HOME WORK SWINDLERS

Recently the Post Office Department issued a fraud order barring from the mails all matter addressed to or coming from several concerns which advertise for persons to address envelopes and mail circulars at home. A sample advertisement of one of these swindling concerns is as follows:

"Ladies wanting home work, any kind, spare time, write, inclose stamp. Eller Company, V-296, Broadway, New York."

Those who replied to such advertisements were usually required to pay certain sums, from 50 cents to \$3, for "directories," "outfits," or some similar equipment, before starting to work. Then the conditions under which the work was to be done were found to be such that few made further effort to engage in it.

The swindlers made their money from the small sums sent for the "outfits," and from orders for worthless jewelry and the like. Hundreds of women in need of employment made sacrifices to send these small amounts, only to suffer disappointment through losing their money and failing to secure the remunerative work which they had been led to expect.

It is hard to imagine a more contemptible or heartless swindling scheme than this, as it preys entirely upon the poor and unfortunate who can least afford to lose the money thus fraudulently secured from them.
