

Land Two Twenty-Pound Catfish at Burningtown

Burningtown, August 19.—A 19½ pound catfish was landed here recently by Carl Huggins. Stephen Duvall caught its mate a few days later, the second catch tipping the scales at 20 pounds.

Miss H. M. Berry's mother is visiting her daughter here. Miss Berry is organizing a rural credit cooperating association in Macon county.

Miss Smith to Wed Mr. Scroggs Thursday

On next Thursday evening at 8 o'clock, Miss Margaret Bearden Smith will become the bride of Mr. Fleet Hall Scroggs at the Franklin Methodist church. Rev. C. B. Reavis, pastor of the church will perform the ceremony.

Miss Virginia Smith, sister of the bride-elect, will be maid of honor. Mr. Scroggs' best man will be Mr. G. Edgar Joyner, of Rocky Mount, Mr. Scroggs' room mate while the two were students at the university. Little Misses Mildred Harris and Audrey Conley will be flower girls.

Miss Smith, the attractive daughter of Dr. and Mrs. F. T. Smith, has always made her home in Franklin except for the time she spent at North Carolina College for Women. Mr. Scroggs, who has made his home here for the past several years, is a graduate of the school of pharmacy at the University.

Note to Correspondents

The Franklin Press is making every effort to publish the news not only of Franklin, but of the entire county as well. To do this, it is necessary for the management to have the cooperation of the paper's correspondents.

Correspondence should contain all the news of the community, but nothing else. Only live news—something that has happened more recently than a month ago—is desired. Editorial comment—what the writer thinks about the way things are going in his community or the county—ordinarily is out of place in news correspondence. Opinions may be embodied in letters to the editor, which, if they discuss public questions and are not too long, will be welcomed.

The Press reiterates the policy which it, in common with practically all newspapers, follows: namely, NOTHING is published unless the writer's name accompanies the news article or letter. The name will not be published if this is requested, but the identity of the author must be known to the management of the paper.

The Press wants a correspondent—one who will consistently send in all the live news, and who is reliable—at every postoffice in the county. If the news of your community is not being published in the columns of the paper, write the editor about becoming the correspondent for your community.

Sam L. Franks spent the week end in Greensboro with Mrs. Franks, who is in Greensboro teaching in summer school.

Mrs. Laura Bowman and daughter, Miss Naomi, of Muskogee, Okla., are visiting Mrs. Bowman's aunt, Mrs. Eliza Kelley.

Veteran cars shed their carbon

New lubricating oil proves it with Buicks, Packards and others

A TEST on a Buick for carbon deposit with the new "Standard" Motor Oil showed amazing results. When the car was examined before the test there were heavy accumulations of carbon on cylinder heads and pistons. The new "Standard" Motor Oil was then put in the crankcase and the car run 2,969 miles. Again it was examined. *Most of the carbon had disappeared*—the slight amount remaining was easily wiped off with a cloth.

The new oil is a perfect all 'round' lubricant, giving a complete piston seal; smoother operation at all speeds; cooler motor; increases in oil mileage of 12% to 40% and in gas mileage of 10% to 20%.

Verify these astounding results with a crankcase full of "Standard" Motor Oil in your own car. *You can actually feel the difference.*

STANDARD OIL COMPANY (New Jersey)

"STANDARD" MOTOR OIL

7 Advantages of "Standard" Motor Oil

1. Constant lubrication.
2. Minimum friction.
3. Less "breaking-down" under load or at high speeds.
4. More miles per quart of oil.
5. Better hill climbing—smoother operation.
6. Negligible carbon.
7. Actual saving in gasoline.
