MACON COUNTY SUPPLY CO.

WILL SAVE YOU MONEY

If you knew that you could get several dollars back for every dollar you invested it would not take you long to decide, would it? You would invest at once.

Well, that is just what you can do by investing in the subscription price to your Local Newspaper. It will be the means of saving you several dollars during the year if you will allow it to do so. It is the best investment you can make for the money.

Say nothing about the local news it carries but consider it just as a business proposition, a money saver. It carries the advertisements of the local merchants, and by keeping track of these from week to week you will be able during the year to save yourself many times the cost of the year's subscription in buying the things you need and want. All you have to do is to watch the advertising columns and the bargains offered by your home merchants will allow you to supply your wants at the bargain prices they offer.

This helps in another way. It helps the local merchant to keep up his stock if you buy at home and makes his a better store for your community. It helps the newspaper business, which is boosting your home town every week. Both of these help you as they help to make your town a little better and that means increasing the value of your property.

You get the idea? Take your home newspaper as an investment, not as a sort of act of charity, but because it will be worth real money to you. You can make it worth more or less, just as you use it. But if you depend on borrowing it instead of having it sent direct to you, there will be many times when it gets around to you too late. Those who subscribe for it and get it right away will have taken the bargain you may want. Get your name on the list right away.
