Announce Development Harrison Cove Place

The beginning of the development of a 457-acre tract, known as the Harrison Cove place, was announced here this week by C. R. Lewis and associates, who have purchased the property from J. O. Harrison.

The property is just off the government trail from the top of Trimont to Wayah Bald, and is about midway between the tops of the two peaks. It is likewise near a good road. Roads and trails are being built into the property and the streams are to be stocked with speckled trout, it is announced.

The developers plan to make of the place a camp, where tourists may enjoy the pleasures of camping with most of the drudgery eliminated. A central dining room is to be constructed, cabins are to be built and conveniently equipped with running water, shower baths, etc.; tennis courts are to be constructed, and other forms of amusement provided.

Mr. Lewis believes the location is ideal. He points out that it is a nice length hike from Franklin to the camp; and another from there to Wayah Bald; and that the camp can be reached over the mountain trails by horseback or over the road by motor.
