

Volcanoes Invaded by Scientists and Aviators

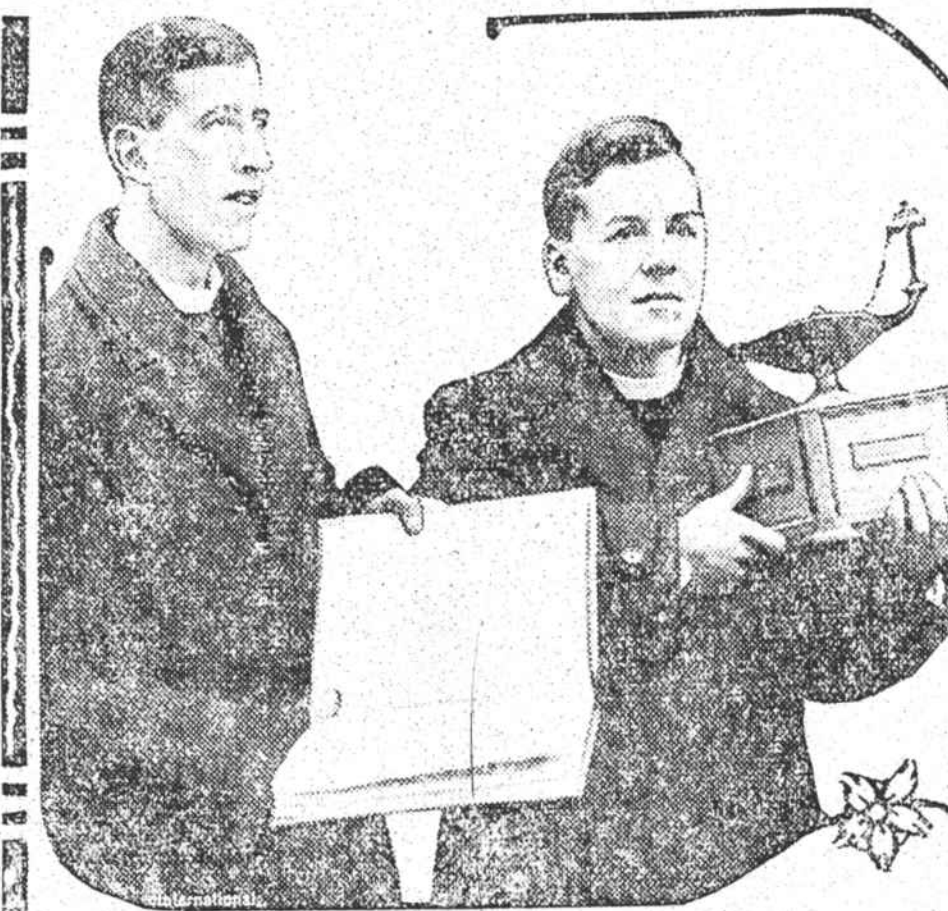

Volcanoes are losing some of their terrors for scientists and aviators. This illustration shows, above, a view of Mt. Etna in eruption made from an airplane which flew around the top of the volcano at a dangerously close distance; and below, radio experts making the first experiments with wireless within the crater of Vesuvius close to the eruptive cone.

Padres of "Toc-II" on World Tour

Left to right, above, are pictured Rev. M. P. G. Leonard, D. S. C., and Rev. P. E. Clayton, the chief padres of the Talbot house, "Toc-II," as they arrived in New York on the first leg of their tour around the world. They carry with them a manuscript from the prince of Wales and also a lamp of maintenance, which is given to every chapter of the Toc-II. The Toc is the British signaller's way of saying the letter "T." So "Toc-II" stands for Talbot house.

Facts about Child-birth

It has been proven conclusively that much of the suffering, pain and dread experienced during expectancy, as well as at child-birth is entirely unnecessary.

An eminent physician, Dr. J. H. Holmes, expert in this science, first produced the great remedy "Mother's Friend," which aids the muscles and tissues to expand more easily, during the constant readjustment, month after month, right up to the climax of child-birth.

"Mother's Friend" is applied externally. Three generations of expectant mothers have used it. "Pain" disappeared in two days after using "Mother's Friend," writes a user. "I owe my life to 'Mother's Friend,'" declared another. Use "Mother's Friend" as our mothers and grandmothers did, start today and experience the wonderful comfort it will give you.

His Two Objects
E. H. Simmons, the new president of the New York Stock exchange, was defending the American business man, Mr. Simmons, nephew of the late E. H. Harriman, said:
"Our highbrows accuse the American business man of having only one object in life, namely, the resolve to be a millionaire at thirty-five. This is false, utterly false. The American business man has two objects in life.
"His first object, undoubtedly, is the resolve to be a millionaire at thirty-five. His second and far more serious object is the resolve to be a millionaire at forty."
