Sylva's Example

That Franklin has something to learn from its sister city of Sylva cannot be doubted. The citizens of the latter town are apparently ever ready to put a shoulder to the wheel and work as one when occasion demands. Let Sylva have an auction sale of lands, for instance, and every business house, including the garages, close during the hours of sale. On other public occasions where the future of the town is involved places of business close their doors. In fact where the good of the town is concerned individuals seem to disregard their personal interests and work together for the advancement of the whole.

Yes, Franklin has something to learn.

Repair Old Buildings

Franklin, as everybody who is familiar with the situation knows, is on the eve of a great boom. In keeping with the spirit of the times we must abandon some of the practices heretofore obtaining. Nature has done all things possible to make our town beautiful, but man has not kept pace. In the years that have gone wooden buildings within the fire limits were not only permissible, but perhaps necessary. Now, however, such is not the case. As old wooden buildings become unserviceable they should be removed to make room for modern structures. Each time the town board allows an old wooden building to be repaired it is delaying the growth of Franklin. When the good of Franklin is at stake the town board should lay aside politics, friendship and wire pulling and adopt the policy of allowing no wooden building within the fire limits to be repaired.

"WAS SOMEBODY HURT"

"No, and it's not a fire sale either. Every day about meal time you see a big crowd gather at the Franklin Bakery & Restaurant. The people have learned where to get something good to eat. They have also learned that the management of the Franklin Bakery & Restaurant believes that cleanliness is the magic wand that draws trade. Yes, Sir! If you wish good food and a clean place in which to eat it, let Bob Patillo attend to your wants."

The above conversation between two men was heard on the street a few days ago. Need we say more?
