

SUCH IS LIFE—Some Bawling Out.

Army Airmen Create Altitude Record Making Remarkable Photos

—Wide World Photo
Lieuts. John A. Macready, test pilot and A. W. Stevens, aerial photographer, broke the world's two man altitude record in reaching 31,500 feet at the Dayton, Ohio field. The airmen flew a Le Pere ship and reached a height approximately six miles above the city of Dayton, from which point a remarkable photo of the city, nineteen square miles, was made on a single plate. In the photo is shown the oxygen equipment which was used by the airmen from 21,000 to 31,500 feet and the camera with which the photos were obtained. Lieut. Macready is shown with his helmet on.

WEST WINS PENTATHLON FOR THE SECOND TIME

DEMONSTRATIONS.

Beginning early in the afternoon of Saturday, May 17th, County Agent Arrendale plans to give the three following demonstrations on the farm of Mr. T. R. Gray:

Dusting beans to control bean beetles.

Dusting Irish potatoes to control blight and other diseases.

Building a poultry house according to the State plan.

All interested citizens of Salem, Higdonville and other communities please come early and bring hammers, saws and squares.

TELL YOUR NEIGHBORS.

Fatten Them on the Farm.

This section is well adapted to the poultry business. The summers are not too hot, the winters are not too cold. There is plenty of pure water, and the land is well drained. The

poultry business promises to become a great industry in Western North Carolina.

The Federation should ship a car of broilers at least every week to the north. This is a dream that can be realized within three or four years. We will have to have a hatchery and a feeding plant, but in the long run the place to fatten broilers is on the farm. We should lay our plans toward this end.

The Federation should hatch the chicks in November, December and January, and the members should get the day old chicks and fatten them at home. In ten or twelve weeks they will be ready to ship.

The returns from a car of broilers will be from five to seven thousand dollars. This much money distributed each week among the members will help us all get through next winter. We should plan for this business next year.—Farmers Federation News.

Put the Right Foot First When Getting Out of Bed

In getting out of bed in the morning always take care to place the right foot first, or the day will be unlucky! Many otherwise practical people also take care to place the right foot first on entering a house.

The origin of the very common superstition with regard to the right foot is easily accounted for by association. It is a psychological off-spring of the word "right," and its meaning of "in conformity with moral law, permitted by the principle which ought to regulate conduct," and so on.

The word as applied to the side of the human body which is toward the east when the face is turned to the north is of exactly the same derivation, and owes its present application to the fact that most people are "right-handed," and therefore the right hand is the right hand to do things with.

By extension the word came to cover the whole side of the body. And so, in getting out of bed, if the right foot is right, the left foot must be wrong. Moreover, the word "left" is from the Anglo-Saxon, meaning worthless, and, applied originally to the left arm, has suffered the same extension as the word "right" over the one side of the body.—Exchange

Information for Tomato Growers; Time Limit Set

The Federation is now making plans for the sale of the tomatoes that the members are planting. These should come on the market beginning about August 1st. As the Federation has to have something definite to work on, it has made the following rules. Tomato contracts must be signed and turned in by May 20th. This is the time limit. The limit on the amount is: Buncombe County, 80 acres; Henderson County, 80 acres.

As there is a general interest in the growing of tomatoes this year, we want it clearly understood that when it comes to selling the Federation will give preference to tomatoes grown under the above terms. The first concern of the Federation will be the 160 acres signed up by the 20th of May.

County Agent E. F. Arnold, Hendersonville; or County Agent Dale Thrash, Asheville, can give full particulars.—Farmers Federation News.

(We are watching with interest tomato and strawberry growing in these counties. If they succeed, and no doubt they will, we will consider these crops from a commercial standpoint.)

Chinking the Cracks.

As one travels on the railroad at this time of year he greets strong odors of fertilizers at about every station. This means that the factories are moving it to the farmers by the train load.

We wonder if in buying fertilizer we are chinking the cracks and leaving open the bung. Are we depending on commercial fertilizer to grow our crops and improve our soils and then turning round and importing feed from other states to keep our stock through the winter?

We are not condemning the use of commercial fertilizer but there is such a thing as "kidding" ourselves into believing we are doing something great when in fact we are practicing poor farm economy.

We should adopt a program of soil improvement whereby nature will take a big hand. It is possible to save our feed bills and feed our soils as well as the stock around the barns.—Farmers Federation News.

(From the amount of clover seed and soy beans planted in Macon County this season, there will be less fertilizer and cotton seed meal needed in Macon County next year.)

Heroic Early Texans.

Although Texans and Mexicans are now on friendly terms, as are states of the original thirteen American colonies with the mother country, England, there was a time when fighting was to the death and with little or no quarter given.

Blood, hunger and suffering trace heroic tales over the pages of Texas history. Col. James Bowie was ill and had to be carried across the mark in a cot when, at the Alamo, Col. William Barret Travers drew a line with his sword and said, "Whoever is willing to die like a hero, let him cross," says the Detroit News.

NERVES ON EDGE COULD NOT WORK, SAYS SHORT

But Tanlac Put Well Known Boiler Maker on Road to Health—Indigestion And Rheumatism Gone Now.

W. A. Short, 201 East 7th St., Richmond, Va., for thirty years a boiler maker, is one of the many hundreds of Virginia people who have come to rely upon Tanlac to keep up their health and strength. Mr. Short says: "For several years chronic indigestion, constipation, and attacks of rheumatism in my shoulders and knees, kept me on the anxious bench and afraid very often that I would

have to quit work and take to my bed. My nerves were so on edge I couldn't sleep right, and my strength was sagging worse every day.

"Tanlac put me back in great shape, leaving me without a sign of rheumatism or stomach trouble and a well man once more. Naturally, I feel grateful to Tanlac and have all faith in it, and any time when I don't feel just right I take more and am soon O. K."

Tanlac is for sale by all good druggists. Accept no substitute. Over 40 Million bottles sold.

Tanlac Vegetable Pills, for constipation made and recommended by the manufacturers of TANLAC.—Advt.

Prentiss Locals.

We are glad to see the sun again, after a few days of rain.

Mr. Dillard Moffitt is on the sick list at this writing. Hope he will soon recover.

Mr. Miller Ledford, of this section, made a business trip to Franklin last Monday.

Mr. Thurman Henson's family is on the sick list with whooping cough.

Miss Emma McDowell fell and broke her arm one day last week. We wish her a speedy recovery.

Mr. Will Singleton, of this section, was a business visitor in Franklin Monday.

Mr. Richard Sanders, of Buck Creek, is visiting home folks in this section.

Mr. Richard Sanders was visiting Mr. and Mrs. E. A. Dowdle one night last week. BIG BOY.
