Everyone Lending Aid to the
Coming Entertainment—
Mayor to Speak.

The Firemen's Benefit Minstrel show to be given here Thursday night, October 20th, promises to be one of the best ever staged in this section. It is to be given at the High school auditorium at eight o'clock.

Those in charge of the production and planning of the show are highly elated over the fine spirit of cooperation among the players who are lending their every effort to make this the best show possible. And the merchants of the town are also cooperating in an effort to make of it a big event.

From the local talent available here—and there is plenty of it—those best suited for the various parts have been selected and regular rehearsals are being held. Those in charge of the production have had considerable experience in this line and a program is being prepared that is to be just as interesting as it is different and novel.

The show is to be in two acts with a number of special features. The time required for the presentation will be about two hours and every minute of it is chock full of rib-tickling.

Mr. Brendall is widely known in his field. He is a native of North Carolina, the son of Rev. Dr. Brendall of Greensboro. He would not go into a discussion of the political situation as a whole but left the impression that he feels Bob Reynolds, Democratic candidate for the United States senate will have a hard time defeating Jake Newell. SAYS WHEAT SHOULD BE GROWN IN COUNTY

(By J. F. Corbin)
Carrying out the 5-10 program or "The Live-at-Home" program does not mean doing a little summer farming and letting the fields be bare during the winter. Why do we not grow wheat in Transylvania? This county must buy from outside the county 95 percent of its flour. Great throngs of our people are getting flour daily that was sent here from some other territory. We are sending money out of the county to pay for wheat that we could use to buy something else that won't grow here. Some will say that wheat will not grow here and yet successful crops have been made for the last four years making a third or half more than the state average.

Other counties that grow more wheat than we do are having "wheat weeks" in which they are carrying the wheat idea to all the people. Let's plant some wheat on every farm in Transylvania during the month of October. That's the time to plant it—now. Turn the land and get a good rain on it and then drill the wheat, using 2-1-2 bushel per acre of a good pure strain of adapted seed. If the land is thin use from 200-400 lbs. of super phosphate or complete fertilizer per acre. The seed should be treated for smut with formaldehyde, there being no remedy for the rust. Clover and grass may be sown with the wheat or it may be sown on the land next spring starting a rotation and soil building program which is necessary for successful farming.

PACKED AUDIENCE GREET'S GLEE CLUB

Approximately 1000 people attended the musical program rendered by the Glee Club of the Junior orphanage of Lexington, given here last Thursday night at the High school auditorium. The program was sponsored by the local council of the Junior Order.

These programs are given throughout the state as a part of the educational program of the Junior Order. The young people participating in the concert have been well trained by the music teacher, Mr. Burton and Miss Winn of the orphanage and their program was most interesting, sixteen of the young people taking part in a concert.

A brief talk on the work of the organization was made by Lewis P. Hamlin, State Councilor, and illustrated by motion picture depicting their work in the state.

CHILDHOOD WEEK IMPORTANT EVENT

Famous Leaders To Be Heard
Over Radios In Behalf of
Youth

The third week in October has been recommended as Childhood and youth week. This time is intended as a period for adults to face anew this responsibility for the Christian education of the boys and girls. All adults are teachers and guides of youth, whether they will be or not; and they are challenged by the fact that they are responsible for the habits, attributes and appreciations which children form.

The purpose of Childhood and Youth week, therefore, is to bring forcibly to adults an increased sense of this responsibility and to urge them earnestly to begin a more serious

An additional teacher has been allotted the Rosman Elementary school. The place was given to Glenn Galloway who was appointed earlier in the year. According to Prof. Jones, the state board of equalization has a fund of \$1,500,000 to care for these readjustments and to provide teachers for the overcrowded school. MAIL CARRIER SHOT BY BURGESS HOGSED

Burgess Hogsed, age 16, was taken into custody by Sheriff Patton Friday and lodged in the county jail as a result of a shooting affray which occurred about noon Thursday when Hogsed, it is said, shot R. E. Mackey, rural mail carrier. Mackey's condition is not serious, one buckshot having lodged in the back of his head.

Hogsed is said to have become infuriated because Mackey drove too close to him, almost forcing him off the road. Mackey says he can see no reason for the act; that he passed the youth on the Little River road and was shot in the back of the head shortly after passing and drove on in a dazed condition, until he reached the home of a neighbor.

Hogsed was taken into custody at the home of a relative near Brevard after Henderson county authorities had spent some time searching for him. He is the son of Estes Hogsed of the Crab Creek section.

Young Hogsed was placed under \$5,000 bond by Justice E. P. McCoy under the charge, "assault with a deadly weapon with intent to kill." Unable to furnish bond he was remanded to jail.

Hogsed is said to readily admitted the shooting when questioned by the officers who arrested him and declared that he had been crowded off the road and that the rear fender of Mackey's car struck him, although investigators have failed to verify the statement that he was struck by the car.

MAN TO LIVE AGAIN IS SERMON SUBJECT

Rev. Paul Hartsell Delivers An
Interesting Sermon On
The Future Life

Taking as his text in his sermon Sunday evening, the fourteenth verse of the 14th chapter of Job, "If a man die, shall he live again?" Rev. Paul Hartsell preached the first of what he says may be a series of sermons on this question. He does not promise a series, the Sunday morning sermon being complete in itself, but will, if he finds it expedient, preach along the same line during the next few services.

The question is one that is asked by every man, woman and child at some time in life. Rev. Hartsell brought out, and was perhaps asked by Adam or Eve at the death of the

Among the various business matters taken up at this meeting was

difficulties which have arisen are not due to negligence or to any display of partiality but to circumstances which were beyond the control of those in charge.
