POULTRY

Isn't it about time for one of those dandy chicken dinners? You know what a "hit" they always make.

We have a fine selection of chickens for you to choose from now—frying chickens, roasting chickens and stewing chickens.

Or, if you prefer some other kind of poultry—or a good juicy roast—we can give you just what you want.

MANY LOST FORTUNE TRYING TO GET RICH

Hundreds Caught Under Stock Market Landslide But Those Who Invested in Government Securities Are Safe.

Whether or not many persons from this section were "caught" in the recent slump of the New York market probably will never be known, and there is no way of estimating the amount of money lost. But it is definitely known that many men and perhaps a number of women were badly "stung" and that their losses ran far into the millions of dollars.

It goes without saying, of course, that their losses came from the market collapse of certain securities or because they were unable to weather the storm when stocks, which they had bought on margin, suddenly depreciated. In other words, much of the loss was because men and women lured by the promise of great profits matched their wits with the old war horses of the speculation game, and as a result many little fortunes were utterly wiped out.

Many business men realized some time ago that certain market quotations in Wall Street were abnormal—of course all of them realized the risk of speculating on vague promises of profit—and warning after warning was issued to the men and women of moderate means not to endanger their money in any get-rich-quick scheme which might be offered.

Those persons who invested their savings in such standard securities as Liberty Bonds and Victory Notes, or Treasury Savings Certificates or War Savings Stamps intending to hold to maturity, were not caught in the land slide, for government securities are always redeemed at full face value upon maturity. They provide the best protection in the world and the man or woman whose investments are represented by such securities—and who holds these securities—is always absolutely safe regardless of anything that may happen in the speculative stock markets of the country.

Of course the immediate market value of Liberty Bonds and Victory Notes fluctuates, but holders of these securities may rest absolutely easy because the changes in the market prices of these government securities are far less than in other bonds and their intrinsic worth with the Government back of them demands that on maturity they will be paid for at just exactly one hundred cents on the dollar. "Better safe than sorry."
