

THAT COUGH IS ONE CAUSE FOR ALARM

Get Rid of It by Taking Cheney's Before It Turns Into Something Worse

Does that hacking cough worry you because it hangs on so? Really it is a cause for worry, for if you don't get rid of it you may find yourself the victim of a far more serious malady. Thus it would be worse than foolish to let it go on, getting worse and worse, without taking the easiest and quickest method of putting an end to the trouble and so save yourself from what might turn out to be a very serious complication.

Suppose you go to the drug store and get a bottle of Cheney's Expecto-rant and begin taking a teaspoonful every two hours. Keep it up and you'll find that by tomorrow the cough will have almost entirely disappeared and in a few days will be completely gone. The time to get the best of a cough is right at the beginning—when you first notice it. Each day you neglect it only makes it more difficult to pry loose its hold on you. The sooner you begin treatment the sooner you will get over the trouble. Begin now.

Costs Less to Keep Clean.

More than 250,000 deaths and over 4,500,000 cases of serious illness annually are ascribed by Federal and State health reports to needlessly unsanitary conditions. It is an amazing fact that most of this needless lack of sanitation is found, not in the cities, but among the rural and small-town population.

Yet wholly sanitary conditions may be brought about in the country just as quickly and easily as in the city. The actual expenditure involved is very small, especially when you consider how much the family's health will be improved as a result. It will assure also, of course, a great improvement in comfort.

Septic tanks, privy vaults, protection for domestic water supplies, rat-proof outbuildings—all of these can be provided for a little cost and a little work by any man. Full directions on how to do it, what is the best structure for each job, what tools you will require, how much cement, how to mix and place the concrete—all this may be had free on request to the Portland Cement Association, 111 West Washington Street, Chicago. Ask for "Concrete in Home Sanitation"; you will get it free by return mail.—Adv.

Louvain Library Building Checked

Nicholas Murray Butler, president of Columbia university and chairman of the National Committee for the Restoration of the University of Louvain, has just received a telegram from Cardinal Gerbod, in charge of the work at Louvain, to the effect that the architects have stopped the restoration of the 500-year-old library for lack of funds. The work was to have been financed by the educational institutions of this country, \$100,000 every student matriculated. But only \$200,000 has been contributed, and \$100,000 more is needed to complete the edifice. The photograph shows it as it is, only one quarter completed.

FEARLESS SHERIFF

Minnesota's only woman sheriff is Mrs. Anna M. Lowe. After the recent death of her husband, who was the sheriff of Slayton, Mrs. Lowe was appointed to the place. She declared that she would not carry a gun as she saw no reason for firearms, since her husband, who served thirty-three years as sheriff of Slayton, never went armed.

WHERE WILD GAME ABUNDANTS ONLY ONE SUN GUN IN WORLD

Yellowstone National Park Is Greatest Preserve in the World—Wide Variety of Animals. At Noon Sun's Rays Are Focused on Cannon in Portugal and It Is Fired Automatically.

The region of Yellowstone National park is the greatest game preserve in the world, both in point of number and variety of animals. It is the home of the largest herds of elk, buffalo, antelope and mountain sheep within the United States.

Several hundred moose range the park area. There are deer of white-tail and mule varieties, many beavers, foxes, badgers, porcupines and lesser animals. Dozens of grizzlies and black bears which entertain the tourists during the summer, sleep in Yellowstone's caves during the winter. The white gulls on Yellowstone lake leave in the fall for the Pacific coast or Great Salt lake, but a great many geese and ducks and grouse winter in the park. Detroit News.

Test This Out for Yourself—

MANY people who drink coffee regularly are troubled with insomnia; or they feel nervous, "headachy," or suffer from indigestion.

It may be hard for such men and women to believe that coffee is responsible for the way they feel. Because they have always drunk coffee, it hardly seems possible that this old habit could cause trouble.

But there is one sure way to find out whether coffee is harming you. Just stop its use for a week or so, and drink Postum.

Postum is a pure, real beverage—absolutely free from caffeine, the drug in coffee, which disturbs the health and comfort of many.

After a week or two on Postum, you will sleep better and feel better; then your own good judgment should decide whether you go back to coffee or continue on the Road to Wellville with Postum.

Postum for Health

"There's a Reason"

Your grocer sells Postum in two forms: Instant Postum (in tins) prepared instantly in the cup by the addition of boiling water. Postum Cereal (in packages) for those who prefer the flavor brought out by boiling, fully 20 minutes. The cost of either form is about one-half cent a cup.
