

# OPENING NEXT SATURDAY FOR YOUR INSPECTION

**Our Undertaking Parlors Now Ready for Inspection and Service.**

We want all of our friends and the public in general to inspect this new department. See how we have arranged to receive the bodies, in rooms and furnishings as clean as a hospital room.

## Coffins and Caskets

We have a selected line of Coffins and Caskets for your inspection and have established connections which enable us to readily obtain any special kind of coffin or casket that a family might want.

## Embalming

Mr. Sheppard, an embalmer of splendid reputation, is in charge of our embalming work. Both Mr. Moore and Mr. Osborne will give personal attention to all work entrusted to us.

## Reverential Respect

Our entire Undertaking Department is in a room separate and apart from our other lines of business. Every arrangement has been made with the sole object in view of creating and maintaining an atmosphere of reverence and respect for the dead that may be brought here for preparation and burial.

## Ambulance Service

A Studebaker Ambulance with rear and side entrances, is now in service, and ready to respond to any call, day or night. Special tires and springs, assuring the greatest comfort possible, are features of this Ambulance.

## Come Next Saturday

And inspect this new Department. We want you to see just how carefully we have arranged every detail.

# Brevard Hardware & Furniture Co.
