KEEPING COWS MEANS \$25,520 EXTRA INCOME FOR THIS COUNTY

An added income of \$25,520 a year is enjoyed by Transylvania County farmers indirectly as a result of keeping cows, according to the Larrowe Institute of Animal Economics. This income is in the form of a more fertile soil due to the manure of the dairy cows in this county. On the basis of practically a \$20.00 fertilizer valuation per animal per year, this means a total of \$25,520 added to the richness of the soil in this county every twelvemonth.
Manure is a source of the most valuable plant food obtainable, says the Institute, but to preserve it at its highest value or efficiency, it should either be put directly to the fields each day or conserved until such a time as the opportunity offers to spread it. Feeding trials have proven that an ordinary cow, while putting from 15 to 18 per cent of the total energy of the feed she consumes into milk, actually returns to the soil 80 per cent of the elements of soil fertility in her feed in the form of manure. This had led many dairymen to discover that the purchase of good concentrated feeds or their cows not only more that pays for itself in increased milk production but that it also supplies necessary food to farm crops that are expensive when bought in the form of commercial fertilizer.

MRS. ALLISON WRITES ORIGINAL POEM ON GEORGE WASHINGTON

The following poem was written by Mrs. J. M. Allison:
THEN AND NOW
George Washington had his washing done,
By a "nigger" as black as ink,
Named Annabelle, who drew water from the well
'Cause he didn't have a sink.
His house was lit by a tallow dip
That gave a yellow glow.
It shone with all its might when lit at night,
But that was in the long ago.
His wife was the only match he had,
His fires were built by flint and steel
Struck by the hand of a scullery lad,
Before Martha could get the evening meal.
When he went to ride, he climbed inside
Of a wonderful one "hoss" shay.
It was before the day of "the enter as you pay,
And his horse was the color of a bank of clay.

Coolidge's washing's done at Washington,
Not by a nigger so lean,
But in a hurry, without any worry
In an electric washing machine.

His house ain't lit by a tallow dip,
But by an electric light
That shines so bright all through the night,
And is such a wonderful sight.

Cal's grub is cooked in a big gas range,
Now wouldn't old George think that strange!
No wood to cut, no fire to make,
But my! the good things Grace does bake.

When he goes to ride, he climbs inside
Of a great big limosine,
That rides so fine all the time,
And runs by gasoline.
Mary Hume Breese Allison.
