## THE WOMAN AND THE BALLOT FROM A WOMAN'S VIEWPOINT

The National Legislative Committee of the Business and Professional Women's Clubs is making an earnest effort to bring home to our members in every state the high responsibility of citizenship. Women were given the vote with fear and trembling. Politicians grey in the service of their parties insisted that women, granted the franchise, would take the reins in their hands and control national politics through an independent organization. This fear has not been justified. Party leaders have found that women are as loyal to the established national parties as the men of their families. With the balance of power in their hands, women have chosen to express their political preference through established channels, and the political education offered by the women's clubs throughout the country is not designed to encourage an independent woman's party but to educate intelligent and ardent supporters for our traditional parties.

The great national parties as established provide the most effective instruments for the activity of our women voters. Progressive measures introduced through the cooperation of a national party win instant hear-

ing and serious consideration and any reform of party practices and party policies to be effective, must come from within the party ranks. This is why the legislative leaders of the Business and Professional Women's clubs are urging that each club member enlist in the party of her choice, that she cast a vote in every local and national election.

If an eligible voter fails to cast a vote, it is a confession of indifference, shirking of obvious responsibility. Both men and women are notoriously slack in their duty as citizens and often those who complain most loudly of political corruption and unacceptable candidates are the very ones who have never taken part in their party councils or who, having met with a single defeat in a party struggle, feel they are justified in abusing their party for corruption or incompetence for the rest of their mortal lives. The only citizen who has a right to cry out against political abuses is the citizen who, in the face of every discouragement and defeat, continues to do his faithful best and to take every opportunity of recording his political convictions and supporting his political principles.

## CAGLE AMAZED AT SARGON BENEFITS

"After suffering for 5 years Sargon put me back on my feet and made me feel like a man that had been made all over again."

VIRGIL CAGLE

"I was so weak and rundown that I'd lay off from work for days at a time and rheumatic pains nearly drove me crazy. My kidneys were over-active, my appetite was next to nothing and nearly everything I ate disagreed with me. I've actually gained eight pounds since I started Sargon. I'm enjoying hearty meals along with good digestion and my whole system has been rebuilt to a strong healthy condition. My kidneys never bother me now and every rheumatic pain is gone. Sargon Pills stimulated my liver and ended my constipation, and I'm absolutely amazed at the results this treatment brought me."—Virgil Cagle, Waynesville, N. C.

Kuykendall, deceased, late of Transylvania county, North Carolina, this is to notify all persons having claims against the estate of said deceased to exhibit them to the undersigned at Brevard, N. C., or to her Attorney, T. C. Galloway at Brevard, N. C. on or before the 30th day of January, 1931, or this notice will be pleaded in bar of their recovery. All persons indebted to said estate will please make immediate payment.

This 24 day of January 1930.  
MRS. L. E. SCRUGGS,  
Adm. of L. M. Kuykendall.  
Mar. 5/12/19

## BUSINESS WOMEN RATE AS MODERN PHENOMENON IN THE WORLD OF TODAY

That the modern business woman is a genuine phenomenon and entitled to a special week in recognition of her achievements will be the speedy decision of anyone who scans the figures relative to the presence of women in the business world.

Non-existent, or at best unimportant, yesterday, she is today a factor to be reckoned with, and it will not need the special programs of National Business Women's Week—March 10 to 16—to point out that fact. So dry a source as the census amply substantiates it.

On the eve of a new census we have to go back to the figures published by the government after the 1920 annual enumeration for our data. Yet ten years ago more than eight and a half million women were gainfully employed, and no less an authority than the president of the American Press Association calculates that so rapidly have women swarmed into the business world that there will be 15,000,000 of them when the next census figures are published.

Ten years ago there were but 37 of the 572 occupations which women had not invaded. Now it is doubtful if there are any. Ten years ago clerical workers led the number of

women employed, there being 1,426,116 of them. Probably this ratio will be increased by the next census, for the drift is increasingly away from industry to what we would call, if men were occupying them, the "white collar jobs." Possibly this is in a measure due to the education program of the National Federation of Business and Professional Women's nationwide attention on the value of a better education to the prospective business girl.

The number of women in public service increased 61 percent between 1910 and 1920 and the figure is expected to be even greater between 1920 and 1930. Equally significant was the increase of the percentage of women in trades by 42 percent; and of women in professions by 39 percent.

A hasty survey of the census figures showed women employed not only in the distinctly feminine occupations, but as architects, landscape gardeners, dentists, designers, draftsmen, inventors, photographers, technical engineers, veterinary surgeons, aeronauts, etc., not to mention the professional women who were judges, college presidents, doctors, lawyers, chemists, authors, editors.

In the face of such statistics who shall say that business women have not an important part in American life.

### WAX YOUR FLOORS and PREVENT DIVORCE.

Every woman wants pretty floors in her home. All it takes is the proper ingredients and a Waxing Machine. We have both, and we have experienced men to do the work. Call

## A WISE MOTOR CAR INVESTMENT

Consider a few of the basic facts that make the new Chevrolet Six such a thoroughly sound investment.

It offers a great six-cylinder valve-in-head engine, with its capacity increased to 50 horsepower . . . assuring the smooth, quiet, resilient performance which is so essential in a modern automobile.

It offers the all-weather braking efficiency of internal-expanding, completely enclosed 4-wheel brakes—big, powerful, quiet and easy to apply. It offers the modern riding comfort of four long semi-elliptic, chrome-vanadium steel springs—under the cushioned control of Lovejoy hydraulic shock absorbers.

It offers the greater beauty, comfort and safety of bodies by Fisher—built of selected hardwood and steel . . . and providing thousands upon thousands of miles of quiet, care-free service.

In fact, every important engine advancement has been incorporated in the new Chevrolet Six. With all these important advancements—coupled with greatly reduced prices for the entire Chevrolet line—it is only logical that thousands are saying every day—"The New Chevrolet Six is a wise motor car investment!"

at greatly reduced prices!

ONE THIMBLEFUL -  
A DAY'S FEED  
FOR ONE CHICK!

THINK OF IT! One tiny thimbleful . . . all the feed a chick can put in its little crop in one day. On this tiny bit it must live . . . grow . . . build bones . . . build muscles . . . start feathers. Think of the job feed has to do!

They must depend on feed for so many things! They get them all in Purina Chick Startena (mash) or Purina All-Mash Startena Chow . . . 12 different ingredients in every thimbleful. Cod-liver oil . . . dried buttermilk . . . alfalfa flour . . . granulated meat . . . these and eight others are there!

These 12 ingredients . . . think how carefully they must be mixed to make every thimbleful alike. Purina Startena and All-Mash Startena Chow are mixed over and over again . . . 960 times just to be thorough! You will find the same care taken with Baby Chick Chow (scratch) . . . to be fed with Startena until your chicks are six weeks old . . . and with Purina Growena (mash) and Purina Intermediate Hen Chow (scratch) . . . to be fed from then on until the pullets are laying at 16 weeks. - How little feed a chick eats . . . just one thimbleful a day . . . yet how important it is . . . how much depends on it . . . the chick's very life . . . its growth . . . what the pullets will do for you next fall and winter when eggs are sure to be worth good money. You can afford to feed only the best . . . Purina Poultry Chows.
