FRANK I. MURRAY,
A16 Administrator.

Here's Real Paint

House painting isn't a matter of prejudice—it's a matter of business and common sense.

Paint isn't like an apple—you can't tell by looking at it or by biting it—how good or bad it is.

It takes weeks, perhaps months, and maybe a year or more to tell whether it was worth what you paid.

SWP

stands for Sherwin-Williams Paint (Prepared) and its fifty-year record of results means quality and satisfaction to any painter or property-owner. Be sure the initials are on the label, then you can count on the contents being right.

We're agents.

INSECT CONTROL IS GOOD GARDEN INSURANCE

Raleigh, N. C.—Insects do their maximum injury to the farm or home garden early in the spring when the vegetables are small and tender, but this is also a time when effective control may be secured.

"Control measures can be used effectively, with less expense and oncoming generations of destructive insects may be prevented by giving attention to the insect problem early in the spring," says W. Bruce Mabee extension entomologist at State College. "Very often we wait until we see considerable damage and then it is too late to help. We should keep close watch to get the best results from control methods."

Mr. Mabee states that upon finding insects injuring vegetables, it must first be determined whether they are the biting or sucking kind. If they have jaws and eat the foliage, they may be controlled by dusting or spraying with some stomach poison as arsenate of lead or calcium arsenate. If the insects have sucking mouth parts, that is, a bill to puncture the plant and suck out the sap, they can be killed by a contact insecticide. This kills by coming in contact with the body and may be like the nicotine sulphate or oil emulsions.

"Sometimes," says Mr. Mabee, "there are diseases such as tomato blight which do considerable damage. These are controlled by fungicide sprays or dusts such as the Bordeaux mixture. It has been found that this may be combined with arsenate of lead, nicotine sulphate or both and thus get disease and insect control at the same time. There are some mixtures already prepared that may be purchased on the market and used in small gardens without great cost."

Those who suffer damage from insect pests and wish to have information about them should write to the extension entomologist at State College sending in a specimen of the pest

Notice of Tax Sale

To Rhodes Pucket Mica Mining company and all other persons, firms or corporations, having or claiming to have any right, title or interest in the following described property: You and each of you will take notice that at a sale of land for taxes held at Franklin, Macon county, North Carolina, on the 6th day of July, 1925 the undersigned purchased for the taxes due thereon, the following described land: All the mineral interest in the J. Swine Growing Pays When Developed Right

Raleigh, N. C.—From five grade sows and a pure bred Berkshire sire a swine growing industry has been developed on the farm of the Upper Coastal Plain branch station near Rocky Mount that is returning approximately \$3,000 per year to the farm.

"This is an instance of profits in swine raising when the work is started in the right way," says Prof. R. S. Curtis, animal husbandman at State College. "This work was started only four years ago and was begun by selecting from a car of hogs that we secured in Georgia for feeding purposes, five of the best looking brood sows. These we crossed with a pure bred Berkshire sire and now from the farm, we are shipping annually, two car loads of fat hogs, one in the spring and one in the fall. In about two weeks' time, Prof. Earl Hostetter, who has charge of our swine work, will ship 60 head of 200-pound, well finished hogs to the Richmond market."

Prof. Curtis states that this is one idea that should be adopted by farmers all over North Carolina. The total cost of the hogs used to start this work did not exceed \$75 and from this start has grown a two carload business annually returning approximately \$3,000.

This but emphasizes more than ever the practical method of growing into the hog business instead of buying into it as so many growers try to do and so often fail. Prof. Curtis states that it is really an inspiration to see the good things which may come in livestock farming from small beginnings when properly managed.

MR. TOM PORTER BUYS

Tuesday Mr. Tom Porter closed the deal with Mr. Norman Barnard for approximately 15 acres just outside the city limits on the Georgia road. This tract lies just south of the home of Mr. Barnard. The consideration was announced as \$500 per acre. Mr. Porter will probably build a brick residence on his new holdings. The site purchased by Mr. Porter is one of the most choice in Macon county, magnificent views of the mountains being obtained in all directions.

WORK RUSHED ON NEW BLOCK

Messrs. Franks, Cunningham and Cabe have a large force of hands at work this week grading the basement for the new block to be erected on Swan street on the site of the old meat market. The necessary brick are already on the ground. The entire building will be rushed to completion at the earliest possible date.

Sell the cull hens.

BETHEL NOTES

Mr. George Scott is wearing a smile this week—a nine-pound girl. A lot of sickness around Bethel—flu and mumps.

Miss Nellie Scott is improving some. We hope Nellie will soon be able to be back in Sunday school again.

We would be glad if everybody around would come and help in our Sunday school.

**SPRING
—IS—
COMING**

THE dull, dirty winter is almost gone. Soon you will be cleaning house and the Living Room that has seen such hard service for the past six months will need brightening up with New Furniture and Curtains and Draperies. So we have prepared in advance to meet your needs with the most beautiful stock of

HOUSE FURNISHINGS

we have ever offered for the selection and approval of the people of this community. Beautiful Suites and Odd Pieces, Tables of all descriptions, Floor Lamps, Table Lamps, Mirrors and Rugs and many other things to brighten up your home and to keep it comfortable and cheerful.

Come In And Let Us Show You That We Can Supply All Your Home Furnishing Needs At Less Than The Prices Asked In The Big City Stores.

A Special Demonstration of the Westinghouse

AUTOMATIC ELECTRIC RANGE

April 12th and 13th; also night of 13th, at store room in Hotel Franklin Building.

Both women and men invited.

Electricity is cheaper than wood or coal. Help pay your taxes by using more current.

WATER AND LIGHT DEPARTMENT

T. W. ANGEL, JR., Manager.

Through a Special Arrangement with the Manufacturers

You can be a better cook even than Mother by using the Westinghouse Automatic Electric Range—the range with the clock.

Think of it! You can prepare a big roast, and five vegetables simultaneously—all will be ready for serving at the same time—none will taste of the others, even if one of the vegetables is onions!

That's only one of the marvelous things you'll learn at these demonstrations. All without obligation. Be sure to come while the Expert Home Economics Instructor is here.
