Have YOU submitted your estimate yet?

If not, better not delay, for we reserve the right to close this offer on one week's notice, and when we have obtained a certain number of paid up subscribers this offer will end right there and then. And that is not all. When this offer ends, every name on the list that is not paid up for this year is going to be taken from the list. We are going on the pay in advance plan, and that is why we are offering this great prize, so first vice president. county was 7,800.

In 1920 the population of the county was 9,503.

Now, the question for you to decide is what is the population now, in this year of 1930?

As further material for you to work upon, the vote in the elections Ince 1920 are herewith given: In 1920 the vote in the county

In 1922 the vote in the county was 3,645

In 1924 the vote in the county was 3.622 In 1926 the vote in the county

In 1928 the vote in the county

was 3,983.

Take these figures, and what you know of the county in the past two years, and figure out your estimate of the population at present. It is worth while. It will make you know your county better. It costs nothing extra to try it. All in the world you have to do is to pay your subscription up for this present year, and you ought to do that anyway. Then if you are not a subscriber, you ought to be, so all you have to do is to send us two dollars for one year's subscription, make up your estimate and send it in. You have just as fine opportunity as anybody else has to ride this Chevrolet home. Some one is going to throw her in high and go home in a brand new

Chevrolet coach. What are you waiting on? It may be too late, if you put it off any longer.
