PLUMBING and PLUMBING SUPPLIES

### AROUND THE WORLD WITH THE AMERICAN RED CROSS. At Saloniki.

The veritable mountains of relief supplies turned out by the millions of chapter workers during the war made the American Red Cross one of the biggest "manufacturing concerns" in the world, with great warehouse space at scores of strategic points all around the globe.

One of the biggest distribution centers was at Saloniki, Greece, and in this picture Bulgarian prisoners of war are seen there unloading a Red Cross cargo of 2,300 boxes from a French transport. At the right is seen one of the American Red Cross canteens, fleets of which were used in rushing relief to points where the suffering was greatest.

### AROUND THE WORLD WITH THE AMERICAN RED CROSS. On German Soil.

In the City Square of Treves, Germany, headquarters of the allied military forces, an ancient cross surmounting monument marks the city's center of traffic. For this reason American Red Cross officials converted it, as shown by this picture, into a directory of all Red Cross activities in the city.

# Perfect Carbonation

The care given the Chero-Cola bottle and the accuracy in measuring Chero-Cola syrup would be labor lost without proper carbonation. To insure perfect carbonation, cold water, chilled by ice machines to 38° F is used in making Chero-Cola.

Cold water carbonation (Perfect Carbonation) gives life and vim to snappy bubbling Chero-Cola, which is yet another reason for its unflinching popularity.
