

Scientists say that whole wheat contains all the food elements essential to man. Bread is the staff of life, but the nutritive value depends on the quality of flour that is put into it.

TO TAKE CENSUS OF ALL DISABLED

OCTOBER 30 THROUGH NOVEMBER 4 TO BE CRIPPLE CENSUS WEEK IN THIS STATE.

GOVERNOR APPEALS IN BEHALF OF CRIPPLES

Department of Vocational Rehabilitation and Bureau of Child Welfare Wish to Get Names of All Physically Handicapped Persons in N. C. in Order That They May Be Rehabilitated; or, if Children, Receive Treatment.

Raleigh.—Every citizen should have his chance.

This is the basis upon which the Department of Vocational Rehabilitation of the State Department of Public Instruction and the Bureau of Child Welfare of the State Board of Public Welfare are proceeding in instituting Cripple Census Week which will be observed all over North Carolina from October 30 through November 4. The purpose of this state-wide census will be to obtain the names of all disabled persons, children and adults, in North Carolina who may be aided by training or treatment.

Governor Makes Appeal.

Governor Morrison has issued the following appeal to the people of North Carolina to aid these departments in taking this census:

"It is the inalienable right of every one of God's creatures to have the opportunity to live his or her life as usefully and as happily as possible; and since every person has that right, we, as citizens of a great and benevolent Commonwealth, owe it to those who are physically incapacitated to do all within our power to either eliminate or alleviate their disabilities. In the fulfillment of this obligation, we will not only be of real service to the maimed and crippled but will serve our State.

"In order that as many of such people as possible within the borders of our State may receive assistance that will aid them in rehabilitating themselves, I earnestly request the people of North Carolina to set aside the period of October 30th to November 4th, inclusive, as Cripple Census Week, and urge that during that time, especially, all our citizens who may know of crippled persons notify officials of the Department of Vocational Rehabilitation of the State Department of Public Instruction and Bureau of Child Welfare of the State Department of Public Welfare, who have these matters in charge.

"By thus taking a census of those of our people who are physically disabled or incapacitated because of some bodily impairment; and whenever possible, securing treatment or vocational training for them, we will surely help to improve the usefulness and welfare of a portion of our population which merits aid from those of us who are more fortunate.

"Through a census, the Department of Vocational Rehabilitation may enlarge its work in helping the handicapped man or woman help himself or herself, and the Bureau of Child Welfare may widen its service by ascertaining the number of crippled children who need treatment and by aiding them to receive it.

"Your individual co-operation is earnestly sought. I feel that this appeal will meet with sympathetic approval. In seeking out the crippled of your community and giving their names to the superintendents of public welfare, superintendents of schools, health officers, nurses, farm and home demonstration agents, Red Cross and Y secretaries, you will help toward the rehabilitation of this unfortunate portion of our population and will increase the general welfare of North Carolina."

Those Eligible for Aid.

Those eligible for aid from the Vocational Rehabilitation Department are: All physically handicapped residents of North Carolina of any race and of either sex who are capable of being rendered fit to engage in an occupation, and have lived in the state one year or more. The assistance offered to these is vocational training for a suitable occupation, aid in securing necessary artificial appliances and help in finding suitable work. Those who are not eligible are aged or helpless persons requiring permanent custodial care, epileptic or feeble-minded, and others not susceptible of rehabilitation.

All applicants under sixteen years of age will be referred to the Bureau of Child Welfare. Those eligible for treatment, supervised by this Bureau, are all children, white or colored, under sixteen years of age who are lame, have defects in arm or leg, or deformity or disease of arm, leg, or spine.

Social Agents Take Census

The census of the disabled in each county will be taken by the various social agents there, i. e., superintendents of public welfare, superintendents of schools, health officers and nurses, farm and home demonstration agents, Red Cross and Y. M. C. A. secretaries, the Rotary and Kiwanis Clubs of the State have already signified their interest and willingness to support the program. All citizens are requested to refer to some one of these agents the name, address and nature of disability of any physically handicapped person who it is thought will profit by training and, if a child, by treatment. At the end of the Census Week, the agents will forward these names to H. L. Stanton, Supervisor of Vocational Rehabilitation, who will refer all names under 16 to Miss Emeth Tuttle, Bureau of Child Welfare. The co-operation of all citizens is asked that accurate information in regard to the problems of North Carolina's disabled may be gained.

Cripple Census Week to Bring Opportunity For Training and Treatment.

Raleigh.—On the records of the Department of Vocational Rehabilitation of the State Department of Public Instruction are many cases of disabled persons who by aid of this Department have been transformed from hopeless, helpless drags upon their communities into productive units of society. Cripple Census Week, which will be observed October 30-November 4 has been instituted by the Rehabilitation Department in conjunction with the Bureau of Child Welfare of the State Board of Charities and Public Welfare in order that many other physically handicapped persons in North Carolina may be restored to usefulness and content.

H. L. Stanton, State Supervisor of the Department of Vocational Rehabilitation, states that during the past 12 months 51 persons have been helped to employment by his department; 49 have been provided with training, and 54 cases are pending further action. Many who are now in process of rehabilitation will be restored to economic independence within the next months, says Mr. Stanton.

One of the most striking cases handled by this Department was that of a paralytic so badly crippled in one hand and arm and in both legs that he is obliged to crawl about in a wheel chair, but who, through the aid of the Department of Vocational Rehabilitation, is now an interested and hard-working cobbler, making a success of his vocation. Other disabled persons will have the chance to avail themselves of the help of the Rehabilitation Department during Cripple Census Week.

To Aid Crippled Children.

Cases of crippled children will be referred to Miss Emeth Tuttle of the Bureau of Child Welfare of the State Board of Charities and Public Welfare. Whenever possible and practicable, treatment will be secured for such children, either at the State Orthopedic Hospital at Gastonia, or in local hospitals. The Bureau of Child Welfare is anxious to get the names of all crippled children in the State, but particularly of those between the ages of 14 and 16 years. The State Orthopedic Hospital cannot admit children over 14, and aid from the Department of Rehabilitation is not available for those under 16; so that the Bureau of Child Welfare may render valuable service to children between these ages who are ineligible for help from other agencies.

By securing treatment for crippled children, the Bureau of Child Welfare looks towards the prevention of the development of the crop of professional beggars in the future. Many people do not know that much can be done for crippled children, — sometimes even complete cure can be effected, and frequently marked improvement of their state of disability.

This is a chance for good Samaritan work on the part of public-spirited citizens of the State. Those who know of cripples are urged to give the names of these to some one of the various social agents in the county who will forward them to H. L. Stanton, State Supervisor of the Department of Vocational Rehabilitation.

Insurance Neglected

May mean weeping in smoke or in sadness viewing the ruins of your home.

But Insurance shows business ability. Means satisfaction in protection. Means Contentment of mind. Means the saving of a lifetime's earnings. Means the comfort of old age.

Destruction has visited your neighbor and our neighboring town — It awaits us.

Insure while it waits — tomorrow may be too late.

The Finishing Touch

The finishing touch to the exterior of your home is the roof—the roof that must afford you perfect shelter and at the same time be an element of beauty.

Cover your roof with Ruberoid Strip-shingles. They have the same lasting qualities as Ruberoid Roll-roofing that has stood the test on thousands of roofs during the past thirty years; they are economical, for, due to their patented shape, there is a saving in original cost and application.

The old tones, of rich Indian red and cool sage green, of the crushed natural slate finish give a

generally soft effect to the color of the roof as a whole. The cut corners give a rugged appearance to the shingle butts which, together with the extra thickness, impart a massive appearance to the roof.

Another striking feature of Ruberoid Strip-shingles is the varied designs in which you may lay them by either combining the colors or reversing the strips.

Come in and see the new Ruberoid Strip-shingles and secure an attractive folder showing in color some of the many attractive designs.
