

### RIDE 'EM, COWBOY

(Copyright by R. R. Doubleday.)

An animated tornado on four legs, 1,200 pounds of living dynamite—such is the "outlaw" bronk, scores of which will provide the chief thrills of the Chicago Roundup and World's Championship Rodeo, to be held for nine days, beginning August 15.

Broncho busting calls for all the courage that is traditional on the western ranges and a great part of the \$30,000 in prizes appropriated by the Chicago Association of Commerce, under whose auspices the rodeo will be presented, will go to the men who will fight to stay for a few seconds on the hurricane decks of the "sunfishing," "skyscraping," squealing, fighting cayuses.

Mr. and Mrs. Gaston Curtis, Misses Roberta Turner, Annie Mae Blaine, Ella Jones and Messrs. Roy Cunningham, Wade Reese and Troy Potts spent the week end in the Mountains fishing and swimming.

Mrs. C. F. Moody now has more than twenty summer guests at her home in Iotla valley. Other hotels and boarding houses also have many guests.

Miss Grace Barnard has accepted a position as stenographer with Joines Motor & Tractor Company.

### MAGIC OF RODEO ROPERS

Wizards with iron wrists, who can send a lasso snapping through the air with the accuracy of a rifle bullet, will work their magic when famous ropers will meet at the Chicago Roundup and World's Championship Rodeo to be held for nine days, beginning August 15.

### FORESTS ARE BIG AID TO COUNTRY

#### The Federal Government Is Now Owner of More Than 350,000 Acres of Forests in Western North Carolina.

Within the last ten years the United States government has bought 350,000 acres of forest lands in the mountains of North Carolina at about six dollars per acre or a total price of approximately \$2,000,000 according to H. M. Curran, Forester with the Extension Division of the State College of Agriculture.

The Federal government spends about 8 cents each year for the protection and administration of these woods and the "business" connected with them, while the growth on each acre is worth 60 cents per year, Mr. Curran says.

The forests of Saxony (400,000 acres) since 1890 have produced a net revenue of \$4,000 per acre per year or \$1,600,000 gross annually, he said, and pointed out that North Carolina timber grows faster than that of Saxony and that it is worth as much in the forest and can be marketed as readily.

#### It's Up To You.

You may be a big man in the business world. Your properties may represent many good round, hard dollars. You may take an interest in politics to the extent of complaining about taxation, too much legislation, useless regulation of industry, etc.

But do you take an interest in the government which protects your property? Or are you merely one of the kickers who complain about the "radicals?" Do you go to the polls and vote for men and measures you believe sound or do you instead, go out and play golf on election day and let the fellow about whom you complain do all the voting.

Don't kick unless you are willing to do your duty as a citizen at the polls. No matter how "big" you are your vote is worth no more than the poorest bum in town.

#### The Lawmaking Mania.

Uncle Sam is afflicted with the law-making disease. His case is the worst in the history of the world. The output is so large the law libraries cannot house it, the lawyers cannot digest or assimilate it.

The ratio before the war was fifty new laws in our country to one by any great nation of Europe. It takes 650 large volumes to hold in printed form the Supreme Court opinions on questions of constitutionality.

The law library of Columbia University contains 100,000 volumes and increases at the rate of 8000 a year. Why not stop manufacturing so many laws, try enforcing some of them and repeal some of the others?

#### Advertising Rates.

A committee of the National Editorial Association has been investigating the production costs of weekly newspapers and has made recommendation of the advertising rates country newspapers should charge, based upon these production costs. The rates recommended are printed herewith. They will prove of interest to advertisers who enjoy a rate of much less per inch than they would pay if this newspaper adopted the National Editorial Association scale. Here are the association rates:

Circulation.	Rate Per Inch.
500 or less	25
1000 or less	30
1500 or less	35
2000 or less	40
2500 or less	45
3000 or less	48
3500 or less	51
4000 or less	56
5000 or less	60

The circulation of the Press is a little over 1,000. Our advertising rates are 20 cents per inch. In this paper the advertisers who patronize the only medium having a general circulation in Macon County, get their advertising at 10 cents an inch less than the National Editorial Association scale, and at a lower price than these men who know say that it can be done for.
