

RABUN COUNTY VOTES ROAD BONDS

Word reached Franklin yesterday that Rabun County, Georgia, carried the \$175,000 road bond issue by an overwhelming majority at the election held Wednesday. We are informed that there were over 1500 votes cast for the bonds, while less than 100 voted against the measure.

It is planned to use this money, together with State and Federal aid, to construct a modern hard-surfaced road clear across the county, from the North Carolina line to the county line at Tallulah Falls, completing an important link in the Franklin-Atlanta highway.

Work will begin on the new road as soon as the necessary legal formalities can be disposed of and it is understood that it is the intention of Rabun County officials to put several contractors to work on the job at the same time, in order to get the road finished in the shortest possible time.

Mrs. M. A. Gaston, an aged and highly esteemed resident of Franklin, passed away Wednesday, March 12th, at the home of her daughter, Mrs. J. R. Price, at Albemarle, N. C.

Mrs. Gaston had been visiting Mrs. Price for several weeks, and the first intimation that relatives here had that she was not enjoying good health, was the telegram announcing her death. The end came peacefully, her death being caused by heart failure. At the time of her death she was about 82 years of age.

The body was shipped to Franklin and the funeral was held here Thursday afternoon, her body being laid beside that of her husband, the lamented Dr. Gaston, in the Methodist grave yard. Rev. W. M. Smith, pastor of the Franklin Methodist church, conducted the services.

Mrs. Gaston is survived by three daughters, Mrs. J. R. Price, of Albemarle, N. C., Mrs. G. H. Crowell, of Martin, Tenn., and Mrs. W. F. Curtis, of Franklin. Several grandchildren as well as a host of friends and relatives survive to mourn her passing.

BEETS.

No section has succeeded with cattle, especially dairy cattle, without plenty of good feed. Green feed is the natural feed for cows and they do not do their best without it in some form. The family cow in Macon County can have the best of feed from a very small patch of land planted to Mangolds or stock beets and the crop stored for winter use in the same way Irish potatoes are stored. Ask the County Agent for more information on this crop.

154 Trespassers Killed On Southern During 1923

Atlanta, Ga., March 15.—One hundred and fifty-four persons were killed and 178 injured while trespassing on the property of the Southern Railway System during 1923, according to figures just made public by the Southern's Safety Department. This is an alarming increase over 1922, when 129 persons were killed and 171 injured.

The casualties in 1923 were divided as follows:

While walking on-tracks 107 persons were killed and 82 injured, 45 were killed and 94 injured while stealing rides or "hopping" trains, and 2 were killed and 2 injured in miscellaneous accidents.

Despite every effort that has been made to show the peril of trespassing on railway property, men, women and children continue this dangerous practice. On the railways of the entire United States, 2,142 trespassers were killed and 2,431 were injured during the first nine months of 1923.

The records of the Southern show that the great majority of victims from trespassing accidents are useful citizens or school children who take a chance and pay for it with life or limb.

No More Fooling

Nowhere did Abraham Lincoln show his shrewdness of judgment better than in that famous utterance which ended, "You can't fool all the people all the time."

In the past, there were a few misguided advertisers who thought they could sell their wares better by misrepresentation. But those advertisers have long since gone out of business or mended their ways. Hard experience taught that Lincoln was right. Untruthful advertising doesn't pay.

Other advertisers proved that the only way to advertise successfully, make regular customers and build up public good-will was to tell the absolute truth about their goods.

So, you can be sure that every consistently advertised product is good. The advertising test has proved it. The very fact that it is advertised is your best warranty of satisfaction and true quality.

The concern that tells you frankly what it is doing is a good concern with which to do business. That is why it pays to read the advertisements, to patronize advertisers, and to buy advertised merchandise.
