

**EAST FORK NEWS**

Everybody's been trying to beat Old Man Weather saving roughness, and in between times they're wondering what next. Since Eck Sims has resigned and we've no highway patrolman we're wondering how soon folks will find out whether there really is need of that office or not.

Ralph Galloway, of Balsam Grove, spent Friday night with Robert Gravely, and on Saturday Ralph and Robert went to Biltmore to the cattle judging contest.

Mr. and Mrs. Ralph Gravely spent Sunday afternoon at the home of Jule Reynolds.

Mr. and Mrs. B. Head were Brevard visitors Saturday.

Mr. and Mrs. Boyd McGuire and son Frank, and Mr. and Mrs. Jack Heath and daughter, Polly Kate, were week-end visitors with their parents, Mr. and Mrs. B. A. Gillespie.

Mrs. H. E. Whitmire and Mrs. Eugene Whitmire and daughters, Misses Ruby and Lois, were callers at the Gravely home Sunday afternoon.

Mr. and Mrs. Louie Gillespie and children were Sunday visitors at the home of Will Gravely.

Ernest Gillespie and Mr. Fraiser, of Asheville, are spending a few days camping on East Fork.

The lake is being made right along. Mr. Jimison doesn't have a large crew of workmen but somehow they keep speeding up the work and now we are busy imagining the great flocks of folks that will come from far and near to see the wonder of wonders, an East Fork lake.

Several of the East Fork people are intending to go to Rocky Bottom the fifth Sunday in this month to attend the Gravely reunion.

School at East Fork has been going since the first Monday in this month. Most of our children are in school. Some are not and some will never be. We're just wishing that every child could somehow be in school. It makes us sick to see children deprived of the free gift of a common school education.

Some of our children are going to school at Rosman. The bus is on its job and the children are making good. In our heart we can't help but feel sorry for the poor sap who begrudges the country children the opportunity of getting to high school. One fellow had the nerve to wonder what was going to become of the farmers when the country children were given a high school education. We'd like to say we wouldn't blame the boys who leave the farms and go to town and wear nice clothes if they had to go on farming like it was done years ago. We believe we'd be safe in guessing that ninety nine percent of the boys taking agriculture are more interested in farming than before they began that study. Later on we want to tell you about some of the good work that the East Fork part of Mr. Corbin's agriculture class has done this past summer.
