

### THE STORMING OF THE GATES

This picture is typical of many such scenes enacted daily at the main gates of the Sesqui-Centennial International Exposition in Philadelphia where the 150th anniversary of the signing of the Declaration of Independence is being celebrated. The "shot" was made from outside the gates and shows the long sweep of historic Broad street, the main artery of the exposition. To the left can be seen one of the capitols of the Palace of Liberal Arts and Manufactures which covers nearly eight acres of grounds and which houses some of the finest exhibits ever seen. The Exposition will continue until December 1.

### Prosperous Dairy Year Shown by Butter Prices

THE 1925 butter market reveals a prosperous condition in the dairy industry, according to the year-end agricultural review of the Larrowe Institute of Animal Economics. Although butter production during the first nine months of the past year seems to have lagged behind the corresponding period in the year previous, it was larger during the last quarter of 1925 than in the corresponding period of 1924. Beginning with October, receipts were the largest on record at this season of the year. For the year as a whole they were about 3 per cent less than in 1924.

Prices averaged higher than in 1924. The average wholesale price of 92 score creamery butter on the New York market in 1925 was approximately 45 cents a pound compared with 41 cents the year previous. Highest 1925 prices were received in October and November when weekly averages reached 52 and 51.5 cents, respectively.

### Solesbee Opposes Absentee Vote Law

A. S. Solesbee, Republican candidate for representative from Macon county, issued a statement Monday in which he placed himself on record as opposing the absentee voters law. J. A. Porter, Democratic candidate for representative, has also announced opposition to the law.

Mr. Solesbee's statement follows: "To my fellow citizens:

"I take this method to express to you my position with reference to the Absentee Vote law which has, and is, causing so much strife among our people. When this law was first enacted it could have possibly been justified, but it has served its day and should be removed from our statutes at the earliest moment possible.

"The way in which this law is being administered is making a gaping wound in our county for which there is no balm. It stands without a parallel except the bloody code drafted by Draco for ancient Athens. I am unalterably opposed to it.

"I will give to you a little later my platform, every plank of which I think will be sufficiently strong to bear up the weight of a brave and generous people who acknowledge no criterion but success.
