YOUNG GIRL DIES OF HEART ATTACK

Alice Myers, aged 14, of Wilmington, died from heart attack at 8 o'clock Sunday morning while standing in shallow water at the Girl Reserve encampment of the national Y. W. C. A. in session here. The young girl had not been swimming but was engaged at the time in shallow water exercises with other girls of the camp. Investigation proved that the child's head at no time was submerged, and that condition of patient was not that of drowning. Everything that skill could suggest was done. Seven experts from the American Red Cross life saving institute, in session here at this time, applied artificial respiration, assisted by Dr. A. D. Brown, of Nashville, and Dr. T. J. Summey, of Brevard, administered first aid for three hours. Respiration was set up but no heart response could be obtained.

Accompanied by members of the local encampment, the young girl's body was removed to Asheville Sunday afternoon, and from there was taken by train to the home of her parents in Wilmington.

REV. BARBER PREACHED HERE SUNDAY NIGHT

Rev. W. A. Barber, field secretary of the Epworth League for the Western North Carolina conference of the Methodist church, occupied the pulpit at the Methodist church Sunday night, delivering a thoughtful and helpful sermon. He was also a visitor at the Epworth League meeting previous to the evening service.

The pastor, Rev. O. L. Simpson, after an absence of two Sundays, while serving on the faculty for the summer school for pastors at Duke University, delivered the sermon at the Sunday morning service, and will begin next Sunday night the first of a series of sermons on Loyalty.

BENSON MAYOR IS CREAMERY BOOSTER

Mayor J. W. Parrish, of Benson, N. C., his two children and sister, Miss Sarah Parrish, left Tuesday for their Johnston county home, after having spent several days visiting Mr. and Mrs. A. N. Poole.

Mayor Parrish is deeply interested in the question of the establishment of a creamery in Transylvania county, as his county is operating such a plant to great advantage. Mr. Parrish expressed himself as being confident that dairying would pay handsome returns in Transylvania, on account of this being a naturally adapted stock raising section. He stated that four adjoining counties are shipping cream into the creamery in Benson, and that business is having a very rapid growth.

MITTING TYPHOID MANY HARD BLOWS

More than eleven hundred people have been vaccinated against typhoid in the county by Dr. S. E. Buchanan since the anti-typhoid campaign started a few weeks ago. While this is said to be a good record, yet there are several thousands who should take this precaution, it is said.

In some sections of the county the opinion prevails that the vaccination is only for children. This is not the case at all, according to the county health officer, as all people, old and young, are urged to take the vaccination and thereby insure themselves against typhoid.

Typoid seldom strikes the mountain counties, but when it does it is in serious form, hence the anxiety of officials that all people protect themselves against the disease.

Dr. Buchanan will be in his office in the court house every Saturday morning during the summer, where those desiring to be vaccinated are urged to come.

COMMISSIONERS MEET ON TUESDAY, JULY 5

Regular meeting of the board of county commissioners will be held next week on Tuesday instead of Monday, due to the fact that the Fourth of July falls on the first Monday, which is the usual meeting time for this board.

GLORIOUS FOURTH TO BE CELEBRATED AT COUNTRY CLUB

Hurrah for the glorious Fourth! Old Glory will be unfurled to the breezes next Monday in Brevard, and an old-time spirit of patriotic celebration will be in the atmosphere.

At a meeting of the directors of the Chamber of Commerce Tuesday night it was decided to stage an all-day celebration of the holiday on the Country Club grounds, near the golf course. There will be a picnic dinner, swimming contests, foot races, horseshoe pitching, checker games and free lemonade for everybody.

Every citizen in the county is urged to bring his family, if he has one, with well-filled baskets of dinner, and spend the day with his fellows, and spread his dinner on the ground alongside that of his neighbor, and devote the hours of the day to a thorough enjoyment of the occasion.

A committee named by the Chamber of Commerce, with Walter Cobble as chairman, and Thos. H. Shipman, Jerry Jerome, Rush Whitmire and James F. Barrett, was instructed to leave nothing undone in preparing the day's program that would bring to the people of the county and town a happy celebration of the Fourth of July.

Brevard's own band will furnish the music for the occasion, while money has been raised by popular subscription to furnish all the free lemonade that can be consumed. Nothing will be sold on the grounds at all. The committee will provide several sets of horseshoes for those who desire to engage in that form of sport, and dozens of checker boards will be on hand. People are asked to bring their own chairs or camp stools, and everybody is urged to bring well-filled baskets.

Cash prizes will be given in the foot races, sack races, swimming contests, all of which will be staged at the lake on the country club grounds. While these amusements are going on, members of the Brevard golf club will be engaged in a men's tournament which begins at 9:30 in the morning and lasts through the day.

It is especially desired that the people from all parts of the county attend the celebration, and that boarding houses and hotel keepers cordially invite their guests to join in the celebration. Practically all of the stores in Brevard will be closed Monday, in order that the merchants and clerks may join in the celebration of the fourth of July.

NEGRO SHOT BY HIGHWAY EMPLOYEE

Fired Three Times, Two Bullets Finding the Victim—Argument Over Accident

J. D. Medlin, employed on the state highway near Brevard, fired three shots at Guder Smith, colored, last Sunday night, two of the bullets taking effect in the abdomen and in the hip of the negro. According to Rural Policeman Sims, the trouble arose when a car driven by the negro struck another car driven by Plato Allison, at Pisgah Forest. Mr. Medlin, who comes from South remark about the carelessness of negro drivers, whereupon the negro began cursing Mr. Medlin, and it is said, made as if to draw a gun.

Mr. Medlin drew first, firing three times at the negro, who was taken to the hospital where he received medical attention and was sent to his home. Mr. Medlin found the officers and stated to them that he had shot the negro. Trial was set for last Tuesday, but was postponed until next week, on account of the negro being unable to attend the hearing.

BAND WILL PLAY WEEKLY CONCERTS

Arrangements have been made with Prof. F. J. Cutter, which guarantee band concerts to Brevard on Tuesday and Saturday evenings during the months of July and August. Brevard's own band, which has been developed under the leadership of Mr. Cutter, is a source of pride to the town and county, and thousands of people will be pleased to learn that the concerts will be held regularly through the summer season.

The Chamber of Commerce sent a committee to the town council and the county board of commissioners, both of which bodies aided materially in the plans to have the free concerts during the summer.

The first concert will be given Saturday night of this week on the square, and it is expected that hundreds of visitors and residents from the county will be present to enjoy the concert.

FORMAL OPENING OF NEW PARSONAGE

Formal opening of the new Methodist parsonage will be held Thursday of this week, open house being held in the evening, beginning at 8 o'clock, and also for two hours in the afternoon for the benefit of the children, and others not able to attend in the evening. An attractive program has been arranged for each occasion, refreshments will be served, and a general invitation is extended to all members of the church to be present either in the afternoon or evening.

Rev. J. F. Kirk, presiding elder of the A. N. B. district, and Mrs. Kirk are expected to be present Thursday evening as guests of honor, and in addition, pastors and church officials of the other denominations will be invited guests.

C. C. YONGUE TO ACT AS SHIPPER

Plans On Foot To Get Brevard Merchant to Ship Farm Produce and Dairy Products

(By L. A. AMMON)
Failing to connect with the A & P stores during the spring as a source of marketing, efforts are now, in pooling them with C. C. Yongue, and he will handle the marketing end at a small commission. Mr. Yongue, being well known over much of the South, through former shipping, and the product of our soil and climate being better known, it seems very reasonable to expect that all will grow of potatoes, carrots, beets, beans and cabbage can be marketed to good advantage.

To look the proposition through brings to mind possible truck routes to Asheville, Greenville, Spartanburg, and other towns of the South, or large daily express shipments of these vegetables. Potatoes will move largely in car lots, but often it may be desirable to ship mixed cars. Mr. Yongue is the man to handle just such problems, and during the week the County Agent and Mr. Niswonger of the Horticulture Board, will call on a few farmers in each section near Brevard to talk the matter over.

No further plans for shipping chickens this season unless a serious surplus shows up. The last efforts were so far under Western North Carolina prices, that if we had been given the prices in time, the loading would have been publicly called off. Asheville is now the best place to market. New York is expected to come back some, as low that people would not sell in order to stop the glut. To scatter the load was the idea, as I have heard since. Too bad they did not inform us in time. Many are sore at the Association and the Agent about the season's marketing, but none of them have offered a word of help, or attended meetings. A surplus always brings problems and low prices, then kicks and more kicks, and some one must take the blame, so we smile and take it. Next year things can be remedied in accordance with this year's experience, and some progress made, if all will work. Letting the other fellow do it is hard on the one and mean on the part of the other.

Mr. Powell of Blantyre, says for Luther Allen to come down and see his potatoes, and he will lose some of his pigs.

Cherryfield section is talking about an old-fashioned log rolling and a big dinner in the near future.

Miss Fannie Bell, owner and director of the camp, has been in Brevard for several days, looking up houses in order, and says she is always, impatient to get started toward the mountains when Springtime makes its first bow each year.

99 YEARS OLD; ATTENDS LODGE

Oldest Masons in County Witness Installation of Officers In Duan's Rock Lodge

Masons of Transylvania county, members of Duan's Rock Lodge, greatly enjoyed an unusual program last Friday evening at the installation of newly-elected officers. Sitting with the Master of the lodge were three young men, two of whom were made Masons in 1872, and the other one being initiated a short time after that date. The three young men were V. S. King, T. B. Reed and E. B. Clayton. If Mr. Clayton lives until next Christmas Day he will be 99 years young. While Messrs. King and Reed are not as old as Mr. Clayton in years, they are, however, older in Masonic membership, being the oldest Masons in the county.

Attention was called to the fact that neither of the trio find it necessary to wear glasses. All eyes were bright that night, except when a tear would insist upon wetting old lashes just a little, as these old Masons told of the lodge in the days of its infancy, and spoke feelingly of "Brother T. L. Gash, Brother Wood," and other members of the lodge in the days when Brevard was just in the making.

After the three "first members" had made most interesting talks, T. H. Galloway, whose Masonic membership date way back, delivered the address of the evening, and delighted the membership with his clear logic and beautiful interpretation of Masonry.

Following are the names of the officers installed:

T. J. Summey, W. M.; J. F. Zachary, S. M.; J. S. Bromfield, J. W.; A. N. Jenkins, treasurer; Jerry Jerome, secretary; Ralph Osborne, S. D.; H. A. Plummer, J. D.; Jason Higgins, S. S.; J. W. Smith, J. S.; W. W. Lebetter, tyler; James F. Barrett, educational secretary. Refreshments were served.

LITTLE RIVER TO ENTERTAIN W. M. U.

Prominent speakers representing both the home and foreign Baptist mission fields will be heard at the annual meeting of the Transylvania county W. M. U., which will be held at the Little River Baptist church Wednesday, July 6, in an all-day session, beginning at 10 o'clock in the morning. Some of the speakers on this occasion will include such prominent women in the Southern Baptist work as: Miss Emma Leachman, field secretary of the home mission board; Miss Alda Grason, superintendent of the Kathleen Malory women's building in the Mayfield Tyezer hospital, Laichowiu, China; Mrs. Edna Harris, corresponding secretary of the state W. M. U., with headquarters in Raleigh. These are women of wide and varied experience who will be able to give information and inspiration.

This is an annual meeting held by the women of the 26 Baptist churches of the county which make up this association. It is confidently expected by leaders and other members of the Transylvania Woman's Missionary Union that the coming meeting will be the best ever held in the county, and all who can possibly do so are urged to avail themselves of this opportunity to attend this meeting and hear these women speakers.

OFFICIALS MEET IN LONG SESSION

Another joint meeting of the county road commissioners and school board was held Tuesday, at which time various county problems were discussed, and plans presented for the best solution that will serve the citizens of Transylvania. Serious study is being made of the problems confronting the various governmental agencies of the county, and it is expected that much good will result from these joint meetings and in the general discussions being held.

Practically every member of all the various boards were in attendance and sat together through the session, which lasted for several hours.

CREAMERY PLANS CONSIDERED HERE

Meeting In Court House Proves Interesting—Support Pledged By All Present

TO BEGIN SHIPPING CREAM AT EARLY DATE

Many Meetings To Be Held Over County—Gives Promise of Good Returns To Farmers

Transylvania's first concerted effort toward establishment of a creamery was made last Saturday when a meeting was held at the county court house. There were 23 people present, of whom 9 were farmers and five of these nine were from Blantyre. C. E. Lowe presided at the meeting, stated its purpose and introduced the various speakers. In explaining the purpose it was pointed out clearly that the farmers and citizens of Transylvania county must embrace some new line of work that will bring cash money into the county. Returns from timbering interest is about a thing of the past. Old-time farming, such as raising corn and such crops will not suffice. Therefore, it was said, new lines of endeavor must be followed, if the farmers are to prosper.

John W. Goodman, district farm agent, gave valuable information, and told the group about the workings of creamery plants in other centers of the state. The Franklin Creamery, Mr. Goodman said, was started by one man, shipping cream in a coffee can. Today Franklin has a splendid plant, and the farmers of the whole county are receiving great benefits from its operation.

Mr. Goodman expressed the opinion that Transylvania farmers should begin by shipping their cream, and follow this method until a sufficient number of farmers become interested to justify establishment of the creamery. "Every section from which cream is shipped, or a creamery operated, is prosperous today," Mr. Goodman said, and asserted that Transylvania county is one of the best sections of the state for stock raising and dairying, and predicted early success of the creamery, if the farmers will only start into the business with a determination to make a success out of it.

There are hundreds of haystacks, fodder shocks, and cribs full of corn in Transylvania county that could have already been sold at good prices, if the farmers had had cows to eat such things, and then sell the cream from the cows for cash, and best of all, every farm would have been greatly enriched as a result of having the manure from the cow stalls to scatter on his lands.

H. A. Plummer, president of the Chamber of Commerce, pledged support of the business men of Brevard in anything the farmers decided upon that would benefit the county. "Business cannot be successful unless the farmer is successful," Mr. Plummer said, "therefore we stand ready to assist in any way we can."

Thos. H. Shipman, president of the Brevard Banking company, told the gathering of men some plain facts about the condition of the county, and urged upon them the necessity of all working together in every line of endeavor which will benefit the whole county. The constant stream of paychecks, going to the farmers who sell cream, would soon bring an independence to the farmers of this county that would be a great asset.

J. P. Hamlin, vice president of the Pisgah Bank, added his endorsement to the proposed creamery, and pledged his support to the farmers in anything that will help the people of Transylvania county.

A. E. England, W. A. Williams, Roy Merrill, H. L. Gillespie, C. K. Osborn, F. Henderson and Mr. Jones, all farmers, made interesting talks, and will lend their assistance in the establishment of the creamery.

L. A. Ammon and Julian Glazener were instructed by the gathering to make a canvass of the county and meet with the farmers of the various sections, in an effort to get the active co-operation in the creamery. It is expected another meeting will be held within a short time, and C. E. Lowe is confident that there will be a real creamery established in this community at a date not far distant in the future.

Several farmers whose crops were getting too familiar with weeds and grass during the heavy rains sent word that, as the ground was dry enough to work on that day, they could not attend the meeting, but would do all in their power to make the creamery a great success.

MATERIAL PLACED FOR S. S. ROOMS

Material is being placed on the grounds for the erection of the Sunday School rooms of the Brevard Baptist church, and it is said that brick will soon be placed and actual work on the construction will be started.

Members of the county are taking much interest in this work and it is said the church building, which will be added to the Sunday School room within a short time will give to this town one of the most complete church buildings in the state. The work is being done by the building committee, with R. P. Kilpatrick in charge of the construction.

Women in knickers are not permitted to enter Notre Dame church.
