Rail Officials Here

On December 4th, Superintendent O. Flocker, Conductor Bob Addington of the T. F. Railway and Mr. L. G. Metcalfe, all of Cornelia visited Franklin on business. Under Mr. J. F. Gray, as receiver of the road the services of Mr. Flocker have assisted materially in placing the Tallulah Falls Railway on a paying basis.

Miscellaneous Shower

A pretty shower was given Miss Sarah Cunningham and Mrs. A. B. Omohundro by Mrs. Jones' Sunday school class at the home of Mrs. J. S. Porter, December 3, 1925. The gifts were placed on a Christmas tree, decorated with tinsel and electric lights, in the dining room and the doors were thrown open to reveal the brightly lighted tree loaded with presents, just like a real Christmas tree at Christmas time.

Salad and coffee were served to many guests present and the recipients of this treat went home with their arms full of useful and pretty things and their ears ringing with the well wishes of the guests.

Wilson Brothers Buy Farm

Wilson Brothers, who built the Georgia road and are now at work on the Dillsboro road, have purchased from Mr. Bud Allman 127 acres of land about two miles from town on the Georgia road. This tract is very desirable for development purposes, though the intentions of Wilson Brothers have not been announced.

Bill Moore claims that the Atlantic ocean has nothing on Lake Emory for magnificent distances. Perhaps the engine or Bill's motor boat went dead when Bill was down about the dam.

FARM BARGAINS

346 acres five miles south of Franklin. One mile from concrete highway. Two miles from Railway station. About half woodland. Eight springs. Good sized creek. Will generate 50 h.p. or more on farm. One 8-room house, barn, and four other dwelling houses. Forty acres bottom land. 150 acres bench land upland. Red clay subsoil. In fair state of cultivation. Produces around 50 bushels corn and 20 bushels wheat per acre. This can be had way under the market.
