GENUINE "BULL" DURHAM TOBACCO

"THE PRAYER CORNER" "Encouragement"

He brought him forth abroad and said, Look now toward Heaven. It is interesting to notice the patience and kindness of the Lord in the way He sought to encourage Abraham. Did you ever notice it? He brought him forth abroad and said Look now toward heaven.

It is always a good thing to get people to look toward Heaven. God likes to point us there, especially when we are discouraged for He loves to be an encourager.

There is always a bright outlook heavenward, however dark it may be on the earth. There always are stars shining there though clouds may be all about us where we stand. Heaven is a place of hope. God is there, glory and home are there. We should train ourselves to look up and not down. The heart follows the eyes, and if we accustom ourselves to keep our eyes towards earth, we shall grow to care only for earthly things; but if we look up, our life will grow upward, our affections will be fixed on things above, and we shall have our treasure in heaven. And where our treasure is, there will our heart be also, as our Master has told us.

Look up, dear heart; The skies are blue; Flowers bloom for you. Gods love is true, Let gloom depart. Look up and smile, Enjoy your work And never shirk The dangers lurk Life's worth the while. Look up and trust Hope is not vain. God's power will reign And never wane, The Lord is just.

A PRAYER:

Our Father, help us to live with up turned faces, so that we may catch the glory of Thy Presence, and reflect it to all around us.

Save us from all downward looking, which would lead us into pitiful living. Give us the lofty look, that we may have the elevated life.

Lift up our souls to the pure, bright, serene, radiant atmosphere of Thy Presence, that there we may breathe freely, there repose in Thy love, there be at rest from ourselves, and from all things that worry us, and, thence return, arrayed with Thy Peace, to do and hear what shall please Thee, for Jesus Sake, Amen, C. D. C.

BREVARD CHURCH DIRECTORY:

BAPTIST CHURCH:

Rev. C. E. Puett, Pastor; Preaching every Sunday at 11:00 A. M.; and 7:30 P. M.; Sunday School, 9:45 A. M.; D. F. Moore, Supt.; Prayer meeting every Wednesday night, All welcome.

BANQUET AT INSTITUTE WAS SPLENDID MEETING:

Alumni of W. N. C. Methodist Schools and Colleges Present — Fine Supper Served by Domestic Science Class.

A meeting of the Alumni and Alumnae of the Methodist Schools and Colleges in Western North Carolina was held in Brevard Institute Friday night, February 25th, 1921.

It was a banquet and was well attended. Thirty-five or more were present.

Mrs. O. H. Orr was convenor, assisted by Miss Poindexter.

Rev. A. S. Raper, pastor of Brevard Methodist Church, and a Trinity student, stated the object of the meeting.

Mr. Swain Elias of Canton, N. C., gave a toast from Trinity College.

Miss Whicriant gave a toast from Davenport College.

Miss Fisher from Davenport sang a beautiful solo.

Dr. T. W. Summey and Mr. Grogan gave toasts from Brevard Institute.

The educational address of the evening was made by attorney Welch Galloway of Brevard, N. C.

His address was clear cut and forcibly delivered. He especially stressed the need of Christian education. A delicious supper was served by the Senior Domestic Science Class as follows:

Instructor, Miss Alma Trowbridge; Members of Class: Evelyn Allison, Daisy Edwards, Pearl Edwards, Grace Neves, Mary D. Palmer, Myrtle Potter, Inez Smart, Olivet Walter

Before the banquet was over Rev. Raper gave a toast for the Senior Domestic Science Class which was unanimously given in unison by all present.

MRS. ALICE GRESHAM DODD, mother of first American soldier killed in France, who gives entire credit for recovery of her health to the well-known medicine, Tanlac.

The following remarkable statement was made recently by Mrs. Alice Gresham Dodd, the mother of Corporal Jas. B. Gresham, who was the first American soldier killed in France. The statement was made at the Gresham Memorial Home, which was presented to her by the patriotic people of Indiana as an evidence of their appreciation of the services rendered to his country by her son.

The shock of her son's death resulted in a serious breakdown in Mrs. Dodd's health, but every one will learn with interest and pleasure that she is now in splendid health again. Mrs. Dodd gives the entire credit for her recovery to the celebrated medicine, Tanlac.

She said: "After my dear boy's death I had a general breakdown in health. At first it was just indigestion. My food would upset me and I had to diet myself very carefully. I also had rheumatism with severe pains in my shoulders, back and arms and at times I would suffer greatly, and my joints would become swollen and stiff. I was hardly able to do but very little about the house and at times could not even cook a meal. I became very nervous and restless and at night would lie awake for hours.

"A friend of mine advised me to try Tanlac. I am glad I did, for it proved to be the best medicine I have ever taken. It soon gave me a splendid appetite and relieved me entirely of indigestion. My rheumatism also disappeared and I am now able to do my house-work with the greatest ease. My nerves are steady and strong. I sleep well at night and my health is better than in years. I shall always be grateful for what Tanlac has done for me."

Tanlac is sold in Brevard by the Davis-Walker Drug Co., and in Davidson River by J. J. Patton & Son and C. R. McNeely, Lake Taxaway, N. C.

THE FORDSON TRACTOR

The Fordson Tractor then asks you to buy it because of what it has done for your neighbors. It asks you to buy it on its merits. It asks you to buy it, Mr. Farmer, because you have use for it every day in the year. All the uses for the Fordson Tractor have not yet been uncovered because new places where machine power can take the place of human power, where machine power can take the place of human power, where machine power can supplant horse and mule power, are being found every week, and wherever such discovery occurs, the Fordson Tractor will fill the bill more satisfactorily than any other form of power.

The Fordson is simple in design, and it is very strongly made of the highest quality of iron and steel. It is the product of the greatest mechanical genius the world has ever known, and it is most economical in first cost and after expense. The Fordson Tractor on your farm will increase the value of every foot of ground in that farm. It will put more dollars and cents into every hour you put into the farm.

Now why not have a Fordson right away? Take up the subject with us. Come in and get the details, and all the particulars. It is only a matter of time until you buy a farm Tractor — that is sure. So don't put it off when it means money to you to act promptly.

There are many Tractors clamoring for the patronage of the farmer. The very air is charged with the noise of claims. One would think that all the farmer had to do was to buy a Tractor and he would enter into the Millennium.

Well, consider this fact — there are a great many different makes of Tractors. Tractors have been on the American market for twenty years. In that time some three hundred thousand Tractors have been sold to the farmers in the United States. The Fordson Tractor has only been on the market two years, and in that time more than one hundred thousand Fordson Tractors have been sold to the farmers of the United States.

Two and two makes four. Two and two always will make four. If the Fordson Tractor had not delivered more good work, more satisfactory work, more economical work, than any other farm Tractor, it would not have sold in the ratio of anywhere from five and more to one. "The proof of the pudding is in the eating." The proof of the superior merits of the Fordson Tractor is in its larger sale and use.

Rat Heroes.

From Paris comes the news that the authorities are making war on rats. But the despised rat once did the French a good turn, according to Colonel Kington's history of the war. He says: "On the parapets of the front trenches are what look like window flower boxes. They contain chemical materials for making a smoke screen to lift the German gas when it comes. All the rats in the trenches congregate round these smoke boxes when the gas comes, as they realize that they save themselves from suffocation. This process of lifting the German poison gas was discovered quite by chance. During a gas attack some straw was set on fire by accident and forced the German smoke up. The rats came in swarms to squat round the burning straw and gave the French the hint."

New Study of Child.

Child study from the standpoint of the mother is the subject of a course offered by the College of Industrial Arts at Denton, Texas, which is the state college for women, according to a recent issue of School Life. The course consists of lectures, library readings and psychological laboratory work, and is intended to fit the young woman to be mistress of a home and the mother of a family. Child instincts and interests, heredity and environment, subnormal and defective children, disease of children, and the moral and religious nature of children are all fully studied.

Suspicious.

"I met your husband today and he was telling me that he is in love with his work." "Was he, indeed? I must take a look in at the office."
