

BOARD RE-ELECTS SUPT. HENDERSON

Several Applicants For Position Caused Long Session of the New Board

SAVED MUCH MONEY BY KEEPING HENDERSON

Is Consensus of Opinion—Mrs. N. A. Miller, Office Deputy, Resigns Position

T. C. Henderson, for the past several years superintendent of the county school system, was re-elected to the post for another two-year term by the school board last Thursday. There were several other applicants for the place, it is said, and some of the applicants had strong backing among the citizens of the county.

It is reported that the school board debated the selection of this officer for several hours, giving careful consideration to each of the applicants, and listening to the friends and supporters of the various names placed before the board.

Mr. Henderson's record of service, his familiarity with school problems and school property, gave him a decided advantage over the other applicants. This advantage was given added emphasis, it is said, because all three members of the school board are new men, being not familiar with either the problems or the property of the county schools.

Another element in the situation that worked to Mr. Henderson's advantage was the fact that Mrs. N. A. Miller, office deputy, had notified the board of her intention of resigning at an early date.

The board, it is said, realized that with a new county superintendent and a new office deputy, the work of the board would be materially handicapped and the cost to the county would of necessity be a very large item, as it would require weeks of time for the new board to familiarize itself with the school property and arrange a workable program.

The new board, with Superintendent Henderson, are engaged this week in visiting all the school houses, making inspection of the property and meeting with the local school officials in each district.

One member of the board said that the officials were well pleased to learn of the economy practiced in the operation of the school buses. It is shown by the reports that the county owned seven buses, which have been operated up to the present time at an average cost of only \$655 for each bus. The new board was very complimentary in its remarks concerning the administration of the old board.

Messrs Bromfield, Sharp and Woodfin constitute the new school board for the county, and being men of much business experience, it is safe to predict that their administration of the county school affairs will meet with the approval of practically all the citizens of Transylvania county.

ELEMENTARY P.-T. MEETS ON FRIDAY

Regular meeting of the Elementary Parent-Teacher meeting will be held Friday afternoon, April 22, at three o'clock, at the elementary building. This meeting was postponed from the regular day on account of conflicting with Hospital Day on last Monday.

An interesting program has been arranged as follows: Public School Music . . . Primary class Class work in piano . . . Miss James Health Picture . . . Mr. Dewey Sappenfield (State board of health) Devotionals

It is earnestly desired that all interested in the work of the Brevard Elementary school will be present, as the year closes and the yearly reports will be made at this meeting.

DEAF CHILDREN COMING FRIDAY

Instead of the regular weekly meeting of the Kiwanis club held every Friday night, the club members were entertained last week by the boys of the Vocational Agriculture department of the Brevard high school, at the Central Cafe. An unusually enjoyable time was reported by those in attendance, numbering about 80.

Prof. F. J. Cutter with a number of his band boys furnished musical selections, several of the high school boys made talks concerning various activities in their agricultural work, and Judge Raymond G. Parker made a few remarks of inspiration and advice for the benefit of the boys in particular.

The banquet served at the expense of the young boys of the agriculture department was thoroughly enjoyed by all present.

The regular Kiwanis meeting on Friday night of this week will be honored by the presence of Dr. E. M. Goodwin, of the school for the deaf at Morganton, together with six of the deaf children from this state institution. These children who have been taught to speak, will sing several songs and otherwise entertain those in attendance. A splendid program is being arranged for this occasion and club members are looking forward with pleasure to this meeting.

CANDIDATES TO BE SELECTED MONDAY

Whitmore and Mitchell Candidates For Mayor—Many in Race For Aldermen

Next Monday, citizens of Brevard nominate candidates for election to the office of mayor and the board of aldermen. The primaries will be held at the court house, and the polls will be open at eight o'clock in the morning and close at five in the evening. H. A. Durant will act as registrar, while J. P. Deaver and W. E. Shipman will act as judges.

The democratic ticket in the primaries will read as follows:

- For Mayor (Vote for one)
 - T. M. Mitchell
 - T. W. Whitmore
- For Aldermen (Vote for five)
 - T. B. Cray
 - H. E. Erwin
 - A. B. Galloway
 - Walter Hart
 - W. M. Henry
 - A. N. Jenkins
 - F. E. B. Jenkins
 - Fred Johnson
 - R. L. Kilpatrick
 - W. L. Mull
 - H. A. Plummer
 - C. O. Robinson
 - T. L. Snelson
 - B. W. Trantham
 - J. E. Waters
 - R. H. Zachary

The above are the democratic candidates for mayor and the board of aldermen.

The republicans have filed the following ticket:

- For Mayor: L. P. Hamlin
- For Aldermen: E. S. English, W. H. Harris, J. S. Nicholson

As there are no contests in the republican ticket, republicans will not participate in the primaries, the above named ticket being declared the legal republican ticket to be balloted in the general election.

The two candidates for mayor are both experienced city officials. Mr. Mitchell having served as mayor several years ago, while Mr. Whitmore is the present incumbent seeking reelection.

MISS WITHERS WON VERY HIGH HONORS

Distinction of an unusual nature has recently been won by Miss Sarah Withers, daughter of Mrs. Chester Bell Withers of Davidson, N. C., and granddaughter of Mr. J. L. Bell, of Brevard.

Miss Withers, a senior at Davidson high school, won first prize in the annual statewide French contest conducted by the French department of the University of North Carolina. Making the honor more distinctive is the fact that Miss Withers was one of over a thousand contestants over various sections of the state who competed in this contest.

Miss Withers is well known in Brevard having spent a number of summers here.

PARALYSIS CAUSE OF BRYANT'S DEATH

Friends in the community were shocked Thursday to learn of the death of Mr. Vance Bryant, aged 68, which occurred at Brevard hospital Thursday afternoon, following a stroke of paralysis on Sunday. Mr. Bryant had been in his usual good health until the day of the stroke, living only four days thereafter.

Funeral services were held at the Brevard Presbyterian church Friday afternoon, the pastor, Rev. V. A. Crawford, officiating. Interment was made in Catheys Creek cemetery. Mr. Bryant had been a member of the Brevard Presbyterian church for the past 25 or 30 years.

BREVARD BATTERY ENLARGES OFFICE

Realizing a need for enlarged space for the proper operation of his steadily growing business, Walter Hart, manager and owner of the Brevard Battery company, has had the partition torn away between his large room in the Harris building on Main street and the adjoining room formerly used as an electrical shop. Throwing the two rooms on into one spacious and convenient quarters.

The first floor front section is conveniently arranged into an office, parts department, radio department and radio display room, supplied with comfortable and inviting seats for those wishing to listen to the radio concerts, this firm being exclusively local agent for the A. V. Kent radio.

Sufficient space is also available in the rear part of the building for the storage and display of the various types of batteries and accessories. The firm is pleased to have the enlarged quarters and is confident that it will be able to better serve the needs of the community.

TO CLEAN THE TOWN FROM END TO END AND TIP TO TOE

May 2-7, inclusive, will be an important period in the civic life of Brevard, as these six days have been set aside for the purpose of giving the town a general house cleaning as a welcome to spring and the beginning of the summer season.

Everybody is interested in this great work because it means so much to the pleasure and to the material benefit of the town.

A visitor's first impression of a community is always the most lasting impression. The clean town presents an appeal to the visitor that makes a good impression and is a continual booster, while litter and filth always have the opposite effect and create harmful impressions on the mind of visitors.

The Chamber of Commerce, Woman's Bureau, Kiwanis club and the city officials have all joined hands with other organizations and individuals of the town to make this the most thorough clean-up week the town has ever known.

WOMAN'S BUREAU LEADS MOVEMENT

Following is the statement issued by the Woman's Bureau:

"Dust will fly, ashes will disappear, rubbish will vanish and dirtiness will give way to life and color in the annual spring clean-up and paint-up campaign to be waged in Brevard under the sponsorship of the Woman's Bureau during the week May 2nd to 7th. Practically all individuals and agencies of the town are working for its success.

"The homes of Brevard and the entire community will take on a brighter and cleaner appearance during the annual clean-up and paint-up campaign which begins on the second of May.

"Never in the history of Brevard has such a wide-spread interest been manifested in keeping the enviable reputation already established as a clean town. The municipal departments have taken over definite phases of the clean up work, carrying their activities into all parts of the town. The Kiwanis club has offered to undertake the cleaning up of some unsightly spots, thereby setting an example of the good which may be obtained from consistent and organized effort.

"In response to the proclamation of Mayor Whitmore, Brevard will become a veritable beehive of activity during the first week of May when every citizen will receive the message to clean up and keep it up. The Mayor's proclamation will appear in next week's issue of the Brevard News which will be the issue immediately preceding the opening of the campaign."

COMMERCE BODY ACTIVE IN WORK

The Chamber of Commerce is sending the following message to the citizens:

"Spring is here, and with it the human desire for things fresh and clean. It is not only the streets that reflect the dirt, for they represent only a small area of the town. It is the private homes, yards, gardens and vacant lots that are the most unsightly view. The paint is gray and faded on houses, garages and sheds. The boards are broken on the fence, and the tin cans and rubbish are visible in the back yard. Make this a clean spring, a good start for a clean, healthier year. Improve the value of your property by improving its looks, and try to keep the appearance throughout the year.

"The town will do its part by cleaning the streets, but your cooperation is needed so that the streets and sidewalks will not be littered with rubbish after the initial cleaning. Call your neighbors and friends together during clean-up week and have a gala day. Make your block the cleanest in the town. Collect all rubbish and place it in receptacles or barrels or boxes so that it may be collected with the least trouble to the street cleaning department.

"Burn rubbish only on vacant places away from sheds or homes; never start a fire on a windy day and always have water handy for an emergency. Never burn rubbish on an asphalt pavement, for it destroys the oil in the asphalt and the pavement will wear away in spots.

"Plant flowers and vegetables in your garden. They will give you a great deal of pleasure and improve the unsightly back yard.

"Clean streets begin in the kitchen of your home. By the proper disposal of your refuse, you can make your streets, sidewalks, and public places clean. Separate your waste into two categories: garbage and refuse. Garbage is the food waste, and refuse is the rest of the waste. Do not mix them. Burn your garbage in a clean, tight, covered burning pit, and your refuse in a clean, tight, covered burning pit.

"The Chamber of Commerce, Woman's Bureau, Kiwanis club and the city officials have all joined hands with other organizations and individuals of the town to make this the most thorough clean-up week the town has ever known.

"The Chamber of Commerce, Woman's Bureau, Kiwanis club and the city officials have all joined hands with other organizations and individuals of the town to make this the most thorough clean-up week the town has ever known.

LARGE DELEGATION TO GOOD ROADS MEET

Chamber of Commerce Names 25 Delegates to Savannah Convention; Many Going

The Fifteenth Annual Convention of the United States Good Roads Association and the Eleventh Annual Convention of the Bankhead Highway Association and the United States Good Roads Show will be held in the city of Savannah, Ga., June 6-11.

It is an event of National Significance, the officials declare. The officers of the U. S. Good Roads Association are certain that the worthwhile endeavors put into effect by them mean a continuance of the campaign for Federal Aid for State and National Highways, which has been so successfully fought and advocated, not only in this state but all over the country.

Delegates are appointed from every state in the Union and many distinguished men and women accept appointments as an honor. Nine governors, five United States senators, sixteen congressmen, many state highway commissioners, and a number of leaders in civic affairs have accepted appointments to attend the convention.

The city of Savannah is making extra preparations to entertain the delegates and to show them their beautiful city. Summer rates will be in effect from all parts of the United States after May 15th.

The United States Good Roads Association is responsible in large measure for the good roads movement in the United States and has many outstanding accomplishments to its credit.

At a recent meeting of the Chamber of Commerce the following citizens of Brevard were appointed to represent this city at the invitation of Director General Rountree: J. M. Allison, Jas. Barrett, W. E. Breece, J. S. Bromfield, F. D. Clement, H. E. Erwin, O. L. Erwin, R. W. Everett, R. R. Fisher, Julian A. Glazer, J. P. Hamlin, Jerry Jerome, Alex. Kizer, R. E. Lawrence, C. E. Lowe, S. M. Macfie, E. P. McCoy, J. H. Pickelsimer, H. A. Plummer, T. H. Shipman, J. S. Silverstein, J. W. Smith, Dr. C. J. Summey, J. H. Tinsley, C. C. Yongue and W. H. Alexander.

The originators and participants in this movement of 'clean-up and paint-up' should have the thanks of the community for the good they are doing in the prevention of fire, not to mention the great good in the planting in the minds of school children, a great civic ideal."

COURT WRESTLING WITH BIG DOCKET

Criminal cases of superior court that convened a week ago last Monday were heard, and as a result nine defendants were sent to the road to serve a term of from 30 days to eight months each. Fines and costs were given in other cases, while there was no punishment in others.

Friday morning, the court faced a big calendar of civil cases, first on the docket being that of D. L. English, trustee, vs Carrie Dorett, et al, in which the plaintiffs were suing for damage alleged to have resulted from a fire which had its origin on the premises of the defendant. Verdict was rendered in favor of the defendant.

R. E. Lawrence vs. J. D. Allen was a case in which certain sums were in dispute on the erection of the Postoffice building. This case resulted in a mistrial.

Walker vs Kilpatrick, an automobile accident case, was then called and, after some time devoted to the hearing, was thrown out of court.

Three divorce cases were granted and several motions made and disposed of.

Wednesday, the case of Humphreys vs Gloucester Lumber company, a personal damage case, was being heard. Several contingencies have been made for the next term and others will be carried over because, it is said by some lawyers, of insufficient time in which to hear all the cases on the calendar.

SHUFORD DECLINES TO BE CANDIDATE

F. E. Shuford, whose name was suggested in last week's paper as a candidate for the office of mayor, wishes The News to state that, while he appreciates this honor conferred upon him, it will be impossible for him to even consider the nomination.

Mr. Shuford has held town offices for several years and feels for that reason that others should be given the chance to serve in an official capacity, and also states that his business interests and lack of time would prevent him at this time from accepting the office should it be conferred upon him.

34 CARS SOLD BY LOVE MOTOR CO.

POULTRY PLANT IS MAKING HISTORY

Carr and Griffith Having Wonderful Success With New Venture—Plant Is Most Complete

The poultry plant started by Frank Carr and G. W. Griffith, is having wonderful success in raising baby chickens with their high priced equipment, and if you take a look at the hot water system you feel that most any chicken could be raised if fed right.

The brooder house is the last word in brooder equipment, and is proving its worth. It, in the 5,000 capacity makes the one oil brooder look like a piker. The situation as they are developing it looks sane, and only a few weeks more and returns start coming in from the broilers.

Tommy Galloway has treated and bedded 60 bushels of his own keeping of sweet potato seed. They taste so good it seems a shame to put them in the ground. Why can't people keep them for eating as Mr. Galloway and a few others are doing?

Most of the corn land not under cover crop is ready for planting, and this week will see considerable corn planted. The weather is ideal. The acreage is below normal from my guess, but more care in preparing land.

Cherryfield is leading the county in potatoes, and promises to take Little River's laurels in general truck. So far there is no indication as to cabbage. Small early crop is out, but July will tell more about the late crop.

How about that one acre of soy bean hay for each cow? Make it yes.

Friday is chicken day at Brevard station. Some culling is being done that the drones may be sold.

As warm weather comes, watch the chickens weighing around a pound or better that they do not cram on mash and cause blackhead, or bloody flux. More grain seems to stop or prevent same. Oats added to scrub at this time is a good scrubber for the bowels.

Plenty of space at the hatchery now, and the farmers who got left last year by wanting very late hatches, had better try earlier this year, as hatching is dropping off fast now. We hope that many will continue to hatch and raise broilers all summer, so that we can sell our eggs in that way and make money on the broilers.

Using milk or butter milk instead of meat meal gave the best result in raising and in yield of eggs, at the Experiment Station, but the cost of milk made it cost much more to produce a pound or a dozen of eggs. Skimmed milk or butter milk has the lead over all. Milk is 13 per cent solid matter so figure how much you will have to feed to equal a ten or twenty per cent ration of meat meal. A gallon weighs 8.6 pounds. Both milk and full per cent of meal will cause trouble if kept up long enough. One gallon of milk equals one pound of meat meal.

MRS. PAXTON'S CAR STOLEN; WRECKED

Mrs. Cos Paxton, of Greenville, a former resident of Brevard, had the misfortune of having her Studebaker sedan stolen from the garage of her home Saturday night, but was later recovered by officers some distance from her Greenville residence. When found by the officers, the machine was badly wrecked and indications were that it had been driven several miles before it left the road to crash. A negro, it is said, admitted the theft and warrant for his arrest was issued.

SHIPMAN GONE TO BANKERS' MEET

Mr. Theo. H. Shipman is attending the meeting of the State Bankers association being held in Pinehurst this week. Mr. Shipman was president of this association last year, and now holds the office of vice president of the American Bankers association. Mrs. Shipman accompanied Mr. Shipman on this trip to Pinehurst.

Let the old duties, the old tasks, the old burdens, the old trials, be transferred as Thou dost wish them.

Let us up with these old things, dear Master. Let us know the fullness of life. Let us know the fullness of life. Let us know the fullness of life. Let us know the fullness of life.

Let us up with these old things, dear Master. Let us know the fullness of life. Let us know the fullness of life. Let us know the fullness of life. Let us know the fullness of life.

GALLOWAY'S POTATOES GIVEN HIGH PRAISE

Cherryfield Leading County in Potatoes—Plant An Acre of Soy Beans, Is the Advice

(By L. A. Ammon)

The poultry plant started by Frank Carr and G. W. Griffith, is having wonderful success in raising baby chickens with their high priced equipment, and if you take a look at the hot water system you feel that most any chicken could be raised if fed right.

The brooder house is the last word in brooder equipment, and is proving its worth. It, in the 5,000 capacity makes the one oil brooder look like a piker. The situation as they are developing it looks sane, and only a few weeks more and returns start coming in from the broilers.

Tommy Galloway has treated and bedded 60 bushels of his own keeping of sweet potato seed. They taste so good it seems a shame to put them in the ground. Why can't people keep them for eating as Mr. Galloway and a few others are doing?

Most of the corn land not under cover crop is ready for planting, and this week will see considerable corn planted. The weather is ideal. The acreage is below normal from my guess, but more care in preparing land.

Cherryfield is leading the county in potatoes, and promises to take Little River's laurels in general truck. So far there is no indication as to cabbage. Small early crop is out, but July will tell more about the late crop.

How about that one acre of soy bean hay for each cow? Make it yes.

Friday is chicken day at Brevard station. Some culling is being done that the drones may be sold.

As warm weather comes, watch the chickens weighing around a pound or better that they do not cram on mash and cause blackhead, or bloody flux. More grain seems to stop or prevent same. Oats added to scrub at this time is a good scrubber for the bowels.
