

MRS. G. W. HALL SICK FOR YEARS

Wants Women to Know How She Was Made Well by Lydia E. Pinkham's Vegetable Compound

Lima, Ohio.—"Indeed, your medicine is all you say it is! I had very severe troubles such as women often have, and could do no heavy work. I was sick for several years, and from reading your ads, I finally decided to take Lydia E. Pinkham's Vegetable Compound. I am now doing my own washing, which I haven't done for several years, and can walk long distances without those dragging pains and weak feelings. The Vegetable Compound is fine, and I never forget to say a good word for it to other women when they say they need something."—Mrs. G. W. HALL, 539 Hazel Avenue, Lima, Ohio.

There are many women who find their household duties almost unbearable owing to some weakness or derangement. The trouble may be slight, yet cause such annoying symptoms as dragging pains, weakness and a run-down feeling. Lydia E. Pinkham's Vegetable Compound is a splendid medicine for such conditions. It has in many cases relieved those symptoms by removing the cause of them. Mrs. Hall's experience is but one of many.

Sympathy Astray.
It was Saturday night. In the gutter stood a large, red-faced woman. On her ample form was displayed a card, bearing the words: "Disabled Policeman."
Passers-by, stopping to read the card and drop coppers into the woman's outstretched hand, soon formed quite a small crowd, and at last the inevitable hand-to-hand exchange appeared on the scene.
"What is this?" he asked the woman pointing to the card.
"It's all right, guv'nor," replied the woman. "I disabled him last night, so I'm just collecting the fine."—London Answers.

A MAN WHO BECAME FAMOUS

Doctor R. V. Pierce, whose picture appears above, was not only a successful physician, but also a profound student of the medicinal qualities of Nature's remedies, roots and herbs, and by close observation of the methods used by the Indians, he discovered their great remedial qualities, especially for weaknesses of women, and after careful preparation succeeded in giving to the world a remedy which has been used by women with the best results for half a century. Dr. Pierce's Favorite Prescription is still in great demand, while many other so-called "cure-alls" have come and gone. The reason for its phenomenal success is because of its absolute purity, and Dr. Pierce's high standing as an honored citizen of Buffalo is a guarantee of all that is claimed for the Favorite Prescription as a regulator for the ill peculiar to women.

PUT SAFETY LAST

British Sailor Reversed the Usual Order of Things.

Much to Be Said in Commendation of the Change, Says Writer in Eastern Magazine.
Captain Campbell, V. C., royal navy, hero of mystery ships, used to put in his night order book as a closing admonition, "safety last."
Time and again Captain Campbell took a chance and came through, while the cautious took their caution down to Davy Jones' locker.
America was discovered because Christopher Columbus dared to step across the sky line. The restless and audacious enterprise which advanced the frontiers of American business was but a carrying on of the explorer and the pioneer.

The sheltered-life theory means either premature demise or an over-supply of weaklings. The street that breeds strong men is not Easy Street. Danger and risk are as essential in molding strength as air and food are, observes the Saturday Evening Post.
America would do well at this moment to call back something of the devil-may-care bravado of her cattle kings and her clipper captains. They were strong men with strong views, but also with strong virtues; pungent characters in a pungent age.

The life of Sir William Van Horne is a great sermon on the text "Safety last." Donald Smith and his colleagues had a vision of clanking, all-British North America with an iron band. They came to Mittenpols to consult with James J. Hill.
"You read," said Hill, "a man of great mental and physical power to put the line through. Van Horne can do it."
From the first the scheme was unblemished. The railway man who undertook it was risking his career. Van Horne had before him an assured success in the United States, but as a friend put it, "He went off chasing rabbits into the wilderness." The task which called him was the execution of the greatest railway project in the world. The natural obstacles to be overcome were unparalleled. The unshunted he turned his back on the easy places and ventured forth.

Said one of his engineers, "He always acted as if nothing were impossible. He was not always right. He was the kind that would go out on the side of a mountain and say 'Blow that down.' He would not ask if it could be done. He would say, 'Do it.' Sometimes the thing was impossible under ordinary circumstances, but he had such luck. Some accident or other would happen so the thing could be blown up or torn down without any harm. His luck, his daring and his fearlessness just carried him through." Or, to put it more clearly, pluck carried him through.

Physical obstacles were the least of the opposition met by Van Horne and his colleagues. "On one fateful day in July," writes Professor Skelton, "when the final passage of the bill was being tenuously awaited, the Canadian Pacific, which can borrow \$200,000,000 any day before breakfast, was within three hours of bankruptcy for lack of a few hundred thousand dollars."
Optimism is a nice word, but right now pluck is a thousand times more what we are needing. Amid the softness of today we need more stoutness of heart. There is a Gaelic phrase, "Shuid fear ferrail," which means "the sons of manly men." On the floor of the stock exchange, on the floor of the working foundry, wherever there is hesitation there is a call for the sons of manly men, a call for those who are possessed of that good old-fashioned Anglo-Saxon virtue of pluck.

Stangy but Sincere.
Without my knowledge son asked his gang to come over for a Halloween party. Neither amusement nor food had been arranged for, but we made an impromptu party, rolled back furniture, turned back rugs, and gave them the house. I unearthed the material for Halloween games, raided the ice-box, and afterward took them out to the kitchen, where we cracked nuts and made fudge.
When they said good-night, son he thought himself.
"Why, say, kids," he said, "mother did not even know you were coming. I'll say she's some shrew!"
And the boys snarl, "I'll say she is!"

Paper That Can Be Washed.
Many possible uses suggest themselves for a special paper recently produced and patented by a Japanese inventor. This paper, according to an illustrated article published in the Popular Mechanics Magazine, is remarkably strong and can be crumpled up and washed with soap and water, much as one would wash clothes. So durable is this paper that it can be used as a covering for umbrellas, and when soiled can be easily cleaned at home.

Watching Forests.
New York is the first state in which a reinventory of the wood-using industries has been made, says the American Forestry Magazine. Several other states have now engaged in similar work, the value of which from an educational standpoint alone cannot be overestimated. The more states that will hold the stop watch, so to speak, on forest depletion, the more clearly will we be able to gauge the national effects of its progress.

LESSON FOR JANUARY 7

JESUS HEALING ON THE SABBATH

LESSON TEXT—Luke 13:10-17.
GOLDEN TEXT—It is lawful to do well on the Sabbath day.—Matt. 12:12.
REFERENCE MATERIAL—EX. 20:8-11; Isa. 58:13-14; Mark 2:27-28.
PRIMARY TOPIC—Jesus Doing Good.
JUNIOR TOPIC—Jesus Healing a Helpless Woman.
INTERMEDIATE AND SENIOR TOPIC—Right Use of the Lord's Day.
YOUNG PEOPLE AND ADULT TOPIC—Right Use of the Lord's Day.

What Jesus did on the Sabbath frequently brought him into serious conflict with the Pharisees. Through the petty rules and regulations they had made this holy day, which God designed as a day of rest and the doing of deeds of mercy, a day of burden and hardship. Jesus did not disregard the Sabbath, but broke away from their traditions and showed that the Sabbath was made for man, and not man for the Sabbath. Religious rites and ceremonies should not be hardened into fetters to bind the worshiper.

I. Jesus Teaching on the Sabbath Day (v. 10).

It was the Lord's custom to go to the place of worship on the Sabbath day. His disciples will imitate Him in this. At the place of worship there is opportunity to be nearest to God, to worship Him, and to show mercy and kindness to our fellowman.

II. Jesus Healing on the Sabbath (vv. 11-13).

1. A Woman in Need (v. 11). This poor woman's back was bowed down with eighteen years of great suffering. Though thus afflicted she found her way to the place of worship. Men and women are in great need today. Their bodies may not be bowed down with physical suffering, but there are many bowed down with the burden of sin and sorrow.

2. Called to Jesus (v. 12). He is always quick to discern those who are burdened. He spoke a word of healing to her. How welcome must have been His words. He is calling today to the many who are weighed down with guilty consciences to come to Him.

3. Laid His Hands Upon Her (v. 13). At His touch she was made straight and glorified God. It was not enough to teach. He showed His sympathy by coming into touch with the suffering woman. Christ's followers are to imitate Him in teaching, and also, in coming into direct touch with the needy, sinful, and burdened world.

III. The Indignation of the Ruler of the Synagogue (v. 14).

Under the pharisee's pretense of loyalty to God he showed that greed is of more importance than mercy and love. It was not primarily concern for the afflicted, but hatred for Jesus that moved him to indignation. He was too cowardly to attack the Lord directly, so turned to the people and let it him over their backs. He protested great concern for the healing of the people but advised that they come in the six days, and not thus have the Sabbath profaned by such a sacrilegious act as the healing of this poor woman. This man is the type of the many hypocrites among us today.

IV. The Lord's Reply to the Ruler (vv. 15, 16).

Jesus removes the mask of hypocrisy from the ruler as he points out their own custom as a condemnation of their pharisee's pretense. He argues from the lesser to the greater. If it was right to take animals which had only been tied for a few hours, to water on the Sabbath day, certainly it was right to bring relief to this woman who had been bowed for eighteen years. Human beings are of more value than animals. This woman was a daughter of Abraham and not a sinner of low-down character. The principle which Jesus set forth restored the Sabbath to its true purpose.

V. Shamed Adversaries and Rejoicing People (v. 17).

The tide was now turned. Their exposure was so great that their consciences smote them. The arguments against morals and the church are of the same type today.

The Home Altar.

With the home resting on the family altar, a new religious life will come to the world; wholesome, unswerving. The world will learn by experience to rely on prayer. We shall believe that there is more good in the world than evil; more truth than falsehood; more love, mercy and forgiveness in God, than condemnation and punishment. We shall realize that prayer is the only weapon with which the world can overcome evil.

Defense.

For wisdom is a defense and money is a defense; but the excellency of knowledge is, that wisdom giveth life to them that have it.—Ecclesiastes 7:12.

The Saint.

A saint is one who brings the sense of God's nearness to others.—Washington.

To Ascend Upward.
We must retire inward if we would ascend upward.—St. Bernard.

Is Winter Time Your Backache Time? Does Your Back Foretell Every Change of the Weather? Do You Feel Old and Stiff and Suffer Sharp, Rheumatic Pains? Then Look to Your Kidneys!

ARE winter months your backache months? Does every cold, chill or attack of grip leave you lame, aching and all worn out? Does your back throb and ache until it seems you just can't keep going another day?
Then look to your kidneys! Grip, colds and chills throw a heavy strain on the kidneys. They overload the blood with poisons and impurities that the kidneys have to filter off. The kidneys weaken under this rush of new work; become congested and inflamed.

It's little wonder, then, that every cold finds you suffering with torturing backache, rheumatic pains, headaches, dizziness and annoying bladder irregularities.
Don't wait! Delay may lead to serious or chronic kidney sickness. Realize that your kidneys have weakened in fighting the cold-created poisons and give them the help they need. Begin using Doan's Kidney Pills today. Doan's have helped thousands at such times and should help you. Ask your neighbor!
