**Fastest Double-Star Found by Astronomer**

The densest and fastest double-star known has been discovered by F. C. Jordan, famous American astronomer. The new star is composed of two stars. In rotating, the light from one is stopped by the other every six hours; that is, in six hours the stars of this doublet revolve around each other so as to eclipse.

This pair of stars, or this star composed of a pair, is three times denser than our sun and each is about the same size as the sun. The double-star is so far distant from the earth that it takes its light, traveling 180,000 miles per second, several years to reach the earth. In fact, if it died or disintegrated, it would be years before we knew it. For all we know we may not be looking at this star itself, but at its image of years ago. When we look at the stars we do not see them as they are today, but as they were when the light left them perhaps hundreds of years ago.—Detroit News.

Another "Skin Game." The words "Admission Free," outside a picture gallery, attracted the attention of Farmer Grubbins. He thought he would go in.

When he was halfway up the stairs he was confronted at the turnstile by an attendant.

"I must take your umbrella," said the official, putting out his hand for it.

"Oh, will you?" gasped the farmer. "Of jolly well know you won't! Of thought it must be a swindle, as you don't usually see signs for nothing in Lumborg!"

So down the stairs he went again, with the umbrella grasped firmly in both hands.

A Routine Matter. "She still stays young."

"Yes, it's an old habit of hers."—Sens-Gené (Paris).

**Why Doctors Warn Against Coffee or Tea for Children**

THE reason is simple. Coffee and tea contain drugs which tend to irritate the delicate nervous system of children, and so upset health.

The Federal Bureau of Education includes in its rules to promote health among growing school children, the warning that "children should not drink tea or coffee at all."

Why confine the warning to children?

You are careful to protect the health of your children; why, then, take chances with your own health, when a change from coffee or tea is made so easy by Postum.

Postum is a delicious, pure cereal beverage—ideal for children and satisfying to adults.

**Postum for Health**

**"There's a Reason"**

Your grocer sells Postum in two forms: Instant Postum (in tins) prepared instantly in the cup by the addition of boiling water. Postum Cereal (in packages) for those who prefer the flavor brought out by boiling fully 20 minutes. The cost of either form is about one-half cent a cup.
