# NEARLY INSANE AT TIMES

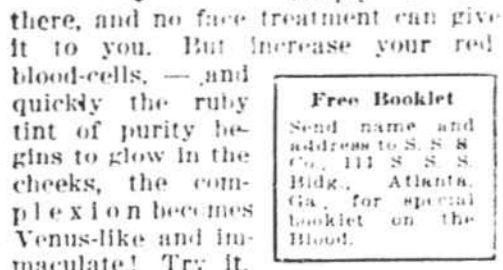

Mrs. Saunders Tells how Lydia E. Pinkham's Vegetable Compound Relieved Troubles of Change of Life

Knoxville, Tenn.—"I took Lydia E. Pinkham's Vegetable Compound while going through the Change of Life. I was very nervous, could not sleep and had melancholy spells. In fact, I was nearly insane at times and my memory was almost a blank. I was so weak I could not do my house-work half of the time and suffered dreadfully with my back. My doctors said I would have to worry it out and I went through this for three years before I began taking the Vegetable Compound which I saw advertised. I think it was eight bottles that I took. It has been two years since I took any and I haven't had a doctor since for that trouble. I do all my washing and ironing and I have gained from 116 to 138 pounds. I feel so well I think I do not need any medicine now, but I advise all women who suffer physically and mentally as I did to give the Vegetable Compound a fair trial. I hope it will do as much for them as it did for me."—Mrs. T. A. SAUNDERS, 711 E. Depot Street, Knoxville, Tenn.

# Pimples

BLOOD impurities are pumped by the heart into the face. That is what causes that grainy appearance, that muddiness, sallowness, pimples, blackheads, acne, red spots, and that impossible "something" which no face cream, massage, or face powder can cover up or beautify! The foundation for a beautiful skin simply is not there, and no face treatment can give it to you. But increase your red blood-cells, — and quickly the ruby tint of purity begins to glow in the cheeks, the complexion becomes Venus-like and immaculate! Try it.

It will do it every time. S. S. S. builds the red-blood-cells you need for a beautiful complexion. Begin using S. S. S. at once, and give yourself what you have been working for, for years.

S. S. S. is sold at all good drug stores in two sizes. The larger size is more economical.

**Strained**  
A man of the soil went into the city for a wife. He was blessed on his mission and brought her back to the farm. As it happened she was not versed in the arts of farming and as a result made many mistakes as she was learning.

One day, as her husband was returning from the field, she met him at the door and said: "O! I had an omelet in the cream jar, but I strained it."

**Do You Know**  
That one quart of the powerful of Calumet Baking Powder adds texture and body to a meringue, especially because of its slow rising qualities, which makes it unusually satisfactory because of the slow oven necessary for meringue?

**Use for Plugged Nickels**  
Natives of the gold coast, pocketless and wearing few clothes, have a specially named nickel with a hole in it so that they may string and wear them about their necks. The coins are made at the royal mint in London.

# CORNS

Lift Off—No Pain!

Doesn't hurt one bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. \* Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the foot calluses, without soreness or irritation.

for us to assume that those who have suffered so much from the war should seek a settlement which as far as humanly possible should be free of the conditions leading directly to war. To that end and in that spirit we have helped.

"But we have never forgotten that there was a limit beyond which we could not go. The full measure of American helpfulness can be obtained only when the American people are assured that the time for destructive methods and policies has passed and the time for peaceful upbuilding has come. They are asking themselves if that time, as a fact, has come. And that question they cannot today answer. An answer must be given to them. It must come from the peoples of Europe, who alone can make decisions.

"If the answer is peace, then you may be sure that America will help to her generous utmost. But if, God forbid, that answer will continue confused and doubtful, then I fear those helpful processes which are now in motion must inevitably cease."

**I**F THE Atlantic coast rum-running fleet is not routed and dispersed it will not be the fault of Assistant Secretary of the Treasury Andrews, in charge of the treasury's activities in enforcing prohibition. Under his direction the naval and aerial resources of the coast guard of the New York area are being used to effect a blockade against the liquor smugglers. More than sixty coast guard boats, manned by 400 men and fully armed, are patrolling the sea and are assisted by thirteen seaplanes which are mapping and photographing the position of the carriers of contraband and scouting for shore boats. In reserve are many more boats, swift converted submarine chasers. Every vessel of the rum fleet is closely watched by one or more coast guard boats so that it is virtually impossible for shore boats to obtain and land any liquor. The blockade extends from Connecticut to New Jersey and its every move is directed from shore by radio.

**A**FTER defeating the Spanish in Morocco, the Rif tribesmen proceeded to invade the French part of that country with the idea of driving out the French. But they are up against the mighty General Lyautey and his experienced troops and already have been defeated in several sanguinary battles. General Colombat met the Rifians north of Fez and drove them back, but he reports that they were well organized and well armed and showed themselves able tacticians, withdrawing in good order despite heavy losses. The French government says its troops will not cross the Spanish border in pursuit of Abdel-Krim's followers unless specifically permitted to do so by Spain and England. Italy wants a finger in this pie and has notified France that it desires to share in the operations and in probable spoils, but France and Spain declare no outsider is wanted.

**C**HARGES of recent manipulation of wheat in the Chicago market for speculative purposes are being investigated by the Department of Agriculture and Senator Capper of Kansas says a report is to be expected soon. The Chicago Board of Trade also received charges that there was a corner in May corn and rye and it requested all having complaints regarding market manipulation to present them to the directors May 12. A complaint has been made that the Grain Marketing company, a farmer's concern, should not be allowed to trade in provision futures, as it is supposed to be doing business for the farmers and they are not supposed to be interested in provision trading. This was to be taken up with other matters.

**D**IRECTOR of the Budget Lord has just completed a tour of the country lasting one month, in which he has told many thousands of tax payers about the President's economy program. He has now begun work on the next budget, in which there will be a substantial reduction. Mr. Coolidge hopes this cut will be as great as \$300,000,000, making the total estimates to be submitted to the next congress about \$3,000,000,000. The treasury, it is predicted, will show a surplus of about \$100,000,000 for the

current year. The total volume of tax receipts may be cut by 12 per cent, the method of doing this to be decided by congress. Secretary Mellon wants surtaxes reduced and rates on estate taxes lowered or eliminated.

**I**N RECOGNITION of the growing importance of aviation in warfare and, possibly, in the belief that it will check the movement for a separate air force, Secretary of the Navy Willbur has announced that hereafter aviation is to be a major course of study in the Naval academy at Annapolis and that every graduate must qualify as a flyer within two years after graduation.

**A**LL communists in Bulgaria have been outlawed by the government and their organizations are being exterminated. The Macedonian revolutionary organization, whose chief, Alexandroff, was assassinated last September on orders from Moscow because he would not bolshevize it, is giving the government great assistance, providing large bands of fighting men where they are most needed. This secret force numbers, it is said, about 100,000. The communists, who are being hunted like rats, are fighting back desperately. Several witnesses in the trial of those accused of the Sofia cathedral bomb outrage have testified that the Third Internationale at Moscow was responsible for the affair, but Zimovieff has reiterated his denial of this.

**T**HE dirigible Los Angeles made a speedy and altogether successful flight from Lakehurst to Mayaguez, Porto Rico, where she found the mooring ship Patoka. From there the big airship flew to the Virgin islands.

**P**ROMINENT women from many lands met last week in Washington for the quinquennial session of the International Council of Women. Lady Aberdeen, the president, was in the chair and Secretary of Commerce Hoover delivered the welcoming address on behalf of the government. The disarmament resolution presented to the convention called for "general disarmament as the ideal to be aimed at, preceded by a gradual and general reduction of armaments under effective control to be agreed upon by the respective governments and the League of Nations."

**S**Ocialists of Germany made charges of irregularity and fraud in the election of Von Hindenburg as president and formally asked that the election be declared void. Nevertheless the arrangements for the inauguration of the field marshal on May 12 went right ahead. "There was speculation as to the attitude the allied governments would adopt. Von Hindenburg is still listed as a war culprit, so those governments would have to "forget" that fact or else decline to congratulate him, which would be considered an insult by Germany.

**L**EON TROTZKY, who used to be the soviet war minister and was deposed and sent to Transcaucasia, has been recalled to Moscow on his promise to obey the dictates of the Bolshevik party, and probably will be given the post of commissar of foreign trade, vacated by Krassin on his appointment as ambassador to France. His arrival in Moscow was virtually ignored by the people and he will have hard work to recover his influence and popularity. Zimovieff, it was announced, would take a long vacation in the Caucasus—probably because of his failure to produce the promised revolutions in other lands.

**W. T. VAN ORMAN**, piloting the Goodyear III, won the national elimination balloon race and will represent the United States in the international contest. Starting from St. Joseph, Mo., his balloon traveled about 600 miles, coming down at Reform, Ala.

**C**HARGING criminal conspiracy to violate the state antitrust laws, the state of Mississippi has filed suit against the Ford Motor company for \$12,000,000 penalties. All Ford dealers in the state and the banking institutions with which they do business are made co-defendants. The suit is based on contracts between the Ford company and the dealers.

**O**NE of the most significant events of the week was the first public address of Ambassador Houghton in London. Undoubtedly speaking for President Coolidge's administration, he tactfully but pointedly admonished the nations of Europe that unless they abandoned wartime ambitions and destructive methods and policies the American people would cease to aid in European reconstruction. He did not name any nation, but it was generally accepted that his warning was directed especially at France, and everywhere except in France the speech was warmly commended.

Telling his hearers that Americans looked on the aftermath of the war in Europe sympathetically and with an intense desire to help, Mr. Houghton continued:

"But we, too, are a practical people. When we lent our savings to make it possible for the peoples of central Europe to get work it was because we knew that only in this way could Europe as a whole be made to function economically. When we lent of our savings to rebuild markets that had been destroyed it was because we knew that in no other way could they be enjoyed again.

"That was a necessary beginning. It was common sense. If we went at the job with a certain moral earnestness, let that go to our credit. It is natural
