

**CARD OF THANKS**

We want to thank our many friends who were kind and helpful through the suffering of our dear father, Julius William Harrison Edwards, and faithful to the last. Their many kind deeds and many floral offerings

were the limit of mortals. We also want to thank the Odd Fellows for burial services, both of Franklin and Waynesville.—His children: Mrs. Nettie C. Barnes, Thomas W. Edwards, Henry R. Edwards, John W. Edwards.

They include the lowest handling and financing charges available.

In thousands of average American homes there are now two automobiles — "a car for her, too," so there may be transportation for the family while "he" drives away to work.

And no other car is so admirably suited to a woman's requirements as the Most Beautiful Chevrolet.

It is easy to start because of its famous Delco-Remy electric starting system. It is easy to stop because of powerful, over-size brakes. And it is easy to drive and park because of a modern three-speed transmission, smooth-acting disc clutch, and a semi-reversible steering gear that gives finger-tip steering.

FRANKLIN, N. C.

QUALITY AT LOW COST

**Munday Issues Challenge**

What's the matter with Logansville and Franklin? It's about time they were putting on another horse shoe tournament.

On behalf of Franklin Theodore Munday issues the challenge in language loud and coarse. Logan Allen from whom Logansville takes its name is reported to have said recently that Franklin has only mediocre horse shoe tossers. This report seems to have riled the proprietor of the Munday Hotel with the results that a challenge was issued in no unmistakable language. Now let's see who's boss.

Etna, N. C., May 24, 1927.

Editor Franklin Press:—There has been quite a little excitement in the Oak Grove settlement over the appearance of an animal first seen last Friday and continued to be seen until Monday morning by quite a number of people, but not at close range, and there has been various ideas given as to what it was. Some said it was a lion, others said deer, wolf, coyote, etc. One man said its tail was at least four feet long with a bush on the end like a lions.

On Sunday it was seen and chased by parties but not captured. Early Monday morning some parties arose long before day and started out on pursuit of the varment with their double barrel shot guns. One young man remarked "men if we find him I want you all to take care of my gun, for I am going in." The party failed to find it but about an hour later it was seen in an open field. The parties were called together by the sound of a hunder's horn.

The party got in close range thim time and quite a number of farmers were armed and on their way. Several shots were fired around in the thicket near the Etna postoffice and the animal was killed by Chas. Bradley and John Hall. Lo! and behold! it turned out to be a German police dog, with tail about 18 inches long, but yet the wonder is where did he come from. Reports is that he has been seen around the foot hills of the Mouse mountain for about six weeks.

The N. C. State Agriculturist is the name of a magazine published monthly by the students of the School of Agriculture at State. The June issue of this publication has been received in Macon county. It is a well edited number and contains many articles of value to the farmers of the state. Frederick Sloan, a Franklin boy, is editor-in-chief.

**For Your Decoration Day Trip and All Season — Enjoy the Safety, Comfort and Economy of**

Note balanced tread with even wear—no excess or wasted rubber. Flexes freely with Gum-Dipped carcass—easier riding—easier steering.

No ply separation or "shoulder breaks"—extraordinary mileage. Has trade-in value, or can be re-treaded to give additional thousands of miles.

"Built for Service"

**Firestone GUM-DIPPED TIRES**

**Firestone Round Tread Balloon**

MANY Firestone Dealers are prepared to take in your old tires, offering you a liberal allowance on a new set of Gum-Dipped Balloons.

Firestone Dealers are given the advantages of attending Tire Educational Meetings held throughout the country, where tire design and construction are discussed. The sections of used tires reproduced here are a part of this program. Study these two sections and you, too, will understand what Firestone means by tires built for service and tires made to sell.

Note unbalanced tread with uneven wear—excess rubber at shoulders wasted, stiffening tire, making it harder riding and harder steering.

Note how hinging action at heavy shoulder causes ply separation and broken carcass.

"Made to Sell"

**Flat Tread Balloon**

The Firestone Gum-Dipped Balloon with its scientifically designed tread permits free flexing, easier riding, extra comfort and safety.

The balloon tire with heavy, flat tread design is obviously stiffer and rides harder. The excess rubber, placed for appearance at the edges of the tread, is not only wasted but produces hinging action causing ply separation and "shoulder breaks."

Firestone designed and manufactures Oldfield Tires and Tubes, distributing them direct to Firestone Dealers only, through 148 Factory Warehouses. This efficient and economical distribution assures tire buyers everywhere, clean, fresh stocks of Firestone and Oldfield Tires in all types and sizes, and has helped to make possible today's remarkably low prices—the lowest in tire history. See the Firestone Dealer today.

**FACTS about used car allowances**

Most new car sales now involve the trading-in of a buyer's used car. More and more people are asking: "Why should my used car seem to have several values? . . . Why should dealers in different makes of cars offer me allowances differing materially? . . . Does the largest allowance offered mean the best deal for me?"

*Here are basic facts:*

- 1 Your used car has seemingly different values because competitive dealers are bidding to sell you a new car.
- 2 Your used car has only one fundamental basis of value: what the dealer who accepts it in trade can get for it in the used car market.
- 3 The largest trade-in allowance which is offered on your used car is not necessarily the best deal for you. Sometimes it is; but sometimes it is not.
- 4 An excessive allowance may mean that you are paying an excessive price for the new car in comparison with its real value.
- 5 Judge the merits of the new car in comparison with its price, including all delivery and finance charges. Then weigh any difference in allowance offered on your used car.

WHEN YOU are ready to trade-in your present car, remember that after all you are making a purchase and not a sale. You are buying a new car and simply applying your present car as a credit toward the purchase price of a new car.
