FORDSON FARM TRACTOR

The Fordson Tractor was made to meet the demands and necessities of the every-day American farmer. It was made with the thought that it was the necessity of the man of forty acres as well as the man with one thousand acres. It was made not only for plowing, harrowing, discing, drilling, seeding, mowing, reaping, but for all work on the farm where power is necessary. It was made to bring conveniences to the farmer's home as well as for the cultivation of his fields. It was made to furnish power for the cream separator, saw, filling, cutting feed, sawing wood, furnishing power for milking, washing, supplying the house with running water, electric lights, and the hundred and one things on the farm. It was made to do all this economically and in a reliable way. It was made to be the big profitable servant on the farm.

And it has not failed in any of the expectations had for it. It has been tested as no other Tractor has been tested. It has been proven reliable and can furnish proofs impossible to any other Tractor. It has done these things not only in America but in Europe, Asia, Africa, and in the Islands of the Seas. It has met successfully the demands of farmers in every part of the civilized world.

Therefore, the Fordson Tractor can meet all the conditions of your farm. When you buy a Fordson, you are not buying any experiment — you are buying a servant and a money-maker for you that you can depend upon absolutely from the first day you put it to work. It is easy to understand. It possesses all the power you want. It is simple in control. It is more flexible than you imagine. It will help you cultivate every foot of ground you have, and every day in the year you will find use for it on the farm. Its appeal to the farmer is in its dependable service and the wide variety of work it can do.

We'd like every farmer that reads this, if he hasn't a Fordson Tractor already, to come to us and let us sell him one. Let us demonstrate its powers, its values, on your farm. Let's get into details — power, reliability, economy. While the sale of a Tractor gives us a small profit, the purchase of a Tractor to the farmer means a money-making servant every day for years. So the sale of a Fordson means more to the purchaser than it does to us. We are arguing for your good, Mr. Farmer. Come in and talk it over. Your time against ours. It is worth it.

And remember, when you buy a Fordson Tractor, we are right here to keep that Tractor in reliable running condition every day. You won't have to wait if anything should get out of order. We are right here to keep it right, because one of the conditions of the Fordson Dealer is that he must keep on hand always a complete supply of parts. This is a guarantee we don't believe you can get with any other farm Tractor. Come in. Let's talk it over.
