

LOW RATES for time payments on these cars

ANY FAMILY entitled to credit may buy a General Motors car and pay for it while using it, under the GMAC Plan.

When time payments first became an accepted form of car purchase, General Motors organized its own finance company, the General Motors Acceptance Corporation, to make sure that the sale of its cars on time would be in the buyer's interest and that the finance charges would be fair.

GMAC rates have always been low; and the last reduction has saved General Motors' customers more than \$12,000,000.

The General Motors line includes "a car for every purse and purpose"—a suitable model for every income. You can buy it out of income, paying no more than the cash delivered price, plus *only* the low GMAC financing charge. And the whole transaction is so conducted as to keep your goodwill and satisfaction.

PICKING POTATO BUGS A HOPELESS TASK

Two pounds of arsenate of lead added to the regular Bordeaux spray mixture will control potato bugs effectively. Those who have calcium arsenate and a cotton duster may use these effectively but the man who depends on picking the bugs to save his potatoes has a hopeless task.

"The Colorado Potato Beetle is a serious pest of potatoes," says C. H. Brannon, extension entomologist at State College. "The plants are first attacked by the over-wintered beetles and later by the first generation of slugs. If the pest is not poisoned,

the plants are soon ruined, leaving the stems which become dry and black. No grower should permit the bugs to damage his crop. Control measures are simple and effective. The best remedy is to use two pounds of arsenate of lead with the Bordeaux mixture made with four pounds of bluestone, four pounds of stone lime and 50 gallons of water."

Mr. Brannon states that the arsenate of lead will poison the bug while the Bordeaux will repel flea beetles and leaf hoppers.

Hoppers have been unusually abundant this season. Paris green will not give as good results as the arsenate of lead as a poison for the beetles. Several applications of poison will

have to be made and the fields should be watched closely to see that the beetles are kept under control.

Save money on Tire Mileage!

More deliveries for the commercial car

Delivery car owners can tell you the facts about tire costs. They figure the cost of their tires by the number of deliveries one set of tires will give. More miles mean more deliveries—at lower cost. That's why commercial car owners use Silvertowns.

Every day in the week, we feature values in tires.

Our values mean more mileage—at economical cost.

Here you get Silvertowns—just packed full of miles—Silvertowns at prices that cut their cost per mile the lowest it has ever been.
