A GOOD LAXATIVE

Black-Draught Recommended by an Illinois Lady, Who Says It Helps Her.—"Fine for the Liver."

St. Elmo, Ill.—"I have used Black-Draught for three years," says Mrs. J. W. Boyd, a well-known member of this community. "I was visiting a friend who had used it for some time. I was in need of a laxative and I had a burning in my stomach. I was constipated. She gave me a dose of Black-Draught and it helped me, so I used it from then on. It certainly benefited me. I think it is fine for the liver, too. I am glad to recommend it."

"One day our pastor was visiting us, and he said his system seemed clogged and asked me to give him something to take. I gave him Black-Draught. He was much pleased with the results and bought a package, himself."

Constipation forces the system to absorb poisons that should be thrown out, causing pain, discomfort and tending to undermine your health. Black-Draught helps to relieve this condition by acting on the bowels, and by regulating the liver when it is torpid, thus helping to drive out many poisons in an easy, natural way.

Don't take chances! At the first indication of constipation, take Black-Draught. Costs only a cent a dose. Your local druggist, or dealer, sells Black-Draught. NC-153
