Throwing Balls At the Barn

THE famous Christy Mathewson as a boy chalked a square on a barn and threw balls at it all day long. This patient practice helped make him the best baseball pitcher of his day, for it taught him accuracy.

Success in any kind of life depends on accuracy, or "control," as they call it in baseball. "Wild pitches," careless investments, foolish expenditures can be avoided.

The habit of doing business with this bank, making deposits regularly, taking advantage of our experience and connections, develops "control" which means joyful success.
