Cost of Safety More than Doubled

The increased cost of the various materials and appliances used in the operation of the railways is well illustrated by the two signal towers shown herewith, which are located on the main line of the Southern Railway, sixteen miles south of Washington. These two towers are part of the electric automatic block signal system, protecting the double-tracked line of the Southern Railway System between Washington and Atlanta. Installation of these towers was completed May 15, 1914, at a cost of \$3,207.00. To install two similar towers in 1920 would cost \$5,000.00.

TO SETTLE WITH THE WORLD

Discussions That Have Been In Progress For Some Time Give Promise of Speedy and Happy Outcome.

Washington.—Early recognition of the new government in Mexico was forecast by Secretary Colby.

In revealing that "discussions" have been in progress with Roberto V. Pasqueira, confidential agent of the Mexico City government, however, Mr. Colby said that these gave "promise of a speedy and happy outcome."

The announcement came as a surprise. Earlier in the day a report circulated in New York that recognition was imminent met with emphatic denial at the state department.

A few hours later, however, Secretary Colby made public a letter from Mr. Pasqueira as the basis for his announcement, saying it afforded a foundation "upon which the preliminaries to recognition can proceed."

"I think I am warranted in saying," Mr. Colby's formal announcement said, "that the Mexican question will soon cease to be a question at all, inasmuch as it is about to be answered, not only as it concerns the United States, but indeed, the whole world as well."

Seize Italian Steamer.

London.—British warships have seized and taken to Batum the Italian steamer Ancona, bound for Novorossiysk, with a cargo for Soviet Russia, says a Moscow dispatch to The Daily Herald, organ of labor.

Must Replace Craft.

Paris.—Germany must deliver 275,000 tons of shipping to the allies as compensation for the sinking of the German fleet in Scapa Flow, the reparations commission decided.

THE AMERICAN RED CROSS IN PEACE TIME Disease Prevention

Through its Health Service the American Red Cross has begun a nationwide concentrated effort in co-operation with established organizations to reduce greatly the amount of preventable disease and physical defects found among the country's 105,000,000 population. Education is its most powerful tool. Special attention is devoted to children, and this picture shows a typical Red Cross welfare clinic where little ones are treated and mothers instructed in the proper care of them.

THE AMERICAN RED CROSS IN PEACE TIME Eastern Europe

Americans who contribute to the Red Cross would feel amply repaid for their generosity if they could see what it means to hundreds of thousands of war weary sufferers in the Balkans. Here is a widowed Rumanian mother with her five children just after a visit to a Red Cross relief station. All are barefoot and the boy at the left is wearing clothes made of scraps from the battlefields. They have just received winter clothing, food and condensed milk for the baby. Similar work is being done for Russian refugees driven from home.

THE AMERICAN RED CROSS IN PEACE TIME Aiding Poland

But for the work of American Red Cross agents in all regions of Poland during the last twelve months, hundreds of thousands of people in that tragic country today would be under the sod, victims of hunger, disease and exposure. The job in Poland is one of tremendous proportions and cannot be abandoned for many months to come. Here is a typical scene: A Red Cross worker "at the throttle" of a soup kitchen where hundreds of undernourished women and children are fed daily.
