We noticed some of our farmers in the county have been plowing some. No doubt they are looking for spring to slip up. Hope they won't be disappointed.

Do you know we thought the editor of The Brevard News was trying to kid us when he told about our representatives, Messrs. Gallows and Hamlin getting lost after they had started to Raleigh. But now we are convinced that they are still lost and have failed even to get a glimpse of Raleigh. It's ridiculous to think that the two men could have put in all this time fulfilling just one campaign promise—that one being consolidating the offices of sheriff and tax collector. We can't help but believe some one took pity on our county and just cut that one through to keep it from being said we weren't represented. Personally, we can't see why there wasn't a living for two men in those two offices, still it's to be remembered that was a big item during his last campaign and since it had to be, we're mighty glad to know the sum of \$400 is being saved. And we want to say we think our county should rejoice over the fact.

We should all be mighty proud, so, that our county commissioners have given us one of their bunch or "dictator." We hope they are not going to rush the gentleman to death. Some time we wonder if it isn't unfair to put so much on one man's shoulders. Then, too, we are afraid Italy might object to there being two "Mussolinis."

PISGAH FOREST NEWS

Well, well, March is here. She slipped in quietly and serenely, just like a princess of sunshine and roses. Her meek and lamblike attitude led us all to believe that Miss Spring was right here without any advance guard to forewarn us. But the lion was only taking a nap, and our taking too much for granted seemed to infuriate him. Consequently he pounded upon us again in a most ferocious manner.
