

NORTH CAROLINA, TRANSYLVANIA COUNTY.
 In the Superior Court, July-August Term, 1925.
James Hemphill
 vs.
Geneva Hemphill

The defendant above named will take notice that an action entitled as above has been commenced against her by the plaintiff, in the

Superior Court of Transylvania County, North Carolina, for the purpose of securing from the defendant an absolute divorce from the bonds of matrimony now existing between them; and the said defendant will further take notice that she is required to appear before the Clerk of the Superior Court of Transylvania County, North Carolina, on the 13th day of July, 1925, and answer or demur to the complaint in said action or the relief demanded in said complaint will be granted.
 This June 10th, 1925.
 N. A. MILLER,
 Clerk Superior Court, Transylvania County, N. C.

NO WONDER. Americans are becoming less and less popular abroad. The people over there evidently judge us by the motion pictures we send them.

Dr. Frank Crane wrote of a North Dakota man. He was a good fighter all his life and died holding his wife's hand. Evidently she was a fighter also.

For All The Family

"We use Black-Draught in our family of six children and find it a good liver and bowel regulator," says Mrs. C. E. Nutt, of Mineral Springs, Ark. "I have taken it myself in the last two or three years for indigestion. I would feel dizzy, have gas and sour stomach, also feel a tightness in my chest. I'd take a good dose of

Liver Medicine

when I felt that way, and it would give me, and I would feel better for days.
 "My husband takes it for indigestion. He says he has never found its equal. When he has the terrible heavy feeling he takes Black-Draught at night and morning for a few days and he doesn't complain any more."
 "I sure do. I can't tell the good Black-Draught."
 "Your liver is the largest organ in your body. When out of order it makes many complaints. It's your liver in slumps, by taking Black-Draught. Don't you know it?"

JUST MAIL

A letter, postcard, parcel, or newspaper, entering the mails is simply a piece of mail.

If, because of inadequate or incorrect address, and in the case of the package—in proper wrapping—a piece of mail must be taken out of the regular postal machinery for "directory service" or "hospital service," it becomes a Nixie.

If the postal clerks are able to correct the address, or return to sender for a better one, it again becomes a piece of mail—through delayed mail is the better sobriquet.

If, after an exhaustive effort, the postal detective must give up the puzzle, and there is no return address, the piece of mail is consigned to the Dead Letter Office, where it again changes its name to dead letter or "dead parcel," as the case may be.

Its period of existence as a Nixie is the most expensive one. It demands special attention from the very best clerks. Valuable time is spent in its behalf, time which also may prove more costly to the mailer or intended recipient through the attendant delay.

But in the long run, the postal service loses most. In Chicago 400 workers do nothing but handle nixies. In New York the service costs \$500 daily. In all the nixies cost the government about \$1,740,000 a year.

Some parts of this country are said to be faced by a shortage in feed for stock. Let's take a hay vote.

This year's corn will probably bring twice the market price of corn when sold as pork, say swine extension workers of State College.

"SEGA" TO BE NAME OF NEW LAKE

R. E. Lawrence, who offered five dollars to the person who submitted the name chosen for his lake which is situated just off the hard-surfaced

road to Rsmán at the verhead railroad bridge, has chosen the name "Sega" for his lake, which means welcome.

The name was not suggested by anyone and the \$5.00 will be given away at the lake on July fourth.

The lake, located just under the Pisgah National Forest, is an ideal place for a summer camp. Free tennis courts and boats will be furnished the visitors at the lake this summer and picnic parties are welcomed.

It's Easier to Sell in NORTH CAROLINA

The Land of the Sky—

Daring road builders have opened to the world the mountains of Western North Carolina. New lakes, new resorts, new communities are in the making. Older cities are growing great. In the up-building of this new national playground, Jefferson Standard money is at work.

The large Home Office Building of the Jefferson Standard is a symbol to the outside world of one of North Carolina's successful enterprises.

With Jefferson Standard's fourteen millions of dollars of investments working in practically every village and hamlet in North Carolina, it is only natural that right-thinking Tar Heels should insist, more and more, that their insurance needs be covered with a Jefferson Standard policy.

Doesn't it follow that the policies of this BIG HOME COMPANY are
