### Mine Sweeper No. 38.

This little boat was one of the fleet of 50 which cleared the North Sea of 55,000 mines.

The Fleet has just returned to this country and was given a big reception in New York City.

These boats would sometimes be out for as long as twenty-five days in the storms and seas for which the North Sea is noted. The work was declared impossible by other navies, but the United States went ahead and completed this work before the scheduled time.

The U. S. Navy once again did the impossible.

## Delicious Syrup and Molasses

Those fine, flavor hot cakes taste all the better when covered with some of our clear, sweet syrup that comes to you fresh and clean.

We sell the best known, most reliable brands on the market—corn and maple syrup—at prices that you can not beat anywhere else.

And our stock of molasses for baking and cooking purposes will please you in every way—in quality, richness, flavor and price. Give us a trial!

### Shooting the Mines.

The U. S. Mine Sweeping Detachment has just returned from its work in the North Seas. The ever present danger of floating mines was counteracted by the sharp eyesight of the men who were behind the guns. Their job was to pick off the mines as they appeared and explode them by direct hits. The lives of the other men aboard and the safety of the ship depended on their keenness.

A large proportion of the 55,000 mines laid in the North Seas by the U. S. Navy was destroyed in this way. This is just one of the jobs that comes in the career of a U. S. sailor; one of the experiences that gives him a grip on himself and makes him a regular fellow.
