

MEN WHO TAKE CITY'S CENSUS

List of Enumerators and Their Districts.

ALREADY FINDING TROUBLE IN SECURING THE REQUIRED STATISTICS.

Following are the names of the census enumerators for Asheville, with the territory allotted to each (each boundary beginning at the northwest corner):

- No. 1 precinct, Shepherd Castle.—Bounded by College, Davidson, South Beaumont, city limits, South Main.
- No. 2, J. E. Merrill.—College, North Beaumont, South Beaumont, Valley, Davidson.
- No. 3, R. J. Tighe.—Chestnut, Charlotte, city limits, North Beaumont, College, North Main, Merrimon avenue.
- No. 4, John W. Haymond.—City limits, Charlotte, Chestnut, Merrimon avenue, and North Main.
- No. 5, W. A. Penland.—City limits, North Main, Patton avenue, French Broad avenue, Haywood (French Broad to Montford), Montford avenue.
- No. 6, Charles Nelson.—City limits, Montford avenue, French Broad avenue, Patton avenue, West Haywood, Spring, French Broad river.
- No. 7, E. L. Hunt.—Patton avenue, South Main, city limits, Victoria avenue, Southside avenue, Bailey.
- No. 8, E. F. Roberts.—Patton avenue, Bailey, Southside avenue, Victoria avenue, city limits, French Broad avenue.
- No. 9, John Ottinger.—Spring, West Haywood, Patton avenue, French Broad avenue, city limits.

Hazel (West Asheville)—H. A. Brown.

The enumerators began work yesterday. They are expected to finish in 13 working days of not less than 10 hours. The pay is about three cents per capita, or in country districts, not less than \$3 nor more than \$4 for a day's work of 10 hours.

Any person connected with the census who reveals anything which he may learn in his official capacity may upon conviction be fined not more than \$500, or imprisoned. The public are thus protected against abuse of power on the enumerator's part. But, in order that he may finish his work as soon as possible, and obtain correct data with as little trouble as may be, the law also provides a heavy fine or imprisonment for any one in any way interfering with him, or for refusing to give the required information. In the absence of the heads of the of the house, any person selected by the enumerator must give in the statistics of the family, answering the questions to the best of his knowledge.

African republic until Roberts is ready to annex the territory, hence even if Kruger goes into Portuguese territory whatever communication he may make looking to a cessation of hostilities will receive official recognition and will be answered, though it is safe to say Salisbury will merely refer Kruger to Roberts.

If the indicated line of procedure in answering any communication is carried out it can result in nothing unless Kruger is willing to assist in persuading the people to lay down their arms. One thing the British government is determined on—that President Kruger cannot stay in the Transvaal. In the event of his capture he must be transported, not necessarily in durance; but he must be got out of the territory which Salisbury expects shortly to be part of the British empire. Every effort will be made to capture Kruger, but government officials are inclined to believe he will manage to get into Portuguese territory, where the British will be unable to touch him.

Words fail to describe the national gratefulness to Roberts. Wellington was never to England what Roberts is today. The dukedom and the order of the Black Eagle at the disposal of the Lord of Argyll is at least to be bestowed upon Roberts. There is talk of scenes that will mark his homecoming.

AROUND PRETORIA.

Lorenzo Marquez, June 2.—Kruger yesterday was still at Macpadorp, about half way between Pretoria and the Portuguese frontier, on the railroad between the Transvaal capital and Delagoa bay. Boer commands totaling 10,000 men held, Thursday, all positions and hills around Pretoria. Another large command is at Bronkhurst spruit, 40 miles from Pretoria, on the railroad leading to Delagoa bay.

Telegraphic communications with the Transvaal are closed to the public. Feverish excitement prevails here, owing to the almost total absence of news from either side.

The object of Fritchie Eloff, President Kruger's son-in-law, and Herman, his physician, appears to have been to place a large amount of gold in safety.

A letter from a former Ashevillean at Roxboro to The Citizen says: 'The amendment is O. K. in this country. A few people with white skin will oppose it, mostly officeholders under Uncle Sam, or want to be. I am informed that they have been caught and bored into, and just under the skin negro was found.'

The A. L. I. has about completed arrangements for the excursion which the company expects to run to Waynesville on the 12th. There will be a sham battle between the A. L. I. and the Waynesville company in the forenoon and a ball game in the afternoon between the Asheville and Waynesville teams. There will also be a dance in the afternoon.

BARLEY MALT

We desire to call your attention to the appended result of a chemical analysis recently made of CHASE'S BARLEY MALT WHISKY, by the recognized highest authority in the United States upon analytical chemistry, HERBERT E. SMITH, M. D., dean of the medical faculty of Yale University and state chemist of Connecticut.

YALE UNIVERSITY. DEPARTMENT OF MEDICINE. New Haven, Conn. Messrs. E. H. Chase & Co., Louisville, Ky. Gentlemen:—Inclosed you will find the results of my analysis of the sample of Chase's Barley Malt Whisky which you recently sent to me. These results show it to be a whisky of good alcoholic strength, free from fusel-oil and containing no trace of the metals, copper, lead and zinc. In my opinion Chase's Barley Malt Whisky is, on account of its absolute purity, an excellent article for medicinal use.

HERBERT E. SMITH, M. D. Conn. State Chemist. Chemical Laboratory, July 21, 1890. Result of a chemical examination of a sample of Chase's Barley Malt Whisky. 100 cubic centimeters contain: Alcohol, 51.95 cub. cent, or 4.32 grams. Residue on evaporation, .051 " Non-volatile matter or Ash, .051 " F. acid, as acetic acid, .094 " Reducing bodies, as dextrose 0.22 " Tannin, a trace only. Attest: HERBERT E. SMITH, M. D. These facts commend the CHASE BARLEY MALT WHISKY, not only to the public, who seek a superior Whisky, but also to the members of the medical profession in their practice. The consumptive will find it most beneficial, as it strengthens the Lungs, checks the wasting of tissues, and relieves the severity of coughing. The dyspeptic will find it an aid to digestion, as it relieves the stomach when oppressed with gas. It builds up the feeble and stimulates the system against malarial attacks. For sale only by FRANK O'DONNELL, 34 S. Main St., Asheville, N. C.
