

# A CAR LOAD DELCO-LIGHT PLANTS

## MAKE A HOME OUT OF YOUR HOUSE

Let's agree that the housewife's work is too hard, if done in the old way. It wears her out, breaks her health and makes her old before her time. Now, consider, on the other hand, that her work may be lightened by the use of Modern, Electric Equipment, which can be enjoyed in any house today, and that its use will give the housewife more time to rest, more time for recreation, that her health will improve and she will take a new lease on life.

Man is the hewer of wood; but woman inherited the back-breaking work of fetching the water. The average farmer's wife in a year carries more than 25 tons of water, a distance of sixty miles, if the pump is no farther than 25 feet from the kitchen. The need of a dependable Water System for the farm resulted in the development of a Complete Line of Automatic Water Systems.

Washing dirty clothes has from the beginning of time been woman's drudgery. The farmer's wife washes on the average a tub a day or a ton a year. The makers of Delco-Light Products have added another member to the family—The Delco-Light Electric Washing Machine—THE BEST MADE.

Save \$50.00 to \$75.00 by buying now. Quantity. Price, and Car Load Freight Rate saves you the money. See, call or write F. W. Swan, Division Manager, Munday Hotel, Franklin, N. C.
