PROVERBS

"When the butter won't
come put a penny in the
churn," is an old time dairy
proverb. It often seems to
work though no one has ever
told why.
When mothers are worried
because the children do not
gain strength and flesh we
say give them Scott's Emul-
sion.
It is like the penny in the
milk because it works and
because there is something
astounding about it.
Scott's Emulsion is simply
a milk of pure cod liver oil
with some hypophosphites
especially prepared for delicate
stomachs.
Children take to it naturally
because they like the taste
and the remedy takes just as
naturally to the children be-
cause it is so perfectly adapted
to their wants.
For all weak and pale and
thin children Scott's Emulsion
is the most satisfactory treat-
ment.
