

THE HARDWARE QUESTION SOLVED

Going to Build

No matter what you intend to build — whether it's a house, barn or merely a shelf in the pantry — you have to have tools. And the better the tools, the better the job. Poor tools are expensive at any price. They last only a short time and never do first-class work.

To be sure of getting tools worth buying, get them from us and you will be proud of your purchase. In addition to the tools, you most likely will need other things in the hardware line.

We have locks, doorknobs, hinges, brackets, nails and everything you will want.
