

Lucy Mower and Gertrude Kelley Lambright Who Will Appear at the Court House the Afternoon and Night of July Fourth.

C. C. Poindexter Graduates

Mr. C. C. Poindexter who has been at the University for 6 years graduated last commencement and returned to his home last Saturday. Other Macon county boys are attending the summer school. Mr. Poindexter has made a record at the University of which his many friends are justly proud. He was not only successful in his literary career and in his study of law but he was particularly successful on the athletic field. No

doubt many opposing football teams, after experiencing his heroic plunges and battering ram tactics, have wished that Crawford had remained in Macon.

Mr. Poindexter made a brilliant record in the study of law and has a bright future in his chosen profession. He has not yet decided where he will locate. Macon would be exceedingly sorry to lose his citizenship and his many friends are urging him to locate at Franklin.

Closer Co-operation to Result From Conference

Closer co-operation between the League of Nations and the Fldac, International Association of World War veterans, will result from the recent visit to Geneva, Switzerland, of Thomas W. Miller of the American Legion, president of the Fldac.

After conference with the secretary general of the League, Sir Eric Drummond, Mr. Miller was asked to select a member of the Fldac as a permanent member of the staff of the league.

Among the suggestions for closer co-operation between the league and Fldac were the inclusion of a representative of the organized ex-service men in the various national delegations sent to the league, and the establishment of a closer contact between the central services of the league and the Fldac as to the actual facts and tendencies of league work in so far as it affects the major work of peaceful co-operation.

President Miller, previous to his visit to Geneva, had made a week's tour of England in the interest of the veterans' association he heads. He addressed in London the national executive committee of the British Legion, which had gathered from all parts of Great Britain, Scotland and Ireland. Miller stated that in England he found the British ex-service men facing the same problems as those in America, and that the British Legion was making the same fight for the disabled as the American Legion is making in America.

Announcement of American Legion members on the council of direction of the Fldac was made recently in Paris, Fldac headquarters, by Mr. Miller. They are: Benjamin H. Conner, department commander of the Legion in France; Edwin W. Thorn, commander of Paris post; Dr. Edmund L. Gros, physician to the American Hospital; Francis Jacques, architect; Leon Fraser, assistant counsel, reparations commission; A. W. Kipling and Laurence V. Benet.

The next convention at Fldac will be held in Rome next September.

Beautify the school grounds.

THE MUNICIPAL PLAYGROUND

Since the town itself seems to take no interest in a municipal playground Rev. E. J. Pipes, rector of the Episcopal church, has constructed a playground in rear of his church. The playground was built largely at his own expense and to a considerable extent by the sweat of his own brow. The ground contains a tennis court, basket ball court, volley ball court, horizontal bars, etc. Rev. Pipes wishes the Press to announce that the playground is intended for the use of the public and is to all intents and purposes a municipal playground. He cordially invites the citizens of the town and the visiting public to make use of this playground.

Rev. Pipes has shown a commendable spirit in preparing a place of recreation for the public and we feel sure that Franklin and our summer visitors will take advantage of the results of his labors and make use of this recreational center.

Idle Hour Still Progressing

The Idle Hour Theatre has just concluded a contract whereby it bought approximately \$1,000 worth of pictures for use in Franklin. These pictures are all new and will be received and shown in Franklin contemporaneously with theatres in the cities. The Idle Hour thus places itself in the front rank of picture theatres in this part of the state. Ever on the lookout for good pictures this theatre has arranged to bring to Franklin for the Fourth of July celebration "The Hunchback of Notre Dame," undoubtedly and beyond any question, the greatest picture ever screened. Very few towns of the size of Franklin are able to book this picture. The coming of this great picture scores another triumph for the Idle Hour.

MY BUSINESS

Is selling Life Insurance, which is, by the business world in general, regarded as the highest secular calling there is.

BECAUSE

Life Insurance feeds widows and orphans, maintains the home, educates the children and preserves the family integrity. It appeals to the very best there is in every man and is a means of systematic and certain savings for the young unmarried man.

Take time to think; then act while you are physically fit to pass the examination.

Read First Timothy, 5th chapter, 8th verse.

Provide NOW through the only GUARANTEED way known to men.

Insure—then you are sure.

CHAS. O. RAMSEY

PIONEERS IN DEVELOPMENT

To every phase of development must come men who can visualize progress through future years—the pioneers.

Macon county has natural climatic and scenic advantages unsurpassed in the entire South. Here there are no hot nights, no mosquitoes, no malaria, few contagious and malignant diseases. A complete change of mountain scenery can be found with every half mile traveled, often with every hundred feet.

Fishing, swimming, camping, hunting and motoring are among the out-of-door recreational possibilities. And for those who seek an ideal location for quiet and rest, these sympathetic old mountains offer a sure haven.

This beautiful country is now being opened up to the outside world in an adequate manner. Hard surfaced roads are coming through Macon county, and a very few years will bring hundreds of tourist automobiles where now there is one.

People are coming. The world has discovered us, and somebody will develop our untouched resources. Shall we do this ourselves, or shall we allow outside capital to reap the rich reward which is by heritage ours?

The LAKE EMORY COMPANY is a local company, composed of local men, to develop local territory. Our holdings consist of several hundreds of acres of ideally situated land lying on both sides of the Little Tennessee River along the beautiful lake which will result from Franklin's hydro-electric power dam. This property is to be cut into residential lots, and sold for summer home sites.

That the proposition will pay the stockholders a substantial return on investment, there can be no doubt. On the other hand, the value of the development to Franklin and Macon county can hardly be estimated. Sufficient it is to know that every family located in a summer residence on Lake Emory will be an asset both socially and financially. Franklin aspires to acquire ten thousand such assets within the next five years.

The LAKE EMORY COMPANY are pioneers in this development program. Others will follow. Just as in Florida, numerous fortunes will be made in this sort of residential development in Western North Carolina during the next few years.

It is indeed a pleasure for us to feel that Macon county is in the direct path of such assured progress.
