EAST FORK NEWS

The conversation of our citizens seems to center around the new county court. So far, we have not heard a single word in favor of it.

the wages per hour the men will re-seive for holding this useless court. We heard one man say that he'd take an appeal if he should be tried and come clear in this court, for we had judges paid to attend to the business and the other courts had beautiful pcem written by Frances to come. We doubt this fellow's Miles Finch, entitled "The Blue and the Gray." Just who first proposed ity of getting to spend awhile round to come. We doubt this fellow's the county home.

We can't help but take a backward glance and peep into some political platforms that were adopted and made public about a year ago. These platforms were chuck full of pledges to the most rigid economy. We are beginning to suspect that we are mistaken as to the meaning of the word economy We actually thought it meant saving-and not taking away from the people and giving to one. In other words, we think the county commissioners have been "straining at a gnat and have swallowed a camel.'

Personally, we think the twenty-four hundred would have kept both the farm agent and home demonstration and saved our forests from fire. We hope never again to know of a campaign being run by economy.

Well, we are not so terribly concerned about the county court, for personally we do not propose to be
