

**PERSONALS**

Mrs. J. T. McGehee and family left last week for their home in Macon, Ga., after spending the summer in Brevard at Willow Tree Cottage.

Mr. and Mrs. H. V. Smedberg left the first of the week for New Orleans, La., where they will spend the winter.

Mrs. George Woodard and Mrs. Joe Miller left Thursday for a visit of several weeks with relatives in New Jersey.

Mrs. Tibbett and Miss Marjorie Tibbett, of Tampa, Fla., have moved to Mrs. Welch Galloway's for the remainder of the season, after having spent the summer at Darlington.

Mrs. Dunbar and Mrs. Elizabeth Murray closed their cottage, Peter Pan, last week. They left for a visit in Atlanta before going to their home in Natchez, Miss., for the winter.

Miss H. M. Hill left this week for Washington, N. C.

Mr. A. K. Dyer, the general agent of the Southern Railway, Asheville, was in town Monday of last week. Among other things he was arranging for the establishment of rates on movement of manganese ore from the Boylston deposits of the North State Manganese Co., of Brevard, to eastern points.

Mr. and Mrs. H. E. Stowers and the children spent this week for the first time.

Mr. and Mrs. C. P. White returned the first of the week from a motor trip of several weeks by points in Pennsylvania.

Mr. and Mrs. E. E. Lewis spent Saturday in Weaverville with their daughter, Miss Mary, who is attending Weaver College this year. While there they made arrangements to rent a house, and will move to Weaverville about the middle of the month.

Mr. and Mrs. T. H. Shipman have returned from a trip to New York city and Atlantic City.

Dr. and Mrs. L. F. Zachary have sold their home on Caldwell street, and are moving this week into house-keeping apartments at the England Home with Mr. and Mrs. W. H. Har-

Mr. and Mrs. Gilliland and children, of Asheville, are with Mrs. Gilliland's parents, Mr. and Mrs. A. W. Barnett.

Mr. and Mrs. S. E. Sterling and daughter, Dorothy, and Mr. and Mrs. D. F. Moore motored to Marion and Mooresville for a week-end trip.

Mr. and Mrs. Henry Fisher, of Asheville, spent Sunday with Mr. and Mrs. M. A. C. Johnson.

Mr. Thomas Teague spent the week-end in Brevard.

Mr. and Mrs. Larry Beck, of Asheville, spent the week-end in town with the latter's parents, Mr. and Mrs. R. P. Kilpatrick.

Mr. M. A. C. Johnson and Mr. H. M. Miller spent Saturday in Asheville.

Mr. Benny Kilpatrick, of Asheville, was a Brevard visitor on Monday.

Miss Margaret Moore, of Sylva, was the week-end guest of Miss Dorothy McKee.

Mrs. M. V. Miller, of West Virginia, is visiting her daughter, Mrs. J. S. Nicholson.

Mr. and Mrs. Hume Harris spent Thursday in Asheville.

Mrs. Andy Sitton, of Little River, is visiting Mrs. S. L. Norton.

Miss Carrie Burleson, and Mack Burleson, of Albermarle, spent the week-end with their sister, Mrs. George Nicholson. Mrs. Nicholson returned with them to spend a week in Albermarle.

Mr. Mason is reported to be improving in an Asheville hospital.

Mr. and Mrs. Lewis Osborne, recently of Umatilla, Fla., were called home last week on account of the then critical condition of Mrs. Osborne's father, Mr. Mason.

Misses Willie Aiken and Grace Robertson, who are teaching in Barnardsville, spent the week-end in Brevard.

Mr. James Council, of Boone, was a week-end visitor in town with friends.

Miss Martha Goodrich spent the week-end in Hendersonville with her parents.

Ralph Duckworth and A. J. Loftis have returned from Florida, where they have been for several weeks.

Misses Couch and Patton spent the week-end in Hickory and attended the Hickory fair.

Mrs. Nan Zachary and family moved last week into the Rogers house on Depot street.

Mr. and Mrs. Lawrence Holt and Mr. and Mrs. J. E. Waters were Greenville visitors Saturday.

Mrs. Julia Trowbridge and daughter, Miss Alma, spent Sunday in Weaverville.

Mr. and Mrs. F. A. Starrette were Asheville visitors on Saturday.

Miss Mary Galloway left last week for Alabama to enter a business college.

Mrs. Hart and daughter, Miss Polly, have moved into town for the winter in the Wallis cottage.

Mrs. G. F. Marshall, of Asheville, visited relatives in town the first of the week.

Mr. and Mrs. J. E. Loftis and family and Master John Pickelsimer spent the week-end in Asheville with Mrs. Loftis' parents, Mr. and Mrs. C. L. Rice. Mrs. Loftis heard Anna Case in Asheville Saturday evening.

Quite a number of Brevard people motored to Asheville Saturday night to hear Anna Case.

Mrs. J. S. Bromfield has been quite ill the past week.

**SOCIETY**

**NELL GILLESPIE HAS BIRTHDAY PARTY**

Nell Gillespie celebrated her ninth birthday with a party Saturday afternoon at the home of her grandparents, Mr. and Mrs. C. C. Kilpatrick, on West Main street.

Other games of various kinds were enjoyed, and during the afternoon refreshments of ice cream and cake were served. In the dining room, which was very prettily decorated, carrying out a color scheme of pink and blue. A large birthday cake, on which were nine little candles, added to the attractiveness of the dining table and afforded amusement for the children in blowing out the candles.

This happy occasion was enjoyed by about thirty of Nell's little school friends.

**ZACHARY-ALLISON**

Miss Sallie Zachary and Mr. Sam Allison surprised their many friends with the news of their marriage, which occurred in Greenville, S. C., on Wednesday, September 20. The young couple returned the same evening to Brevard, where they will make their future home. They are at present with Mr. John Allison, an uncle of the groom.

**MRS. W. O. K. KING ENTERTAINS**

Mrs. W. O. K. King was hostess for a miscellaneous shower and reception, Wednesday evening, September 29, at her home on Probarbante Avenue, honoring Mr. and Mrs. Sam Allison, who were married on that day.

The evening was spent in games, music, and in the presentation of the many useful and pretty gifts to the bride of only a few hours. Delicious refreshments were served by the hostess. About fifteen guests were present.

**MISS DOROTHY MCKEE ENTERTAINS**

Miss Dorothy McKee entertained informally Saturday evening, at the home of Mrs. Ethel McMinn, in honor of her house guest, Miss Margaret Moore, of Sylva, and Mr. James Council, of Boone, whose wedding will take place on October fifteenth.

A most enjoyable evening was spent by about fifteen of their intimate friends.

**CARD OF THANKS**

We wish to thank our friends for their many acts of kindness and sympathy, as expressed by their assistance to us in our recent bereavement, and by the beautiful floral offerings.

W. E. Stanberry and family,  
E. E. Stanberry and family,  
Asheville, N. C.

**GUY LOWE SUFFERS INJURIES IN FOOT BALL GAME**

While participating in a foot ball game at Bailey Military Institute one day last week, Guy Lowe suffered a broken collar bone. He is reported as recovering nicely from his unfortunate accident.

**CHAUTAQUA HAS VERY GOOD SUCCESS HERE**

Continued from Page One

is claimed, has played the part of Rip in this play 4000 times, acted to perfection this difficult role, captivating his audience, while the others in the cast did splendid work in their respective parts, all assisting in rendering the entire play a vivid and entertaining production.

The last day's entertainment features comprised two delightful programs, both afternoon and evening, by the Boston Joy Makers, consisting of music, impersonations, Scotch dialect songs and dramatic recitals, all of which displayed unusual talent on the part of the performers, full of wit, sentiment, and of a high order throughout.

M. Eichelberger, the

lecturer for both... evening, presented his two messages, "How to Get The Most Out Of Life," and "Brothers All," as only a masterful orator can, he being a student of international affairs, who spent the past winter in various European political centers. His ease of manner combined with his eloquent and forceful words of oratory easily gave him a high place in the estimation of his audience.

It is the consensus of opinion that the entire attraction ranks among the best that has ever appeared in Brevard, and the Brevard Betterment is to be commended for bringing before its people such a high class entertainment feature as the Radcliffe Chautauqua.

**BIDS NOW OPEN FOR POST OFFICE BUILDING**

Bids are now open at the local post office for the lease of a building for use as a post office. The bids will be open until October 15, and blanks for same may be obtained at the post office.

A floor space of 200 square feet is needed, and the owner will be required to furnish necessary equipment, lights, fuel, etc. The post office department would grant a lease contract for a time of either five or ten years. Anyone having a building to rent, which would be suitable for such purpose, is requested to submit bid at the local office before October 15. The change to a new post office site will go into effect January 1, 1926.

**BRIEF ITEMS FROM RALEIGH**

(By M. L. SHIPMAN)

Raleigh, October 5.—The issuance of the Prison Audit report, the trial of W. B. Cole at Rockingham for the murder of W. W. Ormond, Governor McLean's declaration comparing North Carolina's type of prosperity with that of Florida and a number of minor matters absorbed attention here during the week. Far and above all other matters, however, was the Cole trial, the interest in that exceeding any thing of its kind in the history of the present generation.

Progress in the trial at Rockingham was watched closely during the week with the Raleigh Times getting out an afternoon extra carrying the testimony verbatim of that day. This was avidly seized upon by the people. Reports coming here from Rockingham were that huge crowds packed the courtroom, a large number of staff correspondents were on hand to write the trial from every angle and the Associated Press had a special wire into the courtroom to give the trial to the papers word by word. As the trial progressed interest increased until the climax of Saturday when Cole faced his cross-examiners as to why he killed the Raleigh war veteran.

**ENGINEERS TELL OF USES OF MANGANESE STEEL**

The increasing interest being manifested in the manganese deposits on Boylston Creek, near Brevard, may mean the early development of the other ore bodies there. To answer the oft-repeated question, "What is Manganese Steel?" and other queries regarding the uses of Manganese a brief description of the uses of this valuable mineral has been prepared by a mining and chemical engineer and is published in part as follows:

Manganese Steel is an iron carbon

**ROYAL WARM AIR HEAT**

The McLean Furnace Supply Co., 350-352 Depot Street, Asheville, N. C., is the only exclusive Furnace Heating business in Western N. C. We make Plans and Specifications and give expert advice on Heating, Residences, Stores and Churches. Plans Free. Write or wire us. Phone 4597

Asheville, N. C.

alloy containing 10.00 to 14.00 per cent Manganese. Manganese steel does not have the hardness of tool steel, but rather a toughness so extreme as to resist even the action of the best tool steel. Having a ductility similar to soft steel and being extremely elastic, Manganese Steel is able to receive extreme shocks under which ordinary steel would break down utterly. Manganese Steel has the characteristic of becoming increasingly firmly set in its structure in response to attack which gives it its power to resist abrasion. The hardness increases with the severity of contact.

Manganese Steel can be bent. After the usual heat treatment in its form it can be bent double without injury.

Manganese steel is non-magnetic. The high percentage of manganese in this steel restrains the molecular structure from aligning itself into paths of flow for magnetic lines of force. Wherever metal that must resist extreme shocks and abrasive wear is required, Manganese steel is the metal to use.

Estimates of the quantity of manganese ore used in the industries other than the metallurgical industries vary from 50,000 to 75,000 tons per annum. Most of the ore so used is the highest grade of pyrolusite (MnO2). The Manganese dioxide ore is generally spoken of as chemical manganese ore.

The Boylston Manganese Deposits are pyrolusite, or chemical grade associated with limonite.

The principal use of Manganese ore aside from its applications in the steel industry in the form of ferromanganese is as an oxidizing agent. It is so used principally in the manufacture of dry cells, as a decolorizer in certain kinds of glass, and as a drier in oils, paints and varnishes. The ore is also used directly or indirectly in the manufacture of various manganese chemicals.

The demand for this ore in this country exceeds the supply by some 25,000 to 40,000 tons per annum which is imported despite a \$10.00 per-ton tariff.

Boylston Ore proves good in both chemical and physical tests.

All I want to say is that I hope the honorable judge some day gets what he deserves. The prisoner is now fined an additional \$50 for contempt of court.

**BREVARD BANKING COMPANY HAS MOUNTED HEADS ON DISPLAY IN BANKING ROOM**

R. W. Everett has loaned to the Brevard Banking Company the mounted heads of two elk and one moose, which are the result of his hunting trip in Wyoming some years ago. The three mounted heads are now decorating the walls of the Brevard Banking Company, and have

been the cause of much comment in their added attractiveness to the interior decorations of the rooms, and also in their display of fine workmanship in the art of taxidermy. The mounting was done by an expert taxidermist of Denver, Colo.

Chicago girl says she will marry the man who pays her father's debts, but applicants had better find out who made the debts.

**THE SOUTHERN SERVES THE SOUTH**

**All share the benefits of this gain in operating efficiency**

We are now carrying 130% more freight than we did twenty years ago, but with an increase of only 10% in the mileage run by our freight locomotives.

This increased efficiency has been made possible by the large investment of capital in more powerful locomotives, larger freight cars, greater track and terminal facilities, and the reduction of curves and grades.

The results have been

- Better transportation service for the South;
- Higher wages for our employees;
- Freight rates lower in proportion to the general level of prices than they were before the war;
- Earning power that will attract new capital for expansion.

All share the benefits of this gain in operating efficiency.
