Aw Boss, That Aint no Way to Act!

BREVARD INSTITUTE NOTES:

Mrs. Marj Ellen Pike spent a few days this week with friends in Greenville, S. C., and attended the recital given by Alma Gluck on Monday evening.

Last Saturday at 8 P. M., the Colman boys' society gave a very amusing farce entitled "fun on the Transylvania local". It was very cleverly staged and the boys' impersonations of female characters were especially good and amusing. Miss Wain was the director.

Friday night, a debate was held between the Fruitland and B. I. boys, at the B. I. Auditorium, at the same time that the second team from Fruitland debated at Fruitland against a team from Sylva. The second team from the Institute went to Sylva on Monday to debate against the second Sylva team.

The judges here, Mr. Hamlin, Mr. Wiley and Mr. Henry decided in favor of Fruitland, the negative side. At Sylva, the B. I. team defeated the Sylva team, and at Fruitland the Sylva team won. All winners were on the negative side. As no school in the triangle won twice none of the teams will go to Chapel Hill, for the inter-collegiate triangular contest.

Misses Margaret Osteen, Ruby McDermans and Olivet Walter, who spent the week following Easter Sunday, at their homes, returned Monday night.

Miss Lucy Poindexter of Winston-Salem is spending some weeks with her sister, Miss Poindexter, of the B. I. faculty. They spent the week-end in Asheville, N. C.

Mr. and Mrs. Edwin Montgomery of Buffalo, N. Y., who have been visiting their daughter Virginia, a B. I. student, left for their home on Monday.

FORD TOURING CAR

About Ford Cars--Solid Logic

THE FORD CAR has been fundamentally right from the beginning. That fact made it "The Universal Car." It has always lead in lowest first cost as well as in lowest cost to maintain and operate.

Runabout, Touring Car, Coupe, Sedan, Truck and Fordson Tractor — we have them all and will make reasonably prompt delivery.

Simplicity has ever marked the designing and building of Ford cars, trucks and tractors. Henry Ford and his engineers have always striven for simplicity with strength. The success of the Model "T" Ford car and a great part of the Ford Motor Company's success has come from an early understanding and appreciation of that principle in motor car construction. The fewer the parts in a car, fewer the parts to go wrong. When that simple truth is carried out in producing a car, as it is in Ford cars, trucks and tractors, the result is bound to be a simplicity of design and building that means simplicity, durability and economy of operation.

This simplicity of construction proves itself in the ease with which Ford cars, trucks and tractors are driven. Four million five hundred Ford cars in daily service proves every claim we make.

More than ever we are sure the Ford car is your necessity — let's have your order today.
