

## WOULD PROHIBIT MARRIED WOMEN BEING EMPLOYED

Bill in Senate Has Far-Reaching Effect—Chance of Passing

### PRESENT PRACTICE IS HARDSHIP ON OTHERS

Women Could Not Be Employed If Husbands Earn \$100 per Month

Senator Walter H. Powell, of Columbus county, has introduced a bill in the General Assembly to prohibit employment by the state, county, city, or town government of any woman whose husband is receiving as much as \$100 a month from the state or from any other source. The bill is said to have fair prospects of passage.

The bill is worded as follows:

That it shall be unlawful for any public funds appropriated by the General Assembly or raised by tax levies in the several counties, cities, towns, or other municipal governmental subdivisions of the state to be used or expended in the employment of, or payment of salaries to, any married woman whose husband is receiving a salary in excess of \$100 per month out of any of said public funds of tax levies, or from any other source.

### TO RELIEVE UNEMPLOYMENT

Senator Powell, explaining his position, said he was introducing this bill to relieve to some extent the unemployment condition now existing in the state.

"It is not aimed at any person, official, or department," the senator said, "but solely to do justice to a large number of deserving and needy widows, competent single women, and married men who have been deprived of their jobs on account of the depression through no fault of theirs."

"There are many of this class now in the state with needy dependents suffering for the lack of the real necessities of life.

### MAY BE ECONOMY

"It may be considered an economy measure, as it may not be necessary to fill some of the positions now held by married women and thus be of some saving to the state.

"It has come to my attention since I have been in Raleigh that a most deserving widow of a distinguished official of the state recently applied for a minor position in one of the departments and was declined, while a number of married women were working in the same building.

"As a matter of justice and fairness, I hope the bill will not encounter any opposition."

## N. C. POULTRY AND EGG STO BE FIRST

Must Produce Genuine Article, However, If Plan Is Success

There is no valid reason why North Carolina markets should buy a large part of their poultry and egg supplies from outside of the State. Present importations are large and therefore the opportunity exists for poultry growers to develop local markets in a profitable way.

"Local growers may capture these markets if they take the same pains as their competitors to produce a quality product and do a little judicious advertising," says N. W. Williams, poultryman at State College. "It is most important, however, to produce a quality product. In marketing eggs, careful grading is of utmost importance yet few of our local poultrymen pay any attention to this. Therefore, they place on the market, eggs of a wide range in size, shape, shell-color, and shell texture. Then too these mixed eggs go in any kind of container that may be handy. When these local eggs are placed side by side with those produced by the large out-of-state concerns, the locally grown product looks bad."

"It is not alone that the eggs must be packed in attractive containers and be well graded, they must also be consistently good, says the poultryman. They ought never to be over 48 hours old and preferably infertile. One bad egg slipped into a container by accident might ruin the trade of a valued customer. Then, fresh eggs are used largely in the diet of babies and invalids. Those purchasing for such purposes rightfully expect consistency in products.

The same fundamental reasoning applies to marketing broilers locally, says Mr. Williams. The grower must study the demands of his market and best prices should also be studied, endeavor to meet them. The season of milk-fed broilers, finished in good shape, when everyone else is not selling them, will return a good profit to any local poultryman.

## FOUR MENN CAUGHT IN WILDCAT STILL

Deputy Marshal J. M. Padgett and Prohibition Officer W. W. Owen captured a still and arrested four men last Saturday on Diamond Creek, the men being given a preliminary hearing before United States Commissioner A. E. Hampton Monday, all being bound over to the May term of Federal court.

The men arrested were Willard McCall, Thos. M. Morrison, Elmer Mosley and Mark Gilliam.

It is reported that the officers found the men at the still. Some surprise was expressed that men would continue operations of liquor making so soon after the general raid made last week, when some forty people were arrested on charges of violating the liquor laws. One explanation offered was to the effect that the men felt safe, it being believed that the officers would not return to this county for some time, after the general clean-up of last week.

But that theory proved to be wrong, and, judging from remarks that have been heard in semi-official circles, the end is not yet. Making of whiskey in the western counties is rapidly developing into a hazardous business.

### HELP TO MAKE THINGS HUM!

Of course times are hard,  
There's no use to say they ain't.  
But it's no use, Pard,  
For us to raise a complaint.  
For it will not help  
Better times to come,  
To just sit and yelp,  
Instead of making things hum.

If the time spent in sighing  
For the days of old  
Were spent in trying  
For some worth while goal,  
It might not cause a boom  
But it would help some—  
Let's demand more room,  
And make things hum!

To sit around and wish  
We had some fish for dinner  
Will never catch a fish  
Nor even a minnow,  
And let's not sit and sigh  
For better times to come,  
But a better plan let's try:  
Let's make things hum.

## SUPPORTERS OF PROHIBITION LAW PLAN INTENSIVE 'CAMPAIGN FOR MORE RIGID ENFORCEMENT BY THE FEDERAL FORCES

Thirty-Three Organizations Merge Into One Powerful Force for Support of Prohibition—Churches To Hear Special Sermons Throughout Nation Next Sunday, Urging Members To Support Prohibition In Every Way—Other Meetings Planned

Washington, D. C., Jan. 14.—A proclamation issued in the name of means of more effective, organized effort on behalf of the movement against alcoholism.

The conference urged the prompt enactment by Congress of the appropriation bills for various phases of enforcement of prohibition, including the retention of the appropriation for distribution of information by governmental departments engaged in prohibition enforcement, and also the enactment of the various bills recommended by the President, January 13, 1930, for the more expeditious trial of cases, the organization of a Border Patrol, and the enactment of a prohibition enforcement code for the District of Columbia. The Conference placed itself on record as opposed to all bills intended to modify or weaken any federal prohibition enforcement law.

One of the most important pronouncements of the National Conference of Organizations Supporting the Eighteenth Amendment is the following resolution, definitely opposing every sort of resubmission, referendum or any other movement directed toward the repeal or weakening of the Eighteenth Amendment:

"The Eighteenth Amendment was adopted by the orderly process of government. It could be repealed only by the same orderly processes. There is no provision for a referendum under the Federal Constitution. The American form of government established by the Constitution is representative government of the people through the sovereign states associated for the common good. Having won the Eighteenth Amendment, there is no occasion for the dry forces to join in any movement by referendum or other process for its repeal.

"Believing as we do in the Eighteenth Amendment and the laws pursuant thereto as the best governmental policy yet devised for dealing with the liquor problem, we are definitely and unequivocally opposed First—To the submission of any amendment which would weaken or repeal in whole or in part Amendment Eighteen, or to any national referendum thereon as contrary to the American principle of representative government. Second—To the submission of any part of this national constitutional policy to either a binding or a non-binding referendum which would tend either directly or indirectly to weaken or nullify the said prohibition amendment. Third—To any procedure or program which

The conference strongly endorsed the stand of President Hoover for law enforcement, arranged for a program for suitable celebration of January 16th, the anniversary of the Eighteenth Amendment, heard and questioned Prohibition Commissioner Woodcock on the present status of en-

## CHRIST SCHOOL GIVES QUINT TROUNCING

Brevard High School Blue Devil quint fell before the onslaught of the Christ School "Greenies" Tuesday night, on the high school floor. The final score was 39-13.

At the start, the Greenies quickly jumped into the lead, and although Coach Tilsoh's charges were unable to overtake them, it was a hard fought and very exciting battle.

This being the first game of each team, a great many substitutions were made on both team, and with the fresh material coming on all the time, the playing was fast and furious. Both teams showed great promise.

Walter Clayton, J. Schachner and Albert Payne starred for Brevard, while Phelps, Jones and Gaston did stellar work for Christ School.
