious and philanthropic work in Belgium, France and other war-torn countries.

They represent the Centenary Commission and the Board of Missions of the Methodist Episcopal Church, South, which have set aside \$5,000,000 of Centenary funds for religious reconstruction in Europe.

They go with authority to purchase property and open work at once in Belgium and to make a careful survey of the needs in other countries and recommend an adequate program. Orphanages, schools, social centers, religious literature and direct evangelism will be the methods employed.

In some of the countries to be entered the work will be conducted in co-operation with the Methodist Episcopal Church, which is already operating in France, Italy and the Balkans, and is planning to expand its work greatly as a result of the Centenary, which in the two churches brought missionary pledges aggregating more than \$150,000,000.

When the State Tax Commission shall have completed its task of equalizing the taxable property of North Carolina and the Legislature finishes

the job of providing machinery for an equitable adjustment of governmental expenses the people will begin to see visions of a brighter and a better day. North Carolina will then take her place with the rich, progressive commonwealths having a low tax rate. There is no argument against the elimination of discriminations and this is precisely what the new re-valuation act is expected to do.
