are Invited to take a picture trip through an automobile plant

Learn how quality is attained with modern production methods! This week we are making a special photographic exhibit illustrating the precision methods by which quality is achieved in the manufacture of the modern motor car.

Showing the Reason for Quality at Low Cost

The exhibit consists of 40 remarkable photographs of the most interesting processes in modern automobile manufacture. It will provide the same interesting knowledge that you would get by taking a trip through the plants where Chevrolet cars are built. Each picture is accompanied by a full description of the operation it illustrates. It is an exhibit of unusual interest and value. Bring the children.
